

Meeting **Leicestershire Pension Fund Annual General Meeting**

Date/Time **Monday, 13 December 2021 at 12.00 pm**

Location **Council Chamber, County Hall, LE3 8RA and Via Microsoft Teams**

Officer to contact **Miss C Tuohy (0116 305 5483).**

E-Mail cat.tuohy@leics.gov.uk

This meeting is open to all members of the Leicestershire County Council Pension Fund, including active contributors, deferred members and pensioners.

Any Leicestershire Pension Fund Scheme member, or any member of the public, can follow proceedings at the virtual [Annual General Meeting](#) and participate in the moderated Q&A session on the following link:

www.tinyurl.com/2ca8rk8u

You are also welcome to attend the meeting in person if you wish in the Council Chamber at Leicestershire County Council, County Hall, Glenfield, Leicester LE3 8RA.

The meeting is being broadcast using Microsoft Teams Live Event. Further advice on accessing meetings through Teams, is available here:

<https://support.office.com/en-us/article/Attend-a-live-event-in-Teamsa1c7b989-ebb1-4479-b750-c86c9bc98d84>

AGENDA

<u>Item</u>	<u>Report By</u>	<u>Marked</u>
1. Minutes of the meeting held on 14 December 2021.		(Pages 3 - 6)
2. Question Time.		
3. Questions asked by members under Standing Order 7(3) and 7(5).		
4. To advise of any other items which the Chairman has decided to take as urgent elsewhere on the agenda.		
5. Declarations of interest in respect of items on		

the agenda.

- | | | | |
|----|--|---------------------------------|-----------------|
| 6. | Pension Fund Annual Report and Accounts 2020/21. | Director of Corporate Resources | (Pages 7 - 100) |
|----|--|---------------------------------|-----------------|

This item will include a presentation by the Director of Corporate Resources and representatives from LGPS Central.

- | | | | |
|----|------------------------------------|---------------------|-------------------|
| 7. | Local Pension Board Annual Report. | Local Pension Board | (Pages 101 - 108) |
|----|------------------------------------|---------------------|-------------------|

8. Appointment of Scheme Member Representative to the Local Pension Committee.

One nomination was received for the Local Pension Committee, no ballot is therefore required. Mr. G. Lawrence will therefore be appointed to the Local Pension Committee for a period of three years.

9. Appointment of Scheme Member Representatives to the Local Pension Board.

One nomination was received for the Local Pension Board, no ballot is therefore required. Mr. M. Saroya will therefore be appointed to the Local Pension Board for a period of three years.

There is therefore a vacancy for the reserve Scheme Member representative. Please use the contact details above if you would be interested in the role.

10. Any other items which the Chairman has decided to take as urgent.

Minutes of the Annual Meeting of the Local Pension Committee with the Contributors to, and Beneficiaries of the Pension Fund, held via Microsoft Teams Live on Monday, 14 December 2020.

PRESENT:

Mr. P. Osborne CC (in the Chair)

Leicestershire County Council

Mr. R. Shepherd CC

Mrs R. Page CC

Leicester City Council

Cllr. R. Govind

Employee Representatives

Mr. N. Booth

73. Minutes of the meeting held on 18 November 2019.

The minutes of the meeting held on 18 November 2019 were taken as read, confirmed and signed.

74. Question Time.

The Chief Executive reported that no questions had been received under Standing Order 34.

75. Questions asked by members under Standing Order 7(3) and 7(5).

The Chief Executive reported that no questions had been received under Standing Order 7(3) and 7(5).

76. To advise of any other items which the Chairman has decided to take as urgent elsewhere on the agenda.

There were no urgent items for consideration.

77. Declarations of interest in respect of items on the agenda.

The Chairman invited members who wished to do so to declare any interest in respect of items on the agenda for the meeting. No declarations were made.

78. Pension Fund Annual Report and Accounts 2019/2020.

The Director of Corporate Resources gave a presentation on the annual report and accounts of the Pension Fund 2019/20. A copy of the report and presentation is filed with these minutes.

The meeting was open to questions from Fund Members, in response the

following points were noted:-

- i. The Restriction of Public Sector Exit Payments regulation took effect from 4 November 2020 and introduced the £95,000 exit cap. This created a conflict with current Local Government Pension Scheme regulations as it required members to take payment of an unreduced pension, whereas the exit cap regulations prevented the employer from paying the full strain cost. It was expected that the LGPS regulations would be updated early 2021. In the meantime, a policy had been agreed by the Local Pension Committee on how to deal with impacted cases from 4 November 2020.
- ii. The Pensions Manager had contacted all employers to ask them to familiarise themselves with current guidance and consider whether any staff may be impacted. It was hoped the expected revisions to the LGPS regulations would clarify the situation and impact for the Fund, employers and employees. The Pension Manager would continue to keep employers up-to-date of the situation when further clarification was available from HM Treasury and the Ministry of Housing, Communities and Local Government. Any Scheme Members who had concerns should contact their respective employer.
- iii. Members were assured that Leicestershire Pension Fund was constantly looking to improve environmental, social and governance factors within the Fund as set out in its Responsible Investment Strategy and Climate Risk plan.
- iv. Leicestershire County Council Pension Fund pooled with either other partner authorities in 2018 to create LGPS Central which aimed to benefit funds by reducing costs, improving investment returns and widening the range of available asset classes. Members were assured that Central were also committed to Responsible Investment and undertook positive engagement and voting on behalf of partners. Central felt that not only was it the right approach ethically but that it further supported long term returns, which it evidenced within its stewardship report.

RESOLVED:

- a. That the contents of the Annual Report for 2019/20 and the Director's presentation be noted.
- b. That examples be provided regarding LGPS Central's positive engagement success in influencing companies to be more ESG issue minded.

79. Local Pension Board Annual Report.

Mrs. R. Page CC presented a report on behalf of the Local Pension Board. A copy of the report is filed with these minutes.

RESOLVED:

That the report be noted.

80. Election of Employee Representative to the Local Pension Committee.

The Chairman reported that one nomination for the position of employee representative on the Local Pension Committee had been received. The nomination was for Mr. N. Booth. No ballot was therefore required. It was noted that current employee representatives elected to the Committee were

Mr. A. Wilson (to remain a staff representative for a period of two years)
Ms. J. Dean (to remain a staff representative for a period of one year)

RESOLVED:

That Mr N. Booth be appointed Employee Representative for a period of three years expiring at the Annual Meeting in 2023.

81. Election of Employee Representatives to the Local Pension Board.

The Chairman reported that one nomination each had been received for the position of employee representative and reserve representative on the Local Pension Board from Ms. C. Fairchild and Mr M. Saroya. No ballot was therefore required. It was noted that current employee representatives elected to the Board were:

Ms R. Gilbert (to remain a employee representative for a period of two years)
Ms D. Haller (to remain a employee representative for a period of one year)

RESOLVED:

That Ms. C. Fairchild be appointed employee representative for a period of three years expiring at the Annual Meeting in 2023.

That Mr. M. Saroya be appointed reserve employee representative for a period of one year expiring at the next Annual Meeting.

82. Any other items which the Chairman has decided to take as urgent.

The Committee considered this matter, the Chairman having decided that it was of an urgent nature...

83. Date of the next Annual General Meeting.

RESOLVED:

That officers be requested to determine an appropriate date and time for the next Pension Fund Annual Meeting and publicise this date on the County Council's Website.

12:00 – 12:49

The Fund has a number of policy statements including:

- Funding Strategy Statement
- Investment Strategy Statement and Investment Advisor Objectives –
- Administration & Communication Strategy

These are available on the link below. They have not been reproduced within the Annual report, as when taken in combination are sizeable and some have previously been seen by the Pensions Committee.

<https://leicsmss.pensiondetails.co.uk/home/scheme-member/lgps/fund-admin-and-guidance/pension-fund-and-finance>

INTRODUCTION

Leicestershire County Council is the administering body for the Local Government Pension Scheme (LGPS) within Leicestershire and Rutland. Leicestershire County Council has a statutory obligation to administer a Pension Fund for eligible employees of all Local Authorities within the geographic boundaries of Leicestershire and Rutland and also the employees of certain other scheduled and admitted bodies. The Fund does not cover teachers, police or fire-fighters as they have their own schemes.

This report has been produced in accordance with Section 57 of the Local Government Pension Regulations 2013. It sets out the way in which the Pension Fund is managed both in relation to the administration of benefits and to the investment of the Fund's assets.

The benefits within the scheme are determined by regulation and guaranteed by statute. The pension fund exists to help defray the cost of paying pension benefits. Contributions to the pension scheme are made by both employees and employers. Any new employee is automatically brought into the scheme unless they opt out.

$$\boxed{\text{Employee Contributions}} + \boxed{\text{Employer Contributions}} + \boxed{\text{Investment Returns}} = \boxed{\text{Pension Payments}}$$

The Fund's membership increased by approximately 2,000 during 2020/21 and at the year-end stood at just over 97,500. Active employees and Pensioners saw an increase in numbers while deferred pensioners saw a decrease in numbers.

SCHEME MANAGEMENT AND ADVISORS

The Local Pension Committee is responsible for the management of the Fund, and considers pensions matters with a view to safeguarding the interests of all Fund members. The Members who sit on the Committee act on behalf of the beneficiaries of the LGPS and in this way have a similar role to trustees in primarily protecting the benefits of the LGPS members, overseeing the direction of investments and monitoring liabilities. The Committee comprises of five County Council members, two from Leicester City Council, two members representing the District Councils, one representative of De Montfort/Loughborough Universities and three non-voting staff representatives. In order to ensure continuity, staff representatives, who are chosen at the Fund's Annual General Meeting, are appointed to the Committee for a three year period but arrangements have been made to ensure that at least one staff representative place becomes available each year. The Local Pension Committee sets the overall investment strategy for the Fund and will deal with all investment governance issues. The Committee meets quarterly and also has a separate annual meeting to consider strategic issues relevant to the Fund.

The Investment Subcommittee consists of six voting members (the Chair, Vice Chair, one other elected member of the County Council, the Universities representative and one member representing each of the City and District Councils, all of whom are members of the Local Pension Committee) and one non-voting staff representative. Its role is to consider action that is in-line with the strategic benchmark agreed by the Board and to take a pro-active approach to the Fund's investments, and also to deal with 'tactical' issues associated with implementing the strategy, such as investment manager appointments and the timing of asset allocation changes.

The Committee and Subcommittee receive investment advice from Hymans Robertson LLP and are supported by Independent Advisor, Clare Scott. Other consultants will also be utilised if there is felt to be an advantage to this.

The Local Pension Board was established by the Administering Authority under Regulation 106 of the Local Government Pension Scheme Regulations 2013 (as amended) and operates independently of the Local Pension Committee. The Board's role is to assist the County Council as the Administering Authority and Scheme Manager in ensuring the effective and efficient governance and administration of the Local Government Pension Scheme. The Administering Authority retains ultimate responsibility for the administration and governance of the Scheme.

Membership of the Local Pension Board consists of six voting members. Three employee representatives elected in the same manner as those employee representatives on the Local Pension Committee, and three employer representatives comprising two elected members of Leicestershire County Council and one elected member from Leicester City Council.

There is a statutory requirement for the Fund to maintain a Governance Compliance Statement, and this is replicated in full in the [Governance Compliance Section here](#).

At a national level the LGPS is governed by the Department for Levelling Up, Housing and Communities (DLUHC) and the LGPS Scheme Advisory Board (SAB). The LGPS also takes account of guidance issued by the Pensions Regulator and Pensions Ombudsman determinations.

The role of the SAB is to help and support DLUHC and administering authorities fulfil their statutory duties and obligations. The SAB aims to be both reactive and proactive. It will seek to encourage best practice, increase transparency and coordinate technical and standards issues.

RISK MANAGEMENT

There are many risks associated with the Local Government Pension Scheme, covering both the investment of the assets and the administration of the benefits payable. Officers monitor Fund risk and bring a risk report to each Local Pension Committee and Local Pension Board meeting, to provide the latest position on key risks.

The risks are individually scored and each has additional controls applied to mitigate the risk. Any risk score of 15 or over is classed as a very high risk, and escalated within Leicestershire County Council. There are no scores on the Pension Fund risk register 15 or over.

The biggest ongoing risk for the Fund is that the value of assets held will ultimately be insufficient to pay for all the benefits due. This risk is quantified by a triennial actuarial valuation, which compares the value of assets to the accrued liabilities and sets employer contribution rates that are considered appropriate to ensure that all benefits can be paid. As at March 2021 the overall Funding position had improved but the final position cannot be confirmed until the next Fund valuation on 31 March 2022. The performance of the assets of the Fund is an important element in helping to maintain affordable employer contribution rates – the higher the long-term investment return achieved, the more of the benefits will be funded by investment returns rather than employer and employee contributions. A long-term approach is taken to agreeing an asset allocation benchmark, with both return and risk considered. The Fund's asset allocation policy is reviewed annually.

Individual investment manager performance is of lower importance than the asset allocation benchmark, but individual manager performance does have an impact and their performance is considered and reviewed regularly. When there are doubts about a manager's ability to generate future performance that is in line with the Fund's requirements/expectations appropriate action will be taken, and this may include the release of a manager. It is not generally optimal to change managers on a frequent basis due to the associated costs (which are mainly the impact of bid/offer spreads and charges within markets), and as a result changes are considered very carefully before they are agreed.

The Local Pension Committee receives advice from the investment practice of Hymans Robertson and is supported by an independent investment advisor, and this assists in making decisions in respect of both overall investment policy, manager selection/retention and good governance.

The Fund employs a large number of investment managers, and all of these invest in a specific asset class and can be termed 'specialist'. Many of these managers are required to have external assessments of their systems and operations and these are reviewed to ensure that there are no issues which put the Fund's investments at risk.

Other investment managers that the fund employs are appointed by LGPS Central Ltd, a company which pools together pension fund assets from various pension funds across the Midlands. Leicestershire County Council along with 8 other pension funds is a joint owner of the company. The company has its own governance and risk management structures in place.

Under the Pensions Regulations all employers must pay over contributions deducted from employees, plus the required employer contributions, to the administering authority within certain timescales. These payments are monitored closely, and immediate action is taken in the event of a late payment. Late payment does not put the benefits of individuals at risk.

Many of the risks associated with providing efficient and cost-effective Pensions Administration are mitigated by ensuring that officers involved in LGPS are knowledgeable and well-trained on an on-going basis. Ensuring that employers understand their responsibilities to the Fund and fulfil them efficiently is also crucial, and an on-going programme of support for them is in place.

FINANCIAL PERFORMANCE

Non-investment cash inflows for the fund come via payments from Employers of their and employees' contributions. There were a small number of incidences of late payment of contributions by employers over the year, and these were exclusively because of administrative failings on their part. On each occasion the employer was reminded of their responsibilities, and it was not felt necessary to levy interest on overdue contributions. Employer contributions ranged from 0% to 35.7% with the average employer rate being 25.4%.

Administrative costs were at £45.3m for the year compared to £41.0m in the previous year (2019/20). This increase was largely due to additional investment manager costs based on the assets under management and transitioning investments to LGPS Central. Investment management fees are variable as they are based on market values that are impossible to predict in advance. Action was taken during the year to reduce investment management costs where there was opportunity to do so. There were no material movements in non-investment assets and liabilities.

The general trend of overall net cash flows is monitored, whether these are derived from investment or non-investment related sources. Non-investment cash flows were positive by almost £62.1m in 2020/21, compared to £44.1m in 2019/20. In addition, the Fund received investment income of £30.7m. In the context of the funds, £5billion of assets, the cash flow movements are not material. Any short-term cash surpluses or shortfall can be managed through the funds passive investments that have good levels of liquidity.

Cash flows are unlikely to reduce in the near future. Benefits paid are increasing, due to increasing numbers of pensioners and inflation-linked annual increases, the value of this increase is offset by the increasing rate of employers' contribution. In future years this could result in a reduction in the available cashflow and will require monitoring. The Fund also has significant investments in accumulation funds where the investment income is reinvested rather than distributed, and these could, if required, be changed to income producing funds with the generation of an extra £30m+ cash flow p.a.

The overall impact of a strong positive cash flow is that the Fund has flexibility in the selection of investments and fewer restrictions due to liquidity concerns. There are strong controls in place for ensuring that all income due is received and that benefits are not overpaid. A monthly automated check of pensioners is carried out through a reliable tracing agency to ensure that UK based pensions cease upon death, and the Fund has a very low incidence of overpayments that occur either as a result of fraud, late notification or error.

Details of contributions in and payments out of the fund are shown overleaf:

Pension Fund Annual Report

2019/20		2020/21
£m	Payments in:	£m
(167.9)	Employer Contributions	(183.0)
(42.7)	Member Contributions	(45.1)
(12.3)	Transfers in From Other Pension funds	(5.3)
(222.9)	Total Inflows	(233.4)
	Payments out:	
127.8	Pensions	132.1
32.9	Lump Sum Retirement Benefits	27.5
3.1	Lump Sum Death Benefits	5.0
15.0	Payments to and on Account of Leavers	6.7
178.8	Total Outflows	171.3
(25.9)	Net Cash (inflows)	(62.1)

2020/21 Performance Vs Budget

The outturn for 2020/21 was:

Heading	Budget £000s	Actual £000s	Variance £000s
Investment Management Expense:			
o Management	26,400	23,284	-3,116
o Transaction	9,900	7,071	-2,829
o Performance	5,500	13,241	7,741
Sub Total	41,800	43,596	1,796
LGPS Central costs	950	993	43
Staffing	1,300	1,202	-98
IT costs	500	425	-75
Actuarial costs	400	77	-323
Support Services	400	451	51
Total	45,350	46,744	1,394

Forecast v Outturn report on pension fund cash flows

The Fund is cash flow positive (income exceeds the liabilities to be paid) meaning that sale of investments is not required outside of asset transitions. As such the cash flow monitoring is focused on making investments to keep the variance to the strategic asset allocation as low as possible. Hence the approach taken to date has been to forecast cash-flow when deciding the funding approach for new investments. On overview of the funds cashflow and forecasting approach is shown below.

Heading	£ millions	Forecast approach
Net investment activity	55	Significant underlying activity, in excess of £1Bn, due to transitions to LGPS Central. Target net investment, rather than income, due to the positive cash flow position. Net income shown is distributions from private market managers. Guidance by managers tends to be short term, so difficult to predict overall but as spread through year can 'mop-up' when investing. Reinvestment wasn't achieved due to waiting for capital calls and availability of LGPS Central products.
Currency Hedge	140	Dependent upon relative currency performance and Aegon's decisions. Very hard to forecast and necessitates the holding of a cash buffer
Management Expenses	(44)	Able to make good level of prediction, although elements are performance dependant
Investment Income	31	Primarily from Infrastructure and property assets, usually predictable
Non-investment income	63	Employer and employee contributions exceed the benefit payments made. Only moves gradually compared to the previous year, unless a step change following the tri-annual valuation.
Cash increase	245	Aim to keep cash change close to zero by reinvesting. Has been difficult due to currency volatility and availability of private market investments.

Details of over payments, recoveries and amounts written off, Including the results of participation in NFI exercises

The biennial National Fraud Initiative (NFI) exercise for 2020/21 identified four pensions overpayments totalling £18k. NFI matches current pensions to DWP deceased persons data to identify anomalies. The cases noted were exceptions to the rule such as overseas pensioners where preventative controls are somewhat weaker, i.e. where a death was not registered in the UK. Recovery is underway in each of the four cases and there is no indication of fraud. Moving forward, the Pensions Section will data match to DWP deceased persons data twice-yearly, in addition to the standard NFI cycle, in order that anomalies can be identified and investigated earlier in the process, and recovery initiated without delay. No overpayments were identified outside of the NFI exercise.

PENSION SCHEME ADMINISTRATION

The number of scheme members who are either active contributors, receiving a benefit or who have a future entitlement to a benefit increased by 2129 over the course of the year. This figure excludes the 5,000+ members who have no entitlement to a benefit from the fund but do retain the right to either a refund of contributions or a transfer to an alternative pension arrangement.

Active membership increased by 1193 from 35,779 to 36,972.

Pensioners increased by 1053 from 29,036 to 30,089.

Preserved membership decreased by 117 from 30586 to 30,469.

The Fund's employers have completed the auto enrolment process, with many of the larger employers completing this prior to 2017/18. The auto enrolment process forces employing bodies to bring almost all employees that are eligible to join the LGPS but are not currently scheme members into the scheme. This is reflected by the increase in active members over the past 5 years.

Membership has been increasing at a rate of 2.43% per annum over the past 5 years, a trend that is expected to continue.

Membership numbers over the last 5 years are shown in the graph below:-

	% increase over 5 years
Contributors	11.0%
Pensioners	19.4%
Preserved Benefit	1.2%

Leicestershire Pension Fund contributions:

Employer Name	Employer	Employee
	Contributions	Contributions
	£000	£000

Total	183,013	45,063

The Leicestershire Local Government Pension Fund provides services in line with the requirements of a fund of this nature. This includes the correspondence with members, calculation of benefits, maintenance of members records and data and Pension payments through the payroll service. A service is also provided for members to log onto the online member site and a service for employers to upload member data monthly.

The fund has 34.2 full time equivalent working in Pension Scheme Administration. Scheme membership is 97,503 equating to 2,852 members per FTE.

The fund has several performance indicators in respect of administration performance, which are split between speed of processes and customer satisfaction. These are reported on a quarterly basis to the Local Pension Board.

Pension Fund Annual Report

Internal Disputes

If you are not satisfied with any decision given by either the Pension Section or your employer/ former employer, relating to your Local Government Pension Scheme (LGPS) benefits, you may appeal in writing under the Internal Disputes Resolution Procedure (IDRP). You must write within 6 months of receiving the decision.

Any points of difference should firstly be addressed with the Pensions Office on an informal basis. You can write to:

The Leicestershire County Council Pension Section, County Hall, Glenfield, Leicester, LE3 8RB

Or, contact the Pensions Officer who has dealt with your case. Their name and contact details will be on your correspondence.

We will then try to resolve the matter for you. Should you still be unhappy and wish to take the matter further you can request an information sheet and form to complete. This will contain the name and address of the 'Specified Person' nominated by your employer or former employer who would formally investigate your complaint.

Following this, if you are still dissatisfied with their decision, a 'second stage' of complaint can be requested, which will be looked at by the Legal Services team at Leicestershire County Council in most cases.

Should you be dissatisfied with the outcome of this, further details of the next stages of complaint would be provided at the time, should this be necessary.

Further advice can be found at the following:

Phone: 0800 011 3797

LGPS Regulation & Guidance Web: <https://www.lgpsregs.org/>

In the year April 2020 to March 2021 there were six IDRPs "second stage" appeals. Three of these were resolved, two remain ongoing, and one case is with the Ombudsman pending a decision.

Statement on Value for money

A formal value for money statement has not been completed. Elements of what would be included in such a statement are included in the report. For example, pensions administration 20-21 KPIs covering business process and member experience and investment performance against benchmark.

It is proposed to start including a statement for the 2021/22 report.

INVESTMENT POLICY AND PERFORMANCE

The Fund's strategic asset allocation benchmark at the year end was as follows. The benchmark is updated once a year usually in the first calendar quarter. Changes to the portfolio holdings are enacted over the year to adjust towards the benchmark. At the year end the major differences to the benchmark weights was overweight 'growth' assets :by c7% and underweight 'income' assets by c12%. Growth assets contain the Funds equity holdings which had performed very well compared to other asset classes pushing up the weighting. In addition, three targeted return funds were overweight to benchmark awaiting a new fund from LGPS Central to be launched at which point the weighting would be reduced. Investment committee decisions to invest into 'income' assets were taken during the course of 2021 when LGPS Central launched infrastructure, multi asset credit and private debt products which the Fund made commitments to.

	Weighting	Benchmark	Difference
Growth	62.20%	55.25%	6.95%
Income	25.10%	36.75%	-11.65%
Protection	9.40%	8.00%	1.40%
Cash	3.30%	0.00%	3.30%
	100.00%	100.00%	0.00%

The setting of the strategic benchmark is the one of the most important decision that the Committee makes. It is this decision that will have the most significant impact on the investment return achieved and approximately 90% of the Fund's overall risk is encompassed within the choice of benchmark. Individual investment manager choices are important as they can produce added value by outperforming their benchmarks, but their influence is small in comparison to the choice of benchmark. Variances to benchmark positions can take time to close especially when investments or divestments need to be made to illiquid products such as infrastructure and property that usually have a time lag between committing capital and the money being requested (called) by the investment manager.

Although some investments have moved over to LGPS Central as part of asset pooling, the Local Pension Committee still retain full responsibility for asset allocation and will continue to be accountable for the majority of the Fund's investment performance.

A comprehensive analysis of investment holdings by manager and their associated performance is provided in Appendix A. A summary is provided below:

	1 Year %		3 Years % p.a		5 Years % p.a	
	Fund	Benchmark	Fund	Benchmark	Fund	Benchmark
Growth assets	32.9	31.3	9.3	9.5	11.2	11.3
Income assets	2.7	3.6	3.5	4.0	6.3	4.7
Protection assets	3.8	5.0	4.0	4.2	7.9	7.4
TOTAL FUND	22.1	19.8	7.2	7.3	9.5	8.6

The Fund has a large number of investment managers and it is inevitable that some of them will have periods of disappointing performance – sometimes this disappointing performance can last

multiple years, and can be the result of a particular investment 'style' not being in favour with market sentiment. It is important to understand why managers are performing as they are, regardless of whether this is above or below their benchmark and to assess whether this is a cause for concern. Spontaneous reactions that are based on relatively short periods of poor performance are not usually sensible and understanding the reasons for poor performance is vital. It is implausible to believe that all managers appointed by the Fund can simultaneously perform well, in fact the Fund is positioned such that some protection assets should perform well in traditional market downturns. The Fund needs to have a reasonable spread of management styles and asset classes and occasionally a manager is chosen specifically because they provide diversification of the source of returns from other managers within the overall portfolio.

The Local Pension Committee and Investment Subcommittee will continue to monitor the performance of managers and make changes when it is deemed appropriate, although the pooling of investments within the Local Government Pension Scheme mentioned earlier in this report means that there needs to be a greater awareness of when action is appropriate and when it is not and indeed action will be taken at a pooled level rather than an individual pension fund level. Since 1st April 2014 all investment performance has been measured net of investment management fees and the figures quoted above are, therefore, after taking these into account.

The management of the individual asset classes is carried out as follows:

Growth Assets

The Fund has a global passive equity manager (Legal and General) that manages against both market capitalisation benchmarks and also against alternative benchmarks. The Fund has two active equity investments with LGPS Central (the pooling company), a global equity multi manager investment and an active emerging market multi manager product. The Fund also has invested into a passive product with LGPS Central, a climate multi factor fund within the last year.

Within growth assets the Fund also has private equity investments (i.e. investment in unquoted companies), the vast majority of which is managed by Adams Street Partners as well as the three managers classed within targeted return class.

The Fund's targeted return exposure can generally be categorised as investments that are seeking to make a return of 4% p.a. more than could be achieved by an investment in cash and with the expectation that the return will be achieved with relatively low volatility. There are many different ways of achieving this goal and the Fund has three different managers employed in this area - Aspect Capital Partners, Ruffer and Pictet Asset Management.

Income Assets

Property - Colliers Capital UK manage a directly owned property portfolio but have scope to invest in specialist pooled property funds which are in areas that they find attractive but would not be practical to buy directly, usually due to the size of individual investments (for example leisure complexes based around multiplex cinemas or Central London offices).

La Salle Investment Management manage a portfolio of pooled property funds, which includes some covering a wide range of property types and some which are specialist in nature. Via their ability to research the underlying holdings and the skills of the property managers, it is expected that they will add value to the Fund.

The Fund has also invested in two stand-alone property 'recovery' funds, managed by Aegon Asset Management.

Infrastructure – The Fund employs five managers covering a broad range of global infrastructure with exposure to core infrastructure such as toll roads, ports and timber farms to more value add / opportunistic exposure including asset leasing, data centres and solar projects.

Other asset classes included within the income class include various types of credit investments. Emerging market credit and private credit to corporate enterprises feature in this class. Partners Group are the single biggest manager with whom the Fund invests within private credit. The emerging market credit exposure is via a multi manager fund from LGPS Central.

Protection assets

UK inflation is one of the Fund's biggest risks, due to the direct link to benefits and the less-direct link to salary growth of active members. Protecting against this risk is, therefore, sensible but it is also expensive. It involves taking money out of assets that are seeking investment growth (e.g. equities) and investing it in safer, and therefore lower-returning, index-linked bonds. This would push up employers' contribution rates to levels which are unaffordable, so cannot be implemented in a large scale manner.

The most natural asset for protecting the Fund against its inflation risk is UK Government index-linked bonds, these are expensive as there are a number of price-insensitive buyers and a lack of supply. As a result the Fund has a three-pronged approach to obtaining some protection against inflation, investment in infrastructure and timberland, both of which have a good historic link to inflation and also a global government index-linked portfolio. Aegon Asset Management manages a portfolio of global index-linked stocks. Some inflation protection is afforded by exposure to global infrastructure managers where underlying assets are subject to contracted or regulated income.

Other mandates included within protection assets are a short dated investment grade bond fund with Aegon Asset Management and a LGPS Central investment grade corporate bond fund. Both aim to provide stable but lower rates of returns than similar funds included within the income portfolio.

Other portfolios

Active foreign exchange hedging is undertaken by Aegon Asset Management to reduce the impact of currency fluctuations from the Fund's holdings which are held in currencies other than sterling. At the year end the benchmark level of hedge as advised by Hymans and approved by the Pension Committee is 30% of foreign currency exposure. Aegon manage the level of hedge of currencies the Fund is exposed to between unhedged and fully hedged based on their view of the prevailing market conditions.

RESPONSIBLE INVESTING (RI)

RI introduction

The term ‘responsible investment’ refers to the integration of financially material Environmental, Social and Governance (“ESG”) factors into investment processes. It has relevance both before and after the investment decision and is a core part of our fiduciary duty. It is distinct from ‘ethical investment’, which is an approach in which the moral persuasions of an organisation take primacy over its investment considerations.

Effective management of financially material ESG risk should support long term investment returns. The Fund’s responsible investing (RI) policy is contained within the investment strategy statement alongside the Fund’s view of environmental social and governance (ESG). The Fund is continually developing its RI policies with the support of LGPS Central’s in house team. Fund’s launched by LGPS Central ensure ESG credentials of managers are tested during the procurement phase.

The Fund’s 2021 RI plan is shown below with progress as at the year end shown. Post the year end the RI plan has largely continued as expected with the second climate risk report (CRR) scheduled to be delivered before the calendar year end. The CRR report will again analyse the Funds listed equity exposure against the relevant benchmarks for the investment and provide analysis against various metrics including carbon footprints and exposure to green revenues. The report will incorporate areas that the Fund can investigate to improve climate metrics.

At each opportunity to present to the Funds Pension Committee, Investment Managers delivered ESG updates alongside the traditional market and performance. This will enhance the knowledge of the committee to make more informed decisions in the future.

As an externally managed pension fund, the Investment Managers contracted by the Fund are instructed to exercise, on behalf of the Pension Fund, all rights (including voting), having regard to the best long-term financial interests of the Fund. This includes factors relating to climate change and climate policy. The Fund will not appoint any manager unless they can show evidence of being able to fulfil the Fund’s investment objectives, including its Responsible Investment objectives in the course of due diligence performed.

LGPS Central and RI

The Fund is a part-owner of LGPS Central, an asset manager that will increasingly manage the Fund’s holdings. With the Fund’s support, LGPS Central has developed a leading approach to responsible investment and has identified climate change as one of its stewardship priorities.

The Fund invests in a number of investment products launched by LGPS Central as detailed within the investment policy and performance section of this report. Central have a published a ‘responsible investment and engagement framework’ available on the company’s website:

<https://www.lgpscentral.co.uk/wp-content/uploads/2021/06/LGPSC-RI-E-Framework-2021.pdf>

This framework contains two key objectives:

- To support the company’s investment objectives
- To be an exemplar for Responsible Investment within the financial services industry and raise standards across the market

To supplement Central's RI policy they publish quarterly stewardship reports which are available on their website and are taken to each Local Pension Committee to highlight engagement progress and developments within responsible investing.

The Pension Committee endorses Central's RI beliefs which are summarised below:

- Long termism: A long term approach to investment will deliver better returns and the long term nature of LGPS liabilities allows for a long term investment horizon.
- Responsible investment is supportive of risk adjusted returns over the long term, across all asset classes. Responsible investment should be integrated into the investment processes of the Company and its investment managers.
- Diversification, risk management and stewardship: Diversification across investments with low correlation improves the risk return profile. A strategy of engagement, rather than exclusion, is more compatible with fiduciary duty and more supportive of responsible investment, because the opportunity to influence companies through stewardship is waived in a divestment approach. Even well diversified portfolios face systematic risk. Systematic risk can be mitigated over the long term through widespread stewardship and industry participation.

Membership of the Local Authority Pension Fund Forum (LAPFF)

The LAPFF is an association of local authority pension funds, with over 80 LGPS funds as members with collective fund value of over £300bn. The forum:

- Seeks to protect and enhance the value of members shareholdings by optimising local authority pension funds' influence as shareholders on ESG (environmental, social and governance) issues and thereby to promote Corporate Social Responsibility and high standards of Corporate Governance
- Facilitates commissioning of research and policy analysis of issues more effectively than individual members
- Provides a forum for consultation on shareholder initiatives
- Provides a forum for information exchange and discussion about any investment issues
- Provides a forum to consider issues of common interest to all pension fund administrators and trustees

Legal and General Investment Management (LGIM)

LGIM are one of the Funds largest managers who at the year end managed 17% of the Funds assets via a number of low cost passive index funds. Voting activity and engagement is carried out by LGIM in line with their published RI policies which are available on their website. The results of their engagement and voting activity is collated by Central and is reported to the committee on quarterly basis.

Collective pressure from investors via organisations such as the LAPFF has helped to encourage

listed companies to enhance their corporate governance and to improve their environmental and social impacts.

RI and Voting

Central provide the Fund with a quarterly update of voting activity. This is focused on listed equities. This voting activity covers the funds managed by Central and the fund's managed by Legal and General investment management (LGIM). At 30th March 2021 this covered c45% of all Fund assets. Around 20% of fund assets reside within debt and property and have no voting rights.

Both Central and LGIM with whom the Fund has the majority of listed equities vote at company meetings in line with their RI policies. Central provide a summary of voting quarterly. The Fund expects the proportion of assets to be managed by Central to increase over time as assets are transitioned into pooled vehicles. Central's Responsible Investment and Engagement framework will be applied to all investments.

The update on voting activity contains information such as the number of resolutions voted on, whether votes were opposing the management, detail on what types of votes were cast, for example board structure and remuneration. Officers summarise the voting results and present to the Pension Committee each quarter.

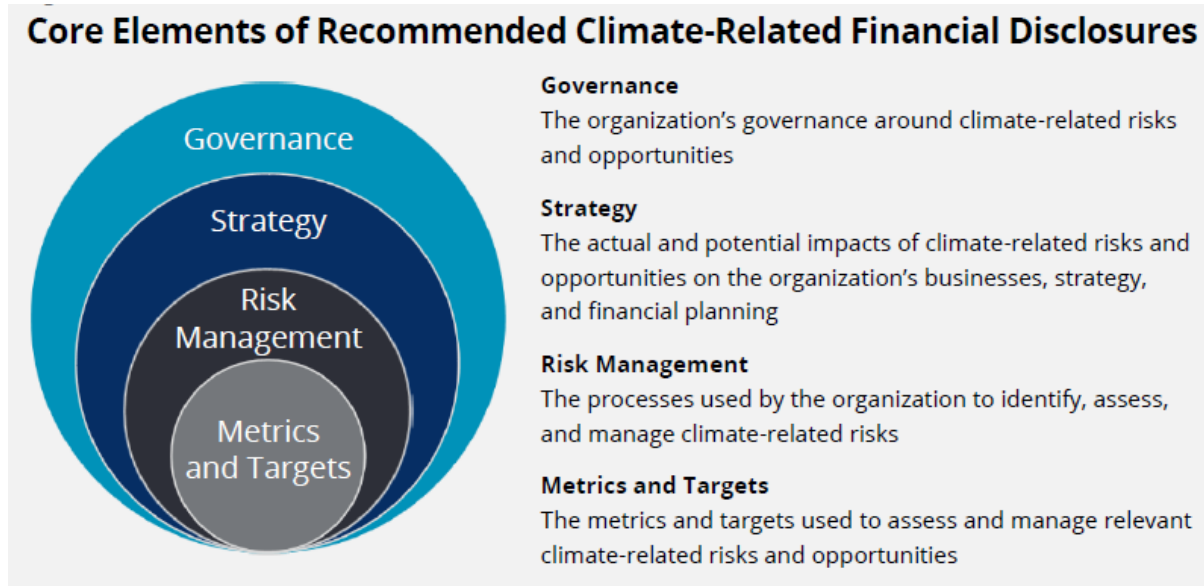

Introduction to the Taskforce on Climate-related Financial Disclosures

The Fund is committed to being a responsible long term investor, this is reflected within the Fund's Investment Strategy Statement (ISS). The Fund, as a responsible owner, has a strategy of engagement with companies to improve their stewardship, rather than simply excluding them from the investment portfolio. This is evidenced by the Fund's engagement through its partners with numerous companies on climate and other ESG matters.

The Taskforce on Climate-related Financial Disclosures (TCFD) was commissioned in 2015 by Mark Carney (then Governor of the Bank of England) in his remit as Chair of the Financial Stability Board. In 2017 the TCFD released its recommendations for improved transparency by companies, asset managers, asset owners, banks, and insurance companies with respect to how climate-related risks and opportunities are being managed. Official supporters of the TCFD total 930 organisations representing a market capitalisation of over \$11 trillion. Disclosure that aligns with the TCFD recommendations currently represents best practice. The Fund produced its first TCFD report and presented it to the Local Pension committee in June 2021. A copy can be found on the Fund's [website](#).

The TCFD recommendations are based on the financial materiality of climate change. The four elements of recommended disclosures (see illustration below) are designed to make TCFD-aligned disclosures comparable, but with sufficient flexibility to account for local circumstances. These disclosures and metrics will evolve and develop over time and will aim to include more portfolio assets than listed equities.

TCFD Disclosure Pillars:

The Fund supports the TCFD recommendations as the optimal framework to describe and communicate the steps the Fund is taking to manage climate-related risks and incorporate climate risk management into investment processes. As a pension fund we are long-term investors and are diversified across asset classes, regions and sectors, making us "universal owners". It is in our interest that the market is able to effectively price climate-related risks and that policy makers are able to address market failure. We believe TCFD-aligned disclosure from asset owners, asset managers, and corporates, is in the best interest of our beneficiaries.

TCFD Report Summary

In 2020 the Fund commissioned its pooling company, LGPS Central Limited, to undertake an in-depth review of the Fund's exposure to financially material climate-related risks and opportunities. The Climate Risk Report included both climate scenario analysis and carbon risk metrics. The report was presented to the Pensions Committee in November 2020, with all recommendations in the report receiving approval by the Committee. In the interests of being transparent with the Fund's beneficiaries and broader stakeholder base, the Fund published its first TCFD aligned report in May 2021. A summary of the TCFD report is provided below.

Governance

The Pension Committee ("the Committee") is responsible for preparing the Investment Strategy Statement (ISS). The ISS includes a formal investment belief on responsible investment, recognising its ability to enhance long term performance. The Pension Fund Committee meets quarterly and includes voting reports from its LGIM and LGPS Central sub-funds as well as the LGPS Central Quarterly Stewardship Update.

The Fund Officers have primary day-to-day responsibility for the way in which climate-related investment risks are currently managed. As a primarily externally managed fund, the implementation of much of the management of climate-related risk is delegated onwards to portfolio managers. External portfolio managers are monitored on a regular basis by the Pensions Committee.

Strategy

The Fund considers climate-related risks and opportunities over the short, medium and long term. Examples of short- and medium-term risks include policy tightening and technological change, while long term risks include sea level rise and resource scarcity.

The Fund engaged the expertise of an external contractor to understand the extent to which the Fund's risk and return characteristics could come to be affected by a set of plausible climate scenarios. This analysis covered all asset classes across three climate scenarios: 2°C, 3°C and 4°C. The results of the Climate Scenario Analysis indicated that a 2°C scenario is, according to the model used, the best climate scenario from a returns perspective, while a 4°C scenario is the worst of the three considered.

Risk Management

The Fund seeks to identify and assess climate-related risks at the total Fund level and at the individual asset level. Engagement activity is conducted with investee companies through selected stewardship partners including LGPS Central Limited, EOS at Federated Hermes and LAPFF. Based on its Climate Risk Report, the Fund will develop a Climate Stewardship Plan which, alongside the widescale engagement activity undertaken by our stewardship partners, will include targeted engagement at investee companies of particular significance to the Fund's portfolio. The Climate

Stewardship Plan includes nine companies across five sectors: Energy, Info Tech, Materials and Utilities.

Metrics & Targets

The Fund's carbon risk metrics cover its listed equities portfolios, which represent 49% of the Fund's total assets. The scope of the analysis comprises the total equities portfolios as at 31st December 2019 and covers 14 out of 14 equity strategies and 5,020 individual companies. The carbon footprints are provided below and illustrated in the graphic.

- Total Equities: 160.2 (tCO₂e/ \$m revenue)
- Total Active Equities: 109.6 (tCO₂e/ \$m revenue)
- Total Passive Equities: 178.8 (tCO₂e/ \$m revenue)
- Total portfolio measured: 158.8 (tCO₂e/ \$m revenue)*

*The Total Portfolio could not be run against a benchmark due to an investment within the portfolio being run against the LIBOR, which is out with the scope of climate risk providers data.

Both the Total Equities portfolio and the Total Active Equities portfolio are more carbon efficient than their benchmarks. The Total Equities portfolio is c.17% more carbon efficient than its benchmark, while the Total Active Equities portfolio is c.52% more carbon efficient. As the underlying portfolios in the Total Passive Equities are passively managed, their carbon footprints are identical to the indexes they track.

The CRR also measures the Funds weight to fossil fuel reserves and weight in clean technology versus the benchmarks for each of the mandates. The graphs below illustrate the positive performance versus both benchmarks.

Overall, the Fund has a lower exposure to fossil fuel reserves compared to the benchmark, 8.57% versus 9.32% as at 31st December 2019. This is driven by the much lower exposures within the active equity portfolios given the passive portfolios mirror the benchmark.

The Fund's weight to companies engaged in clean technology activities is higher than the benchmark position, 34.16% versus 33.92% as at 31st December 2019. Again, this is driven by the much lower exposures within the active equity portfolios given the passive portfolios mirror the benchmark.

LGPS CENTRAL POOL

As mentioned earlier in the report the Fund is an investor in LGPS Central Ltd, a company which pools together pension fund assets from various pension funds across the Midlands. Leicestershire County Council along with eight other funds is a joint owner of the company. The company has its own governance and risk management structures in place. The aim of the Company is to use the combined buying power of its partner funds to reduce costs, improve investment returns and widen the range of available asset classes for investment – all for the benefit of local government pensioners, employees and employers. Further information on the Governance Structure on LGPS Central can be found within the [Governance Compliance Section here](#).

LGPS Central Ltd is based in Wolverhampton and their details can be found below:

Assets under management

During the 2020/21 financial year, the following assets were transitioned into the pool by the Leicestershire Fund:

Fund Name	NAV at Transition
All World Equity Climate Multi Factor Fund	£746.8m
Global Active Emerging Market Bond MMF	£111.4m
Global Active Investment Grade Corporate Bond MMF	£100.0m

In total as at 31 March 2021 £1,661.9m worth of assets were managed directly by the LGPS Central Pool. Further to this the Fund has £833.5m worth of passive equities which are invested in a collectively pooled vehicle. As at 31 March 2021 48% of the Fund's assets are pooled.

There are also advisory and executions mandates held with the pool for the following assets:

Targeted Return	£535.9m
Property	£389.5m

Post Pooling report

The information request set out below reflects the information required by Partner Funds to meet the CIPFA Annual Report Pooling Disclosures in 2019/20. Please note that the information request reflects the start-up nature of LGPS Central and the level and complexity of the disclosures required will increase in later years.

Pension Fund Annual Report

The analysis provided by LGPS Central relates to the Leicestershire Pension Fund. The provision of the information by LGPS Central to each Partner Fund should ensure consistent reporting across Partner Funds, and allow LGPS Central to aggregate, and reconcile back the individual Partner Fund disclosures, to the Company's financial statements.

1. Set up costs

Leicestershire's share of the set-up cost associated with the pool were as follows:

£000	Cumulative 2014/15 to 2018/19 Total
Set Up Costs	
Recruitment	0
Procurement	27
Professional Fees	2
IT	187

ACTUARIAL STATEMENT

Leicestershire County Council Pension Fund (“the Fund”)

Actuarial Statement for 2020/21

This statement has been prepared in accordance with Regulation 57(1)(d) of the Local Government Pension Scheme Regulations 2013. It has been prepared at the request of the Administering Authority of the Fund for the purpose of complying with the aforementioned regulation.

Description of Funding Policy

The funding policy is set out in the Administering Authority’s Funding Strategy Statement (FSS). In summary, the key funding principles are as follows:

- to ensure the long-term solvency of the Fund using a prudent long-term view. This will ensure that sufficient funds are available to meet all members’/dependants’ benefits as they fall due for payment;
- to ensure that employer contribution rates are reasonably stable where appropriate;
- to minimise the long-term cash contributions which employers need to pay to the Fund, by recognising the link between assets and liabilities and adopting an investment strategy which balances risk and return (this will also minimise the costs to be borne by Council Tax payers);
- to reflect the different characteristics of different employers in determining contribution rates. This involves the Fund having a clear and transparent funding strategy to demonstrate how each employer can best meet its own liabilities over future years; and
- to use reasonable measures to reduce the risk to other employers and ultimately to the Council Tax payer from an employer defaulting on its pension obligations.

The FSS sets out how the Administering Authority seeks to balance the conflicting aims of securing the solvency of the Fund and keeping employer contributions stable. For employers whose covenant was considered by the Administering Authority to be sufficiently strong, contributions have been stabilised to have a sufficiently high likelihood of achieving the funding target over 17 years. Asset-liability modelling has been carried out which demonstrate that if these contribution rates are paid and future contribution changes are constrained as set out in the FSS, there is at least a 75% likelihood that the Fund will achieve the funding target over 17 years.

Funding Position as at the last formal funding valuation

The most recent actuarial valuation carried out under Regulation 62 of the Local Government Pension Scheme Regulations 2013 was as at 31 March 2019. This valuation revealed that the Fund’s assets, which at 31 March 2019 were valued at £4,312 million, were sufficient to meet 89% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date. The resulting deficit at the 2019 valuation was £537 million.

Each employer had contribution requirements set at the valuation, with the aim of achieving their funding target within a time horizon and liability measure as per the FSS. Individual employers’ contributions for the period 1 April 2020 to 31 March 2023 were set in accordance with the Fund’s funding policy as set out in its FSS.

Principal Actuarial Assumptions and Method used to value the liabilities

Full details of the methods and assumptions used are described in the 2019 formal valuation report.

Method

The liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date; and makes an allowance for expected future salary growth to retirement or expected earlier date of leaving pensionable membership.

Assumptions

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the Fund assets at their market value.

The key financial assumptions adopted for the 2019 valuation were as follows:

Financial assumptions	31 March 2019
Discount rate	3.8%
Salary increase assumption	2.8%
Benefit increase assumption (CPI)	2.3%

The key demographic assumption was the allowance made for longevity. The life expectancy assumptions are based on the Fund's VitaCurves with improvements in line with the CMI 2018 model, an allowance for smoothing of recent mortality experience and a long-term rate of 1.25% p.a. Based on these assumptions, the average future life expectancies at age 65 are as follows:

	Males	Females
Current Pensioners	21.5 years	23.8 years
Future Pensioners*	22.2 years	25.2 years

*Aged 45 at the 2019 Valuation.

Copies of the 2019 valuation report and Funding Strategy Statement are available on request from the Administering Authority to the Fund.

Experience over the period since 31 March 2019

Markets were severely disrupted by COVID 19 in March 2020, but in the 2020/21 year they recovered strongly. As a result, the funding level of the Fund as at 31 March 2021 is likely to be broadly similar to that reported at the previous formal valuation.

The next actuarial valuation will be carried out as at 31 March 2022. The Funding Strategy Statement will also be reviewed at that time.

FINANCIAL STATEMENTS

Pension Fund

(Registration number: 00328856RQ)

Introduction

The Leicestershire County Council Pension Fund (the Fund) is part of the Local Government Pension Scheme (LGPS) and is administered by Leicestershire County Council.

General

The scheme is governed by the Public Service Pension Act 2013. The fund is administered in accordance with the following secondary legislation:

- the Local Government Pension Scheme Regulations 2013 (as amended)
- the Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended)
- the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016

It is a contributory defined benefit pension scheme administered by Leicestershire County Council to provide pensions and other benefits for pensionable employees of Leicestershire County Council, Leicester City Council, the district councils in Leicestershire and a range of other scheduled and admitted bodies within the county area. Teachers, police officers and firefighters are not included as they come within other national pension schemes. The fund is overseen by the Leicestershire County Council Pension Fund Committee, which is a committee of Leicestershire County Council.

The Pension Committee consists of ten voting members and three non-voting staff representatives. The voting members are split into five County Council members, two from Leicester City Council and two representing the District Councils and a single member representing Universities. The Committee receives investment advice from the funds Actuary, Hymans Robertson LLP, and meets quarterly to consider relevant issues.

Membership

Membership of the LGPS is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal arrangements outside the scheme.

Organisations participating in the fund include the following:

- Scheduled bodies, which are automatically entitled to be members of the fund.
- Admitted bodies, which participate in the fund under the terms of an admission agreement between the fund and the employer. Admitted bodies include voluntary, charitable and similar not for profit organisations, or private contractors undertaking a local authority function following outsourcing to the private sector.

Pension Fund Annual Report

Membership details are set out below:

	31-Mar-20	31-Mar-21
Number of employers	268	283
Number of employees in the scheme (Actives)		
County Council	8,488	8,474
Other employers	27,291	28,498
Total	35,779	36,972
Number of pensioners		
County Council	11,399	11,641
Other employers	17,637	18,448
Total	29,036	30,089
Deferred pensioners		
County Council	12,377	12,145
Other employers	24,997	25,458
Total	37,374	37,603
Total number of members in the pension scheme	102,189	104,664

Summary of the employers in the fund

Employers with Active Members:	
Scheduled and resolution bodies	146
Admitted Bodies	45
Employers with no active members:	
Scheduled and resolution bodies	66
Admitted Bodies	26
Total Employers	283

Funding

Benefits are funded by contributions and investment earnings. Contributions are made by active members of the fund in accordance with the Local Government Pension Scheme Regulations 2013 and range from 5.5% and 12.5% of pensionable pay for the financial year ending 31 March 2021. Employers contributions are set based on triennial actuarial funding valuations. In 2020/21 the average employer rate was 25.4% of pay (24.5% 2019/20).

Benefits

Prior to 1 April 2014, pension benefits under the LGPS were based in final pensionable pay and length of pensionable service. From 1 April 2014, the scheme became a career average scheme, whereby members accrue benefits based on their pensionable pay in that year at an accrual rate of 1/49th. Accrued pension is updated annually in line with the Consumer Prices Index. A range of other benefits are also provided including early retirement, disability pensions and death benefits, as explained on the LGPS website, <https://www.leicestershire.gov.uk>

Fund Account for the Year Ended 31 March 2021

2019/20 £m		Notes	2020/21 £m
	Contributions		
(167.9)	Employer Contributions	6	(183.0)
(42.7)	Member Contributions	6	(45.1)
(12.3)	Transfers in from Other Pension Funds	7	(5.3)
(222.9)	Total Contributions		(233.4)
	Benefits		
127.8	Pensions	8	132.1

160.8	Net Returns on Investments (Sub Total)		(1,010.2)
156.8	Net (Increase) / Decrease in the Net Assets Available for Benefits fund During the Year		(1,027.0)
(4,312.0)	Net assets of the scheme Opening		(4,155.2)
(4,155.2)	Net assets of the scheme Closing		(5,182.2)

Net Assets Statement as at 31 March 2021

2019/20 £m		Notes	2020/21 £m
4,152.7	Investment assets	12	5,183.5
(5.8)	Investment liabilities	12	(10.9)
4,146.9			5,172.6
12.7	Current Assets	15	15.3
(4.4)	Current Liabilities	15	(5.7)
4,155.2	Net Assets of the Fund at 31 March		5,182.2

The financial statements summarise the transactions of the Fund and deal with the net assets at the disposal of the Council. They do not take account of obligations to pay pensions and benefits which fall due after the end of the Fund year. The actuarial position on the Scheme, which does take account of such obligations, is set out in the Actuary's Report.

The notes on pages 85 to 112 form part of the Financial Statements.

Notes to the Accounts

1. Basis of Preparation

The Statement of Accounts summarises the Fund's transactions for the 2020/21 financial year and its position as at 31 March 2021. The accounts have been prepared in accordance with the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the Code) which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The Code requires disclosure of any accounting standards issued but not yet adopted. No such accounting standards have been identified for 2020/21.

The accounts report on the net assets available to pay pension benefits. They do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year nor do they take account of the actuarial present value of promised retirement benefits. The Fund has disclosed this information, by appending a copy of the report to the Pension Fund accounts.

The Accounts have been prepared on a going concern basis.

2. Accounting policies

The following principal accounting policies, have been adopted in the preparation of the financial statements:

Fund Account – Revenue Recognition

a) Contribution Income

Normal contributions are accounted for on an accruals basis as follows:

- Employee contribution rates are set in accordance with LGPS regulations, using common percentage rates for all schemes which rise according to pensionable pay.
- Employer contributions are set at the percentage rate recommended by the fund actuary for the period to which they relate.

Employer deficit funding contributions are accounted for on the basis advised by the fund actuary in the rates and adjustment certificate issued to the relevant employing body. Additional employers' contributions in respect of ill-health and early retirements are accounted for in the year the event arose. Any amount due in the year but unpaid will be classed as a current financial asset.

b) Transfers to and from other Schemes

Transfers in and out relate to members who have either joined or left the fund. Individual transfers in/out are accounted for when received or paid. Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in Transfers In, shown in Note 7. Bulk (group) transfers are accounted for in accordance with the terms of the transfer agreement.

c) Investments

Interest Income is recognised in the fund account as it accrues, using the effective interest rate of the financial instrument as at the date of acquisition or origination.

Dividend Income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.

Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.

Property related income consists primarily of rental income. Rental income from operating leases on properties owned by the fund is recognised on a straight line basis over the terms of the lease.

Changes in the value of investments are recognised as income and comprise all realised and unrealised profit/ losses during the year.

Fund Account – Expense Items

d) Benefits Payable

Pensions and lump-sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the net assets statement as current liabilities.

e) Taxation

The fund is a registered public service scheme under Section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a fund expense as it arises.

f) Management Expenses

The fund discloses management expenses for administration, oversight and governance, and investment management. The disclosures comply with the CIPFA guidance 'Accounting for Local Government Pension Scheme Management Expenses (2016)'.

Investment management expenses are charged directly to the Fund as part of management expenses and are not included in, or netted off from, the reported return on investments. Where fees are netted off quarterly valuations by investment managers, these expenses are shown separately in Note 10A and grossed up to increase the change in value of investments.

Fees of the external investment managers and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

Net Assets Statement

g) Investments

Equities traded through the Stock Exchange Electronic Trading Service (SETS) are valued at bid price. Other quoted securities and financial futures are valued at the last traded price. Private equity investments and unquoted securities are valued by the fund managers at the year end bid price, or if unavailable in accordance with generally accepted guidelines. Accrued interest is excluded from the market value of fixed interest securities and index-linked securities but is included in investment income receivable.

Pooled Investment Vehicle units are valued at either the closing bid prices or the closing single price reported by the relevant investment managers, which reflect the accepted market value of the underlying assets.

Private equity, global infrastructure and hedge fund valuations are based on valuations provided by the managers at the year end date. If valuations at the year end are not produced by the manager, the latest available valuation is adjusted for cash flows in the intervening period.

Property investments are stated at open market value based on an expert valuation provided by a RICS registered valuer and in accordance with RICS guidelines.

Options are valued at their mark to market value. Forward foreign exchange contracts outstanding at the year end are stated at fair value which is determined as the gain or loss that would arise if the outstanding contract was matched at the year end with an equal and opposite contract. The investment reconciliation table in Note 12 discloses the forward foreign exchange settled trades as net receipts and payments.

h) Foreign currencies

Assets and liabilities in foreign currencies are expressed in sterling at the rates of exchange ruling at the year-end. Income from overseas investments is translated at a rate that is relevant at the time of the receipt of the income or the exchange rate at the year end, whichever comes first.

Surpluses and deficits arising on conversion or translation are dealt with as part of the change in market value of investments.

i) Cash and Cash Equivalents

Cash comprises cash in hand and demand deposits and includes amounts held by the fund's external managers. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.

j) Financial Assets

Financial Assets classes as amortised cost are carried in the net assets statement at amortised cost, i.e. the outstanding principal as at the year end date.

k) Financial Liabilities

A financial liability is recognised in the net assets statement on the date the fund becomes party to the liability. The fund recognises financial liabilities relating to investment trading at fair value as at the reporting date, and any gains and losses arising from changes in the fair value of the liability between contract date, the year end date and the eventual settlement date are recognised in the fund account as part of the Change in Value of Investments. Other financial liabilities classed as amortised cost are carried at amortised cost, i.e. the amount carried in the net asset statement is the outstanding principal repayable plus accrued interest.

l) Actuarial Present Value of Promised Retirement Benefits

The actuarial present value of promised retirement benefits is assessed on a triennial basis by the scheme actuary in accordance with the requirements of IAS19 and relevant actuarial standards. As permitted under the Code, the fund has opted to disclose the actuarial present value of promised retirement benefits by appending a copy of the report to the Pension Fund Accounts.

m) Additional Voluntary Contributions

The Fund provides an additional voluntary contribution (AVC) scheme for its members, the assets of which are invested separately from those of the pension fund. AVC's are not included in the accounts in accordance with Section 4(1)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016, but are disclosed for information in Note 26.

n) Contingent Assets and Contingent Liabilities

A contingent asset arises where an event has taken place giving rise to a plausible asset whose existence will only be confirmed or otherwise by the occurrence of future events.

A contingent liability arises where an event has taken place prior to the year end giving rise to a possible financial obligation whose existence will only be confirmed or otherwise by the occurrence of future events. Contingent liabilities can also arise in circumstances where a provision would be made, except that is not possible at the balance sheet date to measure the value of the financial obligation reliably.

Contingent assets and liabilities are not recognised in the net asset statement but are disclosed by way of narrative in the notes.

3. Critical Judgements in Applying Accounting Policies

Pension Fund Liability

The net pension fund liability is recalculated every three years by the appointed actuary, with annual updates in the intervening years. The methodology used is in line with accepted guidelines. The estimate is subject to significant variances based on changes to the underlying assumptions which are agreed with the actuary and have been summarised in the introduction to the accounts. Actuarial revaluations are used to set future contribution rates and underpin the fund's most significant investment management policies, for example in terms of the balance between longer term and short term yield/ return.

Investment in LGPS Central Asset Pool

This investment has been valued at cost on the basis that fair value as at 31 March 2021 cannot be reliably estimated. Management have made this judgement because; a) the Pool only became licensed to trade in February 2018, b) no dividends to shareholders has yet been declared, and c) no published trading results are yet available.

Directly Held Property

The fund's property portfolio includes a number of directly owned properties which are leased commercially to various tenants. The fund has determined that these contracts all constitute operating lease arrangements under IAS7 and the Code, and therefore the properties are retained on the net assets statement at fair value. Rental income is recognised in the fund account on a straight line basis over the life of the lease.

4. Assumptions Made about the Future and Other Major Sources of Estimation Uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts. Estimates and assumptions take account of historic experience, current trends and future expectations, however actual outcomes could be different from the assumptions and estimates made. The items in the net asset statement for which there is a significant risk of material adjustment in the following year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Actuarial Present Value of Promised Retirement Benefits	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, salary increases, changes in retirement ages, mortality rates and returns on fund assets. A firm of consulting actuaries is engaged to provide the fund with expert advice about the assumptions to be applied.	For instance: <ul style="list-style-type: none"> • A 0.5% decrease in the discount rate used would result in an increase in the pension liability of £897m • A 0.5% increase in the pension increase rate would increase the pension liability by £794m • A one year increase in assumed life expectancy would increase the liability by between £250m and £417m.
Private Equity Investments	Private equity investments are valued at fair value. Investments are not publicly listed and as such there is a degree of estimation involved in the valuation.	Private equity investments are valued at £334m in the financial statements. There is a risk that this investment may be under or overstated in the accounts by up to 28%, an increase or decrease of £94m.
Freehold, Leasehold Property and Pooled Property Funds	Valuations techniques are used to determine the carrying amount of pooled property funds and directly held freehold property. Where possible these valuation techniques are based on observable data but where this is not possible management uses the best available data. The outbreak of Covid-19 has impacted global financial markets and as at the valuation date, less weight can be attached to previous market evidence to inform opinions of value. There is an unprecedented set of circumstances on which to base a judgement. Valuations are therefore reported on the basis of 'material valuation uncertainty' as per the RICS Red Book Global. Consequently, less certainty and a higher degree of caution should be attached to the valuation.	Changes in the valuation assumptions used, together with significant changes in rental growth, vacancy levels or the discount rate could affect the fair value of property based investments by up to 15%, i.e. an increase or decrease of £57m on the carrying value of £377m.
Private Debt Investments	Private debt funds are valued in accordance with each investment managers valuation policy. These investments are not publicly listed and as such there is a degree of estimation involved in the valuation.	Private Debt funds are valued at £266m in the financial statements. There is a risk that this investment may be under or overstated in the accounts by up to 10%, an increase or decrease of £27m.

Pension Fund Annual Report

Infrastructure Investments	Infrastructure funds are valued in accordance with each investment managers valuation policy. Where possible these valuation techniques are based on observable data but where it is not possible management uses the best data available.	Infrastructure funds are valued at £246m in the financial statements. There is a risk that this investment may be under or overstated in the accounts by up to 14%, an increase or decrease of £34m.
Timberland Investment	Investments are carried at net asset value as determined by the General Partner. In most cases fair value is derived from the audited financial statements provided by an underlying fund manager. In circumstances where audited financial statements are not available, the valuations are then derived from unaudited quarterly reports.	Timberland funds are valued at £134m in the financial statements. There is a risk that this investment may be under or overstated in the accounts by up to 16%, an increase or decrease of £21m.

5. Events after the Reporting Date

The Statement of Accounts was authorised for issue by the Director of Corporate Resources on 30 July 2021. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2021, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information (where known).

There are no material events after the reporting date that would require an adjustment or additional disclosure to the accounts.

6. Contributions

2019/20 £m		2020/21 £m
	Employers	
160.0	Normal	169.2
4.6	Deficit Repair	10.7
0.0	Voluntary additional	0.0
2.4	Advanced payments for early retirements	1.4
0.9	Additional payments for ill-health retirements	1.8
	Members	
42.3	Normal	44.6
0.4	Purchase of additional benefits	0.4
210.6	Total	228.1

Additional payments for early retirements are paid by employers, once calculated and requested by the Fund, to reimburse the Pension Fund for the cost to the Fund of employees who are allowed to retire before their normal retirement age. Additional payments for ill-health retirements are generally paid by the insurance company, where the employer has taken out ill-health insurance and the claim has been accepted as valid.

Pension Fund Annual Report

On occasions employers without ill-health insurance are charged for at least part of the ill-health costs. Purchase of additional benefits by members allows either extra service to be credited on top of any service earned via employment, or an additional annual pension amount in cash to be paid following retirement. Termination valuation payments relate to the actuarially assessed deficit within an employer's sub-fund when their last active employee leaves.

The contributions can be analysed by the type of Member Body as follows:

2019/20 £m		2020/21 £m
50.1	Leicestershire County Council	55.1
150.1	Scheduled bodies	162.3
10.4	Admitted bodies	10.7
210.6	Total	228.1

7. Transfers In

2019/20 £m		2020/21 £m
12.3	Individual transfers in from other schemes	5.3
12.3	Total	5.3

8. Benefits

The benefits paid can be analysed by type of Member Body as follows:-

2019/20 £m		2020/21 £m
57.2	Leicestershire County Council	56.9
98.5	Scheduled bodies	99.1
8.1	Admitted bodies	8.6
163.8	Total	164.6

9. Payments to and on Account of Leavers

2019/20 £m		2020/21 £m

At 31 March 2021 pooled investment vehicles include investments in fund-of-funds which have an underlying value of £363m in private equity, £25m in illiquid corporate bonds and £134m in timberland.

13. Derivatives

The Fund holds derivatives for a number of different reasons. Forward foreign exchange contracts are held to benefit from expected changes in the value of currencies relative to each other. Futures can be held to gain full economic exposure to markets without the requirement to make a full cash investment and can be held to ensure that the Fund's exposures are run efficiently. Options are generally used to express an investment view but can give a much higher economic exposure than is required to be paid for the options – they also ensure that the potential loss is limited to the amount paid for the option.

Forward Foreign Exchange Contracts

All forward foreign exchange contracts are classed as 'Over the Counter' and at the year end the net exposure to forward foreign exchange contracts can be summarised as follows:

Settlement	Currency Bought	Local Value Millions	Currency Sold	Local Value Millions	Asset Value £m	Liability Value £m
Within 1 Month	GBP	8.6	EUR	9.7	0.3	-
	GBP	0.3	USD	0.4	0.0	-
1 - 3 Months	GBP	80.0	JPY	12,108.3	0.6	-
	GBP	38.9	AUD	69.8	0.4	-
	GBP	91.1	EUR	106.4	0.3	-

Net forward currency contracts at 31 March 2020					47.8	

Options

All options held by the Fund were exchange traded. The value of these options and the assets to which they were exposed can be summarised as follows:

2019/20 £m		2020/21 £m
9.2	Equity rate-based	10.1
9.2	Total	10.1

14. Property Investments

31 March 2020 £m		31 March 2021 £m	
71.3	Freehold	83.5	
15.9	Long Leasehold (over 50 years unexpired)	17.5	
12.4	Medium/Short Leasehold (under 50 years unexpired)	7.6	
99.6	Total	108.6	

All properties, with the exception of the Fund's farm investment, were valued on an open market basis by Nigel Holroyd and Adrian Payne of Colliers Capital UK at 31st March 2021. The Fund's farm was valued on an open market basis by James Forman of Leicestershire County Council. All of the Valuers are Members of the Royal Institute of Chartered Surveyors.

14A Property Holdings

31 March 2020 £m		31 March 2021 £m	
102.6	Opening Balance	99.6	
	Additions:		
0.0	Purchases	9.6	
0.2	Subsequent Expenditure	0.1	
0.0	Disposals	0.0	
(3.2)	Net increase in market Value	(0.7)	
99.6	Total	108.6	

15. Current Assets and Liabilities

2019/20 £m		2020/21 £m	
9.9	Contributions due from employers	10.9	
2.4	Other Debtors	4.4	
0.4	Due from Ministry of Justice	0.0	
12.7	Current assets	15.3	
(3.1)	Due to Leicestershire County Council	(1.8)	
(1.1)	Fund Management Fees Outstanding	(1.8)	
(0.2)	Other Creditors	(2.0)	
(4.4)	Current liabilities	(5.7)	
8.3	Net current assets and liabilities	9.6	

Contributions due at the year end were received by the due date.

16. Analysis of Investments by Manager

The Fund employs external investment managers to manage all of its investments apart from an amount of cash and a farm property, which are managed by Leicestershire County Council. This structure ensures that the total Fund performance is not overly influenced by the performance of any one manager.

The market value of investments in the hands of each manager is shown in the table below:-

Pension Fund Annual Report

17. Custody of Assets

All the Fund's directly held assets are held by external custodians and are therefore not at risk from the financial failure of any of the Fund's investment managers. Most of the pooled investment funds are registered with administrators that are independent of the investment manager.

18. Operation and Management of fund

Details of how the Fund is administered and managed are included in the Pension Fund Annual Report.

19. Employing bodies and fund members

A full list of all bodies that have active members within the Fund is included in the in the Pensions fund annual report available from the fund website.

20. Valuation of financial instruments carried at fair value

The valuation of financial instruments has been classified into three levels, according to the quality and reliability of the information used to determine fair values.

Level 1

Financial instruments at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprised quoted equities, quoted fixed interest securities, quoted index-linked securities and pooled investment vehicles where the underlying assets fall into one of these categories.

Listed investments are shown at bid prices. The bid value of the investment is based on the bid market quotation of the relevant stock exchange.

Level 2

Financial instruments at Level 2 are those where quoted market prices are not available; for example, where an instrument is traded in a market that is not considered to be active, or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data.

Level 3

Financial instruments at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data. Such instruments would include unquoted equity investments, hedge funds and infrastructure, which are valued using various valuation techniques that require significant judgement in determining appropriate assumptions.

The values of the investment in private equity are based on valuations provided by the general partners to the private equity funds in which Leicestershire County Council Pension Fund has invested. These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines, which follow the valuation principles of IFRS and US GAAP.

The values of the investment in hedge funds and infrastructure are based on the net asset value provided by the fund manager. Assurances over the valuation are gained from the independent audit of the value.

The following tables provide an analysis of the financial assets and liabilities of the pension fund grouped into levels 1 to 3, based on the level at which fair value is observable.

Pension Fund Annual Report

Values at 31 st March 2021	Quoted market price	Using observable inputs	With significant unobservable inputs	
	Level 1 £m	Level 2 £m	Level 3 £m	Total £m
	Financial assets at fair value	2,403.0	1,030.1	1,750.4
Financial liabilities at fair value	(10.9)	0.0	0.0	(10.9)
Net financial assets	2392.1	1,030.1	1,750.4	5,172.6

	(5.9)	0.0	(4.4)		(8.3)	0.0	(6.7)

The value of debtors and creditors reported in the Notes to the Statement of Accounts are solely those amounts meeting the definition of a financial instrument. The balances of debtors and creditors reported in the balance sheet and Notes include balances which do not meet the definition of a financial instrument, such as tax-based debtors and creditors.

Pension Fund Annual Report

The following gains and losses are recognised in the Fund Account:

2019/20 £m		2020/21 £m
	Financial Assets	
(241.4)	Fair value through profit and loss	943.8
	Financial Liabilities	
48.0	Fair value through profit and loss	0.2
(193.4)	Total	944.0

All realised gains and losses arise from the sale or disposal of financial assets which have been derecognised in the financial statements. The fund has not entered into any financial guarantees that are required to be accounted for as financial instruments.

22. External Audit Fee

2019/20 £		2020/21 £
25,530	Payable in respect of external audit	34,530
25,530	Total	34,530

23. Nature and Extent of Risks Arising from Financial Instruments

Risk and risk management

The Fund's primary long-term risk is that the Fund's assets will fall short of its liabilities (i.e. the promised benefits payable to members). Therefore, the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole Fund portfolio. The fund achieves this through asset diversification to reduce exposure to market risk (price risk, currency risk and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure that there is sufficient liquidity to meet the Fund's required cash flows. These investment risks are managed as part of the overall pension fund risk management programme.

Responsibility for the Fund's risk management strategy rests with Leicestershire County Council's Local Pension Committee (formerly called the Pension Fund Management Board).

a) Market risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix.

The objective of the Fund's risk management strategy is to identify, manage and control market risk within acceptable parameters, whilst optimising the return on risk.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risk, Leicestershire County Council and its investment advisors undertake appropriate monitoring of market conditions and benchmark analysis.

The Fund manages these risks via an annual strategy review which ensures that market risk remains within acceptable levels. On occasion equity futures contracts and exchange traded option contracts on individual securities may be used to manage market risk on investments, and in exceptional circumstances over-the-counter derivative contracts may be used to manage specific aspects of market risk.

Other price risk

Other price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such investments in the market.

The Fund is exposed to share and derivative price risk. This arises from investments held by the Fund for which the future price is uncertain. All securities investments present a risk of loss of capital. For all investments held by the Fund, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. The Fund's investment managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored to ensure that it is within the limits specified in the Fund's investment strategy.

Other price risk – sensitivity analysis

Following analysis of historic data and expected investment return movement during the financial year, in consultation with the Fund's investment advisors, Leicestershire County Council has determined that the following movements in market prices risk are reasonably possible for the 2020/21 reporting period:

Asset type	Potential market movements (+/-)
Overseas government bonds	8%
Global credit	10%
Global government index-linked bonds	8%
UK equities	16%
Overseas equities	19%
UK property	15%
Private equity	28%
Infrastructure	14%
Commodities	14%
Hedge funds and targeted return funds	12%
Timberland	16%
Cash	1%

The potential price changes disclosed above are broadly consistent with one-standard deviation movement in the value of assets. The sensitivities are consistent with the assumptions contained in the annual strategy review and the analysis assumes that all other variables, in particular foreign currency exchange rates and interest rates, remain the same.

Had the market price of the Fund's investments increased/decreased in line with the above, the change in net assets available to pay benefits in the market price would have been as follows (the prior year comparator is shown in the second table):

Pension Fund Annual Report

Asset Type	Value at 31 st March 2021	Percentage change	Value on increase	Value on decrease
	£m	%	£m	£m

Total assets available to pay benefits	4,146.9		4,787.1	3,506.8

Pension Fund Annual Report

Interest rate risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risk, which represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is not highly exposed to interest rate risk, but monitoring is carried out to ensure that the exposure is close to the agreed asset allocation benchmark.

The Fund's direct exposure to interest rate movements as at 31st March 2021 and 31st March 2020 is set out below. These disclosures present interest rate risk based on the underlying financial assets at fair value:

As at 31 st March 2020 £m	Asset type	As at 31 st March 2021 £m
86.5	Cash and Currency	331.3
339.9	Fixed interest securities	291.1
426.4	Total	622.4

Interest rate risk sensitivity analysis

The Fund recognises that interest rates can vary and can affect both income to the Fund and the value of the net assets to pay benefits. A 1% movement in interest rates (100 BPS) is consistent with the level of sensitivity expected within the Fund's asset allocation strategy and the Fund's investment advisors expect that long-term average rates are expected to move less than 100 BPS from one year to the next and experience suggests that such movements are likely. The analysis that follows assumes that all other variables, in particular exchange rates, remain constant, and shows the effect in the year on the net assets available to pay benefits of a +/- 100 BPS change in interest rates.

Asset type	Carrying amount as at 31 st March 2021	Change in year in the net assets available to pay benefits	
	£m	+100 BPS	-100 BPS
		£m	£m
Cash and Currency	331.3	3.3	(3.3)
Fixed interest securities	291.1	2.9	(2.9)
Total	622.4	6.2	(6.2)

Asset type	Carrying amount as at 31 st March 2020	Change in year in the net assets available to pay benefits	
	£m	+100 BPS	-100 BPS
		£m	£m
Cash and Currency	86.5	0.9	(0.9)
Fixed interest securities	339.9	3.4	(3.4)
Total	426.4	4.3	(4.3)

Currency risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk in financial instruments that are denominated in any other currency other than sterling. The Fund holds both monetary and non-monetary assets denominated in currencies other than sterling.

Pension Fund Annual Report

The Fund's currency rate risk is actively managed and the neutral position is to hedge 50% of the exposure back to sterling. The table below summarises the Fund's currency exposure if it was unhedged as at 31st March 2020 and as at the previous period end:

Asset value as at 31 st March 2020 £m	Currency exposure – asset type	Asset value as at 31 st March 2021 £m
18.1	Overseas equities	32.5
40.0	Overseas government index-linked bonds	32.6
247.4	Private equity pooled funds	363.1
0.2	Pooled hedge Funds	0.1
49.8	Pooled Bond and Debt Fund	144.1
1,409.6	Overseas and Global equity-based pooled funds	2,156.6
16.0	Commodity-based pooled funds	12.8
287.2	Infrastructure pooled funds	246.2
143.9	Timberland pooled fund	134.1
94.5	Emerging Market Debt pooled fund	107.8
2,306.7	Total overseas assets	3,229.9

Currency risk – sensitivity analysis

Following analysis of historical data in consultation with the Fund's investment advisors, it is considered that the likely volatility associated with foreign exchange rate movements is 13% (as measured by one standard deviation).

A 13% fluctuation in the currency is considered reasonable based on the Fund advisor's analysis of the long-term historical movements in the month-end exchange rates over a rolling 36-month period. This analysis assumes that all other variables, in particular interest rates, remain constant.

A 13% strengthening/weakening of the pound against the various currencies in which the fund holds investments would increase/decrease the net assets available to pay benefits as follows:

Current exposure – asset type	Asset value as at 31 st March 2021	Change to net assets available to pay benefits	
	£m	13% £m	-13% £m
Overseas equities	32.5	36.7	28.3
Overseas government index-linked bonds	32.6	36.8	28.4
Private equity pooled funds	363.1	410.3	315.9
Pooled hedge funds	0.1	0.1	0.1
Pooled Bond and Debt Fund	144.1	162.8	125.4
Overseas equity-based pooled funds	2,156.6	2,437.0	1,876.2
Commodity-based pooled funds	12.8	14.5	11.1
Infrastructure pooled funds	246.2	278.2	214.2
Timberland pooled fund	134.1	151.5	116.7
Emerging Market Debt pooled fund	107.8	121.8	93.8
Total change in assets available	3,229.9	3,649.7	2,810.1

b) Credit risk

Credit risk represents the risk that the counterparty to a transaction or financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market value of investments generally reflects an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

In essence the Fund's entire investment portfolio is exposed to some form of credit risk, with the exception of derivatives positions, where the risk equates to the net market value of a positive derivative position. However, the selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur through the failure to settle a transaction in a timely manner.

Contractual credit risk is represented by the net payment or receipt that remains outstanding, and the cost of replacing the derivative position in the event of a counterparty default. The residual risk is minimal due to various insurance policies held by the exchanges to cover defaulting counterparties.

Credit risk on over-the-counter derivative contracts is minimised as counterparties are recognised financial intermediaries with acceptable credit ratings determined by a recognised ratings agency.

Deposits are not made with banks and financial institutions unless they are rated independently and have a high credit rating. Many of the Fund's investment managers use the money market fund run by the Fund's custodian to deposit any cash within their portfolios, although one manager (Kames Capital) lends cash directly to individual counterparties in the London money markets. Any cash held directly by the Fund is deposited in an Aberdeen Standard Life Money Market Fund.

The Fund believes it has managed its exposure to credit risk and has never had any experience of default of uncollectible deposits. The Fund's cash holding at 31st March 2021 was £331m (31st March 2020: £87m).

c) Liquidity risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund therefore takes steps to ensure that it has adequate cash resources to meet its commitments. All of the Fund's cash holdings are available for immediate access, although on some occasions this will involve withdrawing cash balances from the portfolios of investment managers.

The Fund is allowed to borrow to meet short-term cash flow requirements, although this is an option that is only likely to be used in exceptional circumstances.

The Fund defines liquid assets as assets that can be converted to cash within three months. Illiquid assets are those assets which will take longer than three months to convert to cash. As at 31st March 2021 the value of illiquid assets (considered to be the Fund's investments in property, hedge funds, private equity, timberland and infrastructure) was £1,085m, which represented 21% of total Fund assets. (31st March 2020: £1060m, which represented 26% of total Fund assets).

The Fund remains cash flow positive for non-investment related items so there is no requirement to produce detailed cash flow forecasts. All investment related cash flows are known about sufficiently far in advance that they can be covered by taking action in a manner that is both cost-effective and in line with the Fund's investment strategy.

All financial liabilities at 31st March 2021 are due within one year.

Refinancing risk

The key risk is that the Fund will be forced to sell a significant proportion of its financial instruments at a time of unfavourable interest rates, but this appears a highly unlikely scenario. The Fund's investment strategy and the structure of its portfolios have sufficient flexibility to ensure that any required sales are considered to be the ones that are in the best financial interests of the Fund at that time. There are no financial instruments that have a refinancing

risk as part of the Fund's treasury management and investment strategies.

Securities Lending

The Fund ceased to take part in securities lending activities towards the end of the 2017/18 financial year and there was no stock on loan at 31 March 2021

Reputational Risk

The Fund's prudent approach to the collective risks listed above and through best practice in corporate governance ensures that reputational risk is kept to a minimum.

24. Related Party Transactions

Leicestershire County Council is the administering authority for the Local Government Pension Scheme (LGPS) within Leicestershire and is one of the major employers within the scheme. Information regarding key management personnel is provided within the main accounts of Leicestershire County Council. Members and officers of the Council involved in managing the Fund are allowed to be members of the LGPS. All transactions between Leicestershire County Council and the Fund and all benefit payments from the Fund are in accordance with the regulations governing the LGPS. There are no transactions therefore that are made on a different basis from those with non-related parties.

LGPS Central Ltd has been established to manage, on a pooled basis, investment assets of nine Local Government Pension Schemes across the Midlands. It is jointly owned in equal amounts by the eight Administering Authorities participating in the Pool. £1.3m is invested in the share capital and £0.7m in a corporate bond with LGPS Central Ltd.

During 2020/21 a total of £0.9m was payable to LGPS Central Ltd for governance, operator and product development fees. Of these £0.1m was a creditor balance at the year end. As at 31 March 2021, £1.7bn of LCC LGPS investments were managed by LGPS Central Ltd.

25. Contingent Liabilities and Contractual Commitments

When a member has left the Pension Fund before accruing sufficient service to qualify for a benefit from the scheme, they may choose either a refund of contributions or a transfer value to another pension fund. There are a significant number of these leavers who have not taken either of these options and as their ultimate choice is unknown, it is not possible to reliably estimate a liability. The impact of these 'frozen refunds' has, however, been considered in the calculation of the actuarial liabilities of the fund.

If all of these individuals choose to take a refund of contributions the cost to the Fund will be around £2.1m, although the statutory requirement of the Fund to pay interest to some members would increase this figure. Should all of the members opt to transfer to another scheme the cost will be considerably higher.

At 31st March 2021, the Fund had the following contractual commitments:-

	31-Mar-20 £m	31-Mar-21 £m
Aberdeen Standard Life Capital SOF III Fund	13.9	10.0
Adams Street Partners	150.3	125.9
Catapult Venture Managers	0.5	0.5
Infracapital Greenfield Partners I Fund	15.3	12.4
KKR Global Infrastructure	27.1	22.0
LGPS Central PE Primary Partnership 2018 LP	9.0	7.0
M & G Debt Opportunities Fund IV	0.0	2.8
Partners Multi Asset Credit V S.C.A., SICAV-RAIF	25.0	0.0
Stafford International Timberland Funds VII & VIII	1.7	1.1

Total	242.8	181.7
--------------	--------------	--------------

25A Key Management Personnel

Key management personnel are members of the pension fund committee and the Director of Corporate Resources. It has not been possible to apportion, on a reasonable basis, the costs and benefits of key management personnel between the Council and the Fund. However, Members' Allowances and Officers' Remuneration are disclosed in Notes 32 and 33 of the County Councils accounts.

26. Additional Voluntary Contributions (AVC's)

The Fund has an arrangement with Prudential whereby additional contributions can be paid to them for investment, with the intention that the accumulated value will be used to purchase additional retirement benefits. AVCs are not included in the Pension Fund Accounts in accordance with Regulation 4(2) (c) of the Pension Scheme (Management and Investment of Funds) Regulations 2009.

During the previous financial year, 2019/20, £1.7m in contributions were paid to Prudential. The capital value of all AVC's at year end , 31 March 2020 was £17.7m . The equivalent figures for 2020/21 are not available at the time of the publication of the draft accounts. This will be updated during the audit of the statement of accounts.

27. Policy Statements

The Fund has a number of policy statements which can be found on the LGPS website, <https://leicsmss.pensiondetails.co.uk/home/scheme-member/lgps/fund-admin-and-guidance/pension-fund-and-finance> They have not been reproduced within the Accounts as in combination they are sizeable, and it is not considered that they would add any significant value to most users of the accounts. The Statements are:

Investment Strategy Statement (ISS)
Administration and Communication Strategy
Funding Strategy Statement (FSS)

28. Compliance Statement

Income and other taxes

The Fund has been able to gain either total or partial relief from local taxation on the Fund's investment income from eligible countries. The Fund is exempt from UK Capital Gains and Corporation tax.

Self-investment

There has been no material employer related investment in 2020/21 (or 2019/20). There were occasions on which contributions were paid over by the employer later than the statutory date, and these instances are technically classed as self-investment. In no instance were the sums involved material, and neither were they outstanding for long periods.

Calculation of transfer values

There are no discretionary benefits included in the calculation of transfer values.

Pension Increase

All pension increases are made in accordance with the Pensions Increase (Review) Order 1997.

Changes to LGPS

All changes to LGPS are made via the issue of Statutory Instruments by Central Government.

Leicestershire County Council Pension Fund (“the Fund”) Actuarial Statement for 2020/21

This statement has been prepared in accordance with Regulation 57(1)(d) of the Local Government Pension Scheme Regulations 2013. It has been prepared at the request of the Administering Authority of the Fund for the purpose of complying with the aforementioned regulation.

Description of Funding Policy

The funding policy is set out in the Administering Authority’s Funding Strategy Statement (FSS). In summary, the key funding principles are as follows:

- to ensure the long-term solvency of the Fund using a prudent long-term view. This will ensure that sufficient funds are available to meet all members’/dependants’ benefits as they fall due for payment;
- to ensure that employer contribution rates are reasonably stable where appropriate;
- to minimise the long-term cash contributions which employers need to pay to the Fund, by recognising the link between assets and liabilities and adopting an investment strategy which balances risk and return (this will also minimise the costs to be borne by Council Tax payers);
- to reflect the different characteristics of different employers in determining contribution rates. This involves the Fund having a clear and transparent funding strategy to demonstrate how each employer can best meet its own liabilities over future years; and
- to use reasonable measures to reduce the risk to other employers and ultimately to the Council Tax payer from an employer defaulting on its pension obligations.

The FSS sets out how the Administering Authority seeks to balance the conflicting aims of securing the solvency of the Fund and keeping employer contributions stable. For employers whose covenant was considered by the Administering Authority to be sufficiently strong, contributions have been stabilised to have a sufficiently high likelihood of achieving the funding target over 17 years. Asset-liability modelling has been carried out which demonstrate that if these contribution rates are paid and future contribution changes are constrained as set out in the FSS, there is at least a 75% likelihood that the Fund will achieve the funding target over 17 years.

Funding Position as at the last formal funding valuation

The most recent actuarial valuation carried out under Regulation 62 of the Local Government Pension Scheme Regulations 2013 was as at 31 March 2019. This valuation revealed that the Fund’s assets, which at 31 March 2019 were valued at £4,312 million, were sufficient to meet 89% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date. The resulting deficit at the 2019 valuation was £537 million.

Each employer had contribution requirements set at the valuation, with the aim of achieving their funding target within a time horizon and liability measure as per the FSS. Individual employers’ contributions for the period 1 April 2020 to 31 March 2023 were set in accordance with the Fund’s funding policy as set out in its FSS.

Principal Actuarial Assumptions and Method used to value the liabilities

Full details of the methods and assumptions used are described in the 2019 formal valuation report.

Method

The liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date; and makes an allowance for expected future salary growth to retirement or expected earlier date of leaving pensionable membership.

Assumptions

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the Fund assets at their market value.

The key financial assumptions adopted for the 2019 valuation were as follows:

Financial assumptions	31 March 2019
Discount rate	3.8%
Salary increase assumption	2.8%
Benefit increase assumption (CPI)	2.3%

The key demographic assumption was the allowance made for longevity. The life expectancy assumptions are based on the Fund's VitaCurves with improvements in line with the CMI 2018 model, an allowance for smoothing of recent mortality experience and a long-term rate of 1.25% p.a. Based on these assumptions, the average future life expectancies at age 65 are as follows:

	Males	Females
Current Pensioners	21.5 years	23.8 years
Future Pensioners*	22.2 years	25.2 years

*Aged 45 at the 2019 Valuation.

Copies of the 2019 valuation report and Funding Strategy Statement are available on request from the Administering Authority to the Fund.

Experience over the period since 31 March 2019

Markets were severely disrupted by COVID 19 in March 2020, but in the 2020/21 year they recovered strongly. As a result, the funding level of the Fund as at 31 March 2021 is likely to be broadly similar to that reported at the previous formal valuation.

The next actuarial valuation will be carried out as at 31 March 2022. The Funding Strategy Statement will also be reviewed at that time.

Pension Fund Accounts Reporting Requirement

Introduction

CIPFA's Code of Practice on Local Authority Accounting 2020/21 requires Administering Authorities of LGPS funds that prepare pension fund accounts to disclose what IAS26 refers to as the actuarial present value of promised retirement benefits. I have been instructed by the Administering Authority to provide the necessary information for the Leicestershire County Council Pension Fund ("the Fund").

The actuarial present value of promised retirement benefits is to be calculated similarly to the Defined Benefit Obligation under IAS19. There are three options for its disclosure in the pension fund accounts:

- showing the figure in the Net Assets Statement, in which case it requires the statement to disclose the resulting surplus or deficit;
- as a note to the accounts; or
- by reference to this information in an accompanying actuarial report.

If an actuarial valuation has not been prepared at the date of the financial statements, IAS26 requires the most recent valuation to be used as a base and the date of the valuation disclosed. The valuation should be carried out using assumptions in line with IAS19 and not the Fund's funding assumptions.

Present value of promised retirement benefits

Year ended	31 March 2021	31 March 2020
Active members (£m)	4,155	2719
Deferred members (£m)	1,801	1,288
Pensioners (£m)	2,383	2184
Total (£m)	8,339	6191

The promised retirement benefits at 31 March 2021 have been projected using a roll forward approximation from the latest formal funding valuation as at 31 March 2019. The approximation involved in the roll forward model means that the split of benefits between the three classes of member may not be reliable. However, I am satisfied that the total figure is a reasonable estimate of the actuarial present value of benefit promises.

The figures include both vested and non-vested benefits, although the latter is assumed to have a negligible value. Further, I have not made any allowance for unfunded benefits.

It should be noted the above figures are appropriate for the Administering Authority only for preparation of the pension fund accounts. They should not be used for any other purpose (i.e. comparing against liability measures on a funding basis or a cessation basis).

Assumptions

The assumptions used are those adopted for the Administering Authority's IAS19 report and are different as at 31 March 2021 and 31 March 2020. I estimate that the impact of the change in financial assumptions to 31 March 2021 is to increase the actuarial present value by £1,758m. I estimate that the impact of the change in demographic and longevity assumptions is to increase the actuarial present value by £102m.

Financial assumptions

Year ended (% p.a.)	31 March 2021	31 March 2020
Pension Increase Rate	2.85%	1.9%
Salary Increase Rate	3.35%	2.4%
Discount Rate	2.00%	2.3%

Longevity assumptions

Life expectancy is based on the Fund's VitaCurves with improvements in line with the CMI 2018 model, with 0% weighting of 2020 data, standard smoothing (Sk7), initial adjustment of 0.5% and a long term rate of improvement of 1.5% p.a. Based on these assumptions, the average future life expectancies at age 65 are summarised below:

	Males	Females
Current pensioners	21.7 years	24.2 years
Future pensioners (assumed to be aged 45 at the latest formal valuation)	22.6 years	25.9 years

Please note that the longevity assumptions have changed since the previous IAS26 disclosure for the Fund.

Commutation assumptions

An allowance is included for future retirements to elect to take 50% of the maximum additional tax-free cash up to HMRC limits for pre-April 2008 service and 75% of the maximum tax-free cash for post-April 2008 service.

Sensitivity Analysis

CIPFA guidance requires the disclosure of the sensitivity of the results to the methods and assumptions used. The sensitivities regarding the principal assumptions used to measure the liabilities are set out below:

Sensitivity to the assumptions for the year ended 31 March 2021	Approximate % increase to liabilities	Approximate monetary amount (£m)
0.5% p.a. increase in the Pension Increase Rate	10%	794
0.5% p.a. increase in the Salary Increase Rate	1%	85
0.5% p.a. decrease in the Real Discount Rate	11%	897

The principal demographic assumption is the longevity assumption. For sensitivity purposes, I estimate that a 1 year increase in life expectancy would approximately increase the liabilities by around 3-5%.

Professional notes

This paper accompanies my covering report titled 'Actuarial Valuation as at 31 March 2021 for accounting purposes'. The covering report identifies the appropriate reliances and limitations for the use of the figures in this paper, together with further details regarding the professional requirements and assumptions.

Statement of Responsibilities for Leicestershire County Council Pension Fund

THE AUTHORITY'S RESPONSIBILITIES

The Authority is required to:

- Make arrangements for the proper administration of the financial affairs of its Pension Fund and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Director of Corporate Resources.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the statement of accounts

The Director of Corporate Resources is responsible for the preparation of the Authority's Pension Fund Statement of Accounts in accordance with proper accounting practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code').

In preparing this Statement of Accounts, the Director of Corporate Resources has:

- Selected suitable accounting policies and then applied them consistently.
- Made judgements and estimates that were reasonable and prudent.
- Complied with the Local Authority Code.
- Kept proper accounting records which were up to date,
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.
- Assessed the Pension Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- Used the going concern basis of accounting on the assumption that the functions of the Pension Fund will continue in operational existence for the foreseeable future; and
- Maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

I certify that the above responsibilities have been complied with and the Statement of Accounts herewith presents a true and fair view of the financial position of the Leicestershire County Council Pension Fund as at 31 March 2021 and its income and expenditure for the year ended the same date.

GOVERNANCE COMPLIANCE STATEMENT

1.1 INTRODUCTION

This is the governance compliance statement of the Leicestershire Pension Fund. The Fund is required to publish a compliance statement under Regulation 73A of the Local Government Pension Scheme Regulations 1997 (as amended) and review that statement on an ongoing basis under Regulation 31 of the 2008 Regulations. Under Regulation 31 (3) (c) there is a requirement to measure the Fund's governance arrangements against a number of standards set out within guidance issued by DLUHC. The Fund's compliance with these can be viewed at the end of the document, [here](#).

In order to improve the transparency and auditability of governance arrangements the Fund has further produced its governance compliance statement to recognise the Scheme Advisory Board's recommendations set out within the Good Governance Phase 3 report

In accordance with the above, what follows is the Fund's assessment of its compliance with the standards as outlined.

1.2 FUNCTIONS AND RESPONSIBILITIES

The Local Pension Committee (LPC) meets five times a year and its members act in a quasi-trustee capacity. One of these meetings is specifically used to focus entirely on investment strategy. No substantive issues of investment policy will be carried out without the prior agreement of the LPC or, in extreme circumstances and where it is impractical to bring a matter to the LPC, following consultation with the Chair and Vice-Chair.

The LPC is made up of 13 members, ten of which are Employer Representatives with voting rights comprising of five County Councillors, representing Leicestershire County Council, two City Councillors representing Leicester City Council, two district councillors jointly representing the district councils, one member jointly representing De Montfort/Loughborough Universities. There are also three non-voting employee representatives. The ten voting members are appointed using the due political process or, in the case of the two universities, by joint arrangement. There will be at least one employee representative position available annually and a vote will be held to fill any vacancies at the Annual Meeting of the Fund.

The LPC are advised and supported by the Director of Corporate Resources, Director of Law and Governance, Assistant Director of Strategic Finance and Property, Head of Pensions and Senior Finance and Legal Officers from Leicestershire County Council. As well as its Investment Advisor Hymans Robertson and Independent Advisor Clare Scott.

The LPC may delegate certain actions to the Director of Corporate Resources. It is the expectation of the LPC that some of the more administrative matters relating to investment management, such as the appointment of a custodian, are carried out by the Director of Corporate Resources.

An Investment Subcommittee, with its members drawn from the LPC, is a decision-making Subcommittee and will generally deal with more technical aspects of investment (such as looking at potential new investment opportunities or dealing with the appointment of new investment managers), any decisions made by the Subcommittee are reported at the following LPC.

[The Local Pension Committee Terms of Reference.](#)

The Local Pension Board was established in accordance with the Local Government Pension Scheme (Amendment) (Governance) Regulations 2015 to assist the Administering Authority in ensuring the effective and efficient governance and administration of the Fund, including securing compliance with LGPS Regulations, other legislation and the requirements of the Pensions Regulator. The LPC, in fulfilling its functions, will have regard to advice of the Board.

The Board is made up of six voting members, three Employer Representatives (two elected members of Leicestershire County Council and one from Leicester City Council) and three employee representatives as well as one reserve employee representative role. There will be at least one employee representative position available annually, as well as for a reserve employee representative, and a vote will be held to fill any vacancies at the Annual Meeting of the Fund.

The Board publishes an Annual Report which is available on the Fund's website. The Board focuses on the Fund's governance and administration processes, monitoring the Fund's compliance with statutory and regulatory guidance and working with officers to ensure the highest standards are met.

[Local Pension Board Terms of Reference](#)

The Director of Corporate Resources oversees the implementation of Fund policy and the management of the day-to-day operational functions through the Fund's service areas.

A [delegations list can be viewed here](#).

An Annual Meeting of the Pension Fund is held annually, to which all employee members and other interested parties are welcome. The purpose of the meeting is to present the Annual Report of the Fund and to report on current issues, as well as to elect employee representatives for any vacant positions on the LPC and the LPB.

A number of other initiatives to involve stakeholders also take place, including:

- Presentations by the Fund/Actuary to employing bodies;
- Pensions roadshows at various venues;
- The Annual Report and Account of the Pension Fund;
- Other communications to members.

Further details can be found within the [Representation and Engagement](#) section of this statement.

1.3 INVESTMENT POOLING

LGPS Central, an FCA-regulated pool company, was launched on 1 April 2018. Leicestershire Pension Fund together with eight partner pension Funds across the LGPS continue to work with the company to further develop the required business as usual governance oversight and monitoring arrangements.

The Fund recognises the potential conflict posed through the involvement of pooling with LGPS Central. Specific governance arrangements have been established with LGPS Central and other partner funds reflecting each partner authority's role as business owner and client of LGPS Central. These are managed through the following forums:-

The Shareholder Forum – The purpose is to oversee operation and performance of LGPS Central and to represent the ownership rights and interests of the shareholding Councils. The Forum is

independent of LGPS Central and its meetings are separate from Company Meetings and is enshrined within the Shareholders' Agreement.

The Joint Committee – A public forum for councils to provide oversight of the delivery of the objectives of the Pool, the delivery of client services, the delivery against its Business Case and to deal with common investor issues. The Company's investment performance and capability is overseen on a day to day basis by the Senior Fund Officers via the

Practitioner's Advisory Forum and on a bi-annual basis by the Joint Committee which is constituted of representatives from each of the Partner Funds.

The Chairman of the Local Pension Committee acts as the Fund's representative at both the Shareholders Forum and the Joint Committee and reports back to the Local Pension Committee as appropriate.

The Partner Funds and the Company work collaboratively to build the investment capabilities required to ensure that the Partner Funds are able to efficiently and effectively deliver the strategic asset allocations in line with regulation and guiding principle. To hold the company to account and to meet FCA requirements for a regulated asset manager. The governance structure is designed to ensure sufficient independence from between Partner Funds and the Company during implementation and ongoing management of the Investment Sub-Funds.

The Investment Strategy Statement further sets out the Fund's approach to Pooling and the Pensions Committee and Board receives regular updates on the work of LGPS Central to enable Members to oversee and scrutinise its operations as set out in the respective Terms of References.

1.3.1 Dual interests as Administering Authority and Employer

Leicestershire County Council recognises its dual role as employer participating in the Fund and the Administering Authority legally tasked with the management of the Fund can create the potential for Conflicts of Interest. It is important that these potential conflicts are managed in order to ensure that no actual or perceived Conflict arises and that all of the Fund's employers are treated fairly and equitably. The Fund manages this risk through strategies and policies such as the following:-

The Funding Strategy Statement sets out the Fund's approach to all funding related matters including the setting of contribution rates. This policy is set with regard to the advice of the Fund's Actuary and is opened to consultation with all Fund employers and the Pensions Board prior to formal approval by the LPC This approach ensures a consistency across all employers and removes the possibility of any employer receiving more, or less, favourable treatment.

The Administration and Communication Strategy sets out the way in which the Fund works with its employers and the mutual service standards that are expected. The policy details how the Fund will assist employers to ensure that they are best placed to meet their statutory LGPS obligations. Where a scheme employer's failure to comply with required processes and standards has led to the Fund incurring additional cost, the policy provides for that cost to be recovered from the employer. Major changes are consulted with Fund Employers and the Local Pension Board before it is formally approved by the Pension Committee.

The Investment Strategy Statement sets out the Fund's objectives with the aim to maximise returns whilst maintaining an acceptable level of risk and addresses areas of governance, management, asset allocation, pooling and responsible investment. The Investment Strategy Statement is written independently from any positions the County Council may hold to ensure the Fund meets its fiduciary duty to safeguard, above all else, the financial interests of the Fund's beneficiaries. Decisions affecting the Funds strategy are taken by the Pension Committee with appropriate advice from the Fund's advisors.

Furthermore, the Fund is run for the benefit of its members and on behalf of all its employers. For that reason, the Fund's Budget and Business Plan are managed independently from Leicestershire County Council. The LGPS Senior Officer reviews the budget independently taking into account the full need of the service. The Budget and Business Plan is then considered by the Board before seeking approval by the Committee. Any spending controls in place for the County Council do not apply to the Fund, though the Fund is mindful of the need to manage costs to minimise the financial burden on scheme employers.

1.4 SUFFICIENCY OF RESOURCES FOR SERVICE PLANNING AND DELIVERY

In order to ensure that the Fund has appropriate resource to deliver its statutory obligations it has adopted a three-stage approach:-

1.4.1 Business planning and budget setting.

The Fund operates a business plan which sets out the priorities for the Fund's services which is approved annually by the Local Pension Committee, with the oversight of the Pension Board. It is comprehensively reviewed, updated and agreed by the Pension Committee before the start of each financial year. If necessary, the plan is reviewed and updated on a more frequent basis.

The latest business plan and budget is publicly available [here](#).

The business plan takes into account the risks facing the Fund, performance of the Fund (including workloads) and anticipated regulatory changes. The business plan also includes the Fund's budget. Resource requirements (including staff recruitment, procurement and other specialist services) are determined by the requirements of the Fund's business plan. The business plan also sets out the Key Performance Indicators (KPIs) which will be used to monitor progress against the business plan, and the Board monitor on a quarterly basis.

Progress against the business plan, including actual spend, is monitored by the Pension Committee on a regular basis and published within the Fund's Annual Accounts.

1.4.2 Service Delivery

The Fund publishes an Administration and Communication strategy which sets out how it will deliver the administration of the Scheme. The strategy includes:

- details of the structures and processes in place for the delivery of the pension administration function;
- expected levels of performance for the delivery of key Fund and employer functions;
- the Fund's approach to training and development of staff;
- the Fund's approach to the use of technology in pension administration.

The policy can be viewed [here](#).

1.5 MONITORING DELIVERY AND CONTROL ENVIRONMENT

The Fund recognises the importance of monitoring and reporting how it delivers progress against the business plan. This is done on the following ways:

Performance against KPIs is reported to the Local Pension Board on a quarterly basis. The Pension Committee further receives regular updates. KPI performance is reported in the Fund's annual report. Plans to address any workloads are added to the business planning process above.

Every year the Fund's internal auditors carry out reviews to provide assurance that the Fund's processes and systems are appropriate for managing risks. Two audits outstanding from the previous year were concluded and four assurance audits were undertaken in 2020/21. The assurance grading was overall positive and there were no high importance recommendations. Three of the audits were also shared with the Fund's External Auditor (Grant Thornton LLP) in order to inform their audit risk assessment in preparation for their annual audit of the Fund's accounts.

The Pension Manager monitors cost and resource levels to balance value for money with service delivery.

1.5.1 Internal Audit Plan

In the year, Internal Audit reviewed several areas of the Fund's administration and investment.

These areas included, contribution banding changes, contribution calculations, annual Pensions Increase, Governance and Risk, Immediate payments, investment risks, LGPS Central, National Fraud Initiative and the Effectiveness of the Pension Board.

Several recommendations were made on the assessment of knowledge and skills undertaken by Board Members. These were implemented and the training is included within this Governance Compliance Statement.

Recommendations were received on Governance and Risk, on risk scoring methodology for employers, regular monitoring of employer risk, "mini" health checks, recording keeping, monitoring employer security (bonds). Officers are developing a Fund employer risk policy and working through the employer risks.

Officers share the Risk Register with Internal Audit prior to Board and Committee meetings.

1.6 REPRESENTATION AND ENGAGEMENT

1.6.1 Local Pension Committee Membership and Attendance to March 2021.

The Local Pension Committee representation policy, as set out [above](#) recognises all scheme members and employers should be appropriately represented in the running in the Fund while at the same time ensuring that the Council, as the body with ultimate responsibility for running the Fund, maintains its representation on the key governance bodies. To this end the Fund's representation policy and the Council's constitution specify that the Council shall maintain an equal share of voting members on the Pension Committee.

	Representing	2020/21					Attendance

	Average Attendance					100%

1.6.3 Engagement with Employers

The Fund carries out a range of activities that are designed to engaged employers. These are set out within the Fund's Administration and Communication Strategy and includes

- The Fund engages and consults with employers during the actuarial valuation and specifically on key strategies such as the Funding Strategy Statement;
- A regular employer bulletin provides updates on technical changes, process reminders and a calendar of key upcoming dates;
- Training sessions which can be provided on request covering the main areas of employer responsibility, for example year end returns, processing ill health cases and internal dispute resolution procedures; and
- The Fund is available to provide support on issues such as outsourcing services or workforce restructuring.

1.6.4 Engagement with Members

The Fund's Communication Strategy sets out how it engages with active, deferred and pensioner scheme members including:

- The Fund maintains a website which provides general advice, information and updates including copies of all current policies.
- Members have secure online access to their own pension records in order to run retirement estimates.
- Member's annual benefit statements are available online or in writing (including large text) on request.
- Scheme members are able to arrange one to one appointment, by phone or at our offices, with members of the pension team to discuss specific matters.

1.7 TRAINING

The Public Service Pensions Act 2013 provides for the regulation of the LGPS by The Pensions Regulator and, accordingly, the increased emphasis on the role of Funds' Governing Bodies their knowledge and understanding

The Fund's Pensions Committee and Pensions Board training policy is reviewed and approved by the Pensions Committee, in accordance with the policy training activity undertaken is monitored, recorded and reported to each body. By implementing and participating in training, Committee and Local Pensions Board members will be better placed to make well-informed decisions and, consequently, will be able to comply with the increased requirements of the regulator and the overarching governance requirements of the scheme.

A major factor in the governance arrangements of the Fund is to ensure that the Committee and the Local Pension Board members and officers have the relevant skills and knowledge through application of the CIPFA Knowledge and Skills Framework. Arrangements for regular training are in place with training delivered through various means including in-house structured training events for

both Pensions Committee and the Local Pensions Board, conferences, training delivered at Committee meetings, as well as briefings and research material.

1.7.1 Training Policy

The Fund's Training Policy was adopted in November 2019 and applies to all members of the Local Pension Committee, Local Pension Board and senior officers involved in the management and administration of the Fund. In relation to training for those involved in the governance and the day to day management and administration of the Fund. The Training Policy has regard to relevant codes of practice and guidelines issued by the Pensions Regulator, CIPFA, the training needs of the Committee and Board and the Fund's current priorities. The training strategy sets out how those involved with the Fund will:

- Have their knowledge assessed; and
- Receive appropriate training to fill any knowledge gaps identified. The Fund will measure and report on progress against the training plans as set out below.

A copy of the policy can be found [here](#).

1.7.2 Evidencing Standards of Training

Details of the training undertaken by members of the Pension Committee and Pension Board are reported in this statement. Committee and Board members' subject knowledge is assessed on an annual basis. The results are analysed, and any gaps identified are addressed as part of the ongoing training plans. Targeted training will also be provided that is timely and directly relevant to the Pension Committee and Board's activities as set out in the business plan. Officers involved in the management and administration of the Fund are set annual objectives which will include an element of personal development. These objectives are monitored as part of each individual's annual appraisal. All Members are required to take induction training prior to taking up their role and are provided with an Information Pack including all relevant reading material to keep up to date with pensions issues.

Members of the Committee and Board complete self-evaluation forms on an annual basis assessing their General Understanding, and knowledge on Funding, Investment and Pension Administration. A personal Training Plan is then developed for each Member based on the results of these assessments and is supplemented, where appropriate, to cover matters arising in the course of managing the Fund as part of reports to the Board and Committee and following meetings delivered by officers or the Fund's providers such as the Actuary, independent advisers and investment managers.

Given there have been a number of recent changes both within the LGPS, and externally in the broader pensions environment all Board and Committee Members are encouraged to complete The Pension Regulator's online training and other external training as held by the Scheme Advisory Board, Local Government Association, Hymans Robertson as well as LGPS Central's at its Annual Stakeholder Day.

The CIPFA requirement for continuous professional development for the Fund's s151 officer now includes a regular LGPS element. This requirement applies to the s151 officer for the Council. The Fund has complied fully with this requirement.

In summary, the Fund invests significant resources into the development of its Committee and Local Pensions Board members, firmly believing that the benefits over the long term are essential to the effective governance and management of the Fund. The Fund further encourages Members to attend external events such as:

- Pension Fundamentals Webinars October 2020
- Local Government Association LGPS Update January 2021
- Local Government Association Local Pension Board Training
- LGPS Central Annual Investment Day – Mar 2021

1.8 REVIEW AND COMPLIANCE WITH BEST PRACTICE

This statement will be kept under review and will be revised and published following any material change in the governance arrangements of the Pension Fund.

The regulations require a statement as to the extent to which the governance arrangements comply with guidance issued by the Secretary of State. This guidance contains a number of best practice principles and these are shown below with the assessment of compliance.

Principle	Compliance/Comments
Structure	
The strategic management of fund assets clearly rests with the main committee established by the appointing council.	Fully compliant
That representatives of participating LGPS employers, admitted bodies and scheme members are members of the committee.	Fully compliant
That where a secondary committee has been established, the structure ensures effective communication across both levels.	Fully Compliant
That where a secondary committee has been established, at least one seat on the main committee is allocated for a member of the secondary committee	All Investment Subcommittee will be full LPC members, so Fully Compliant
Representation	
That all key stakeholders are afforded the opportunity to be represented within the main committee structure (including employing authorities, scheme members, independent professional observers and expert advisors)	Fully Compliant
That where lay members sit on a main committee, they are treated equally and are given full opportunity to contribute to decision making, with or without voting rights	Fully Compliant
Selection and Role of Lay Members	
That committee members are fully aware of their status, role and function they are required to perform.	Fully Compliant
Voting	
The policy of the administering authority on voting rights is clear and transparent, including the justification for not extended voting rights to certain groups	Fully Compliant
Training/Facility Time/Expenses	
That the policy applies equally to all members of committees	Fully Compliant
Meetings (frequency/quorum)	
That the main committee meet at least quarterly	Fully Compliant
That secondary committees meet at least twice a year and the meetings are synchronised with the main committee	The Investment Subcommittee

Pension Fund Annual Report

	meets regularly, so Fully Compliant
If lay members are not included in formal governance arrangements, a forum is available outside of these arrangements by which their interests can be represented	Lay members are included on main committee, so Not Relevant
Access	
That, subject to any rules in the Council's constitution, all members have equal access to committee papers, documents and advice that falls to be considered by the main committee	Fully Compliant
Scope	
That administering authorities have taken steps to bring wider scheme issues within the scope of the governance arrangements	Fully Compliant
Publicity	
That the administering authority have published details of their governance arrangements in such a way that stakeholders with an interest in the way in which the scheme is governed can express an interest in wanting to be part of those arrangements	Fully Compliant. A copy of this statement has been sent to all employing authorities.

1.9 Independent Governance Review

In 2020 a High-Level Independent Governance Review of Leicestershire Pension Fund was undertaken by the Fund's Independent Adviser Clare Scott to consider the Fund's performance in relation to regulatory requirements in respect of the LGPS, the expectations of the Pensions Regulator and the emerging themes from the Scheme Advisory's Good Governance Review. Recommendations were assigned priorities and the Fund's current progress can be viewed below.

Recommendation	Priority	Anticipated Ease of Implementation	Notes	Complete?
Governance Structure				
Committee Terms of Reference Should be Updated	High	Medium	Terms of Reference Approved 27 November 2020.	Complete
Ensure the Fund's Accounts and Audits are routinely considered by the Local Pension Committee to ensure it has visibility of all Issues facing the Fund.	High	Medium	The External Audit Report and Statutory Accounts are brought on Annual Basis. Internal Audit also utilise the quarterly Risk Management report to highlight relevant issues.	Complete/Ongoing
Document who makes decisions in relation to LGPS Central, who represents the Council at the Joint Committee and which Committee should receive updates on the Company.	High	Low	Clarification has been included with the Committee's Terms of Reference and wording within the Fund's Annual Governance Statement has been revised.	Complete
Rename the Local Pensions Committee the Pensions Committee.	Low	Low	To be picked up as part of Leicestershire County Council's Constitution Review.	Ongoing
Local Pension Board				
Ensure Clarity of the responsibility of the Local Pension Board in the Governance Compliance Statement and the Admin and Communication Policy.	High	Low	Amended within the Committee TOR to highlight the Board's role, the Admin and Communication Policy and other relevant policies as they come up for review.	Complete
Pension Committee to approve the Administration and Communication Strategy.	Medium	Low	Approved by Local Pension Committee 26 February 2021.	Complete
Pension Committee to oversee administration performance.	Medium	Low	The Board receives quarterly update, the Committee receives them bi-annually in June and as part of the Annual Report. The Board are encouraged to report any areas of concern to the Committee.	Complete

Pension Fund Annual Report

Investments				
Review the way the Fund oversees its investments to ensure the appropriate level of scrutiny and an effective use of governance time.	High	Medium/ High	Officers develop an annual workplan for Committee and ISC.	Complete
Add longer-term performance and net new money to external investment performance reporting.	Medium	Medium	Five year performance and re classification of the Funds holdings into Growth, Income and protection asset classes has been completed. Net money reporting ongoing with independent provider of quarterly reporting.	Ongoing
Scheme Advisory Board – Good Governance Review				
Appointment of LGPS Senior Officer (when details of new requirement are available)	High	TBC	The Director of Corporate Resources as Section 151 Officer currently undertakes this role.	Will be reviewed if guidance from SAB is different to expected.
The relevant areas of the Council should be aware of the needs of the Pension Fund and should not simply apply general Council staffing policies to the Pension function.	High	Medium	The Fund’s budget is approved by the Local Pension Committee and thus is not restricted by any savings required by the County Council’s budget. Changes in staffing policies are considered by the Corporate Resources Management Team.	Complete
Operational Matters				
Agenda Planning Document	Medium	Low	Internal Planning document reviewed and updated.	Complete
Introduce to the Committee’s business: <ul style="list-style-type: none"> • Progress on Business Plan • Annual ISS Review • Pension Administration Performance • Employer Changes and Risk Management • Service and Cost Benchmarking • Local Pension Board Annual Report 				Complete
Introduce an open invitation for the Chair of the Committee to observe Board Meetings.	Low	Low		Complete
Introduce and Open invitation for the Chair of the Board to observe Committee meetings.				Complete

1.10 Scheme Advisory Board – Good Governance

The above extended Governance Statement was designed to complement the Phase 3 Report of the Scheme Advisory Board on Good Governance. The report was published on February 2021 and can be viewed here:- <https://lgpsboard.org/index.php/good-governance>

Many of the recommendations await further consideration by the DLUHC and Scheme Advisory Board, and the production of more detailed guidance which the Fund will look to implement as appropriate.

In the meantime, the Fund will look to introduce a Conflict of Interest policy during 2021/22 which will include how actual, potential and perceived conflicts are addressed within the governance of the Fund, and include all those involved in the management of the Fund.

In terms of wider improvements that link to scheme governance the following continued to be implemented:

- Reacting to the national pandemic by moving from 100% office based, to home working
- Adapting administration workflow processes to enable efficient administration to continue from home
- Further roll out of monthly posting using I-Connect, which links to data improvement

GLOSSARY

A list of acronyms used within the report has been provided below:

AGM	Annual General Meeting
AVC	Additional Voluntary Contribution
CETV	Cash Equivalent Transfer Value
CIPFA	The Chartered Institute of Public Finance and Accountancy

LOCAL PENSION BOARD ANNUAL REPORT

What is the Local Pension Board

The Local Government Pension Scheme (LGPS) Regulations (“the Regulations”) established Leicestershire County Council as the administering authority for the Leicestershire Pension Fund, with responsibility for managing and maintaining the Fund.

The Regulations further required that Leicestershire County Council in its capacity as administering authority established a Local Pension Board. It’s purpose is to assist the Administering Authority:-

- secure compliance with the Regulations, other legislation relating to the governance and administration of the LGPS, and the requirements imposed by the Pension Regulator in relation to the LGPS; and
- ensure the effective and efficient governance and administration of the LGPS

While the Local Pension Board was established by the County Council it does not sit within the typical arrangements that apply to local authority committees, including those that apply to the Local Pension Committee. Instead the Board operates outside of the usual local authority committee structure and serves an advisory and compliance role for the Fund as set out within its Terms of Reference. The Board cannot be delegated to carry out the functions and responsibilities that legally pertain to the administering authority. The structure of the Fund is set out below.

The Local Pension Board is comprised of;

- Three scheme member representatives,
- Three employer representatives
- One substitute scheme member representative.

Details of how the Members of the Local Pensions Board are appointed can be found in the [terms of reference](#).

As at 31 March 2021 the Board is constituted of the following members:-

Employer Representatives

Mrs. Rosita Page CC - Chairman
Leicestershire County Councillor

Mr. Richard Shepherd CC
Leicestershire County Councillor

Cllr. Elaine Pantling
Leicester City Councillor

Scheme Member Representatives

Ms. Caroline Fairchild – Vice Chairman

Ms. Ruth Gilbert

Ms. Divya Haller

Mr. M. Saroya became the Substitute Scheme Member Representative at the December 2020 AGM.

While there is no statutory obligation for the Local Pension Board to publish a report, it is recognised as best practice for the Board to report on its activities for the year and its future plans.

The Public Service Pensions Act 2013 requires an administering authority to publish information about its Local Pension Board, this is included on the County Council's [Website](#), and as part of the Governance Compliance Statement within Leicestershire Pension Fund's Annual Report.

Foreword by the Chair of the Local Pension Board

This is the second Annual Report of the Local Pension Board of the Leicestershire Pension Fund. This report covers the period from 1 April 2020 to 31 March 2021, to align with the Fund's Annual Report.

Scheme Members should be assured that the Local Government Pension Scheme is a defined benefit pension arrangement, that will pay a retirement income based on your salary and the number of years you have worked for the employer, rather than the amount of money you have contributed. The Fund invests the contributions it receives into long term investments, and though the market will always fluctuate investment performance does not affect Members pensions.

Last year the Board was worried that the pandemic could present an opportunity for scammers to prey on those in vulnerable situations, however we are pleased that there have been no such cases to report. Transfers out and refund requests have remained stable, and we continue to encourage all Scheme Members to carefully consider their situation when transferring their pension to another scheme as not to put them at financial risk.

Ultimately the focus of the Board has been to ensure that the Fund's governance complies with Public Service Pensions Act, the LGPS Advisory Board, the Chartered Institute of Public Finance and Accounting and The Pensions Regulator, which we have continued to achieve.

Importantly, the opinion of the Board is that we do not have any concerns about Leicestershire Pension Fund or its Administration.

I would like to place on record the Board's appreciation for the support and transparent advice of officers and Independent Advisor Clare Scott as part of the Fund's Governance Review, who plays a valuable role in supporting us and our oversight and scrutiny of the Fund.

This Annual Report is just a short precis of our work during the year. We hope it reflects the variety of issues we have considered during another busy year and that you enjoy reading it. Find out more about our [meetings here](#).

Mrs. R. Page CC

Chairman of the Local Pension Board

Member Attendance

The Board has met on three occasions during the year and attendance has been positive with employer and employee representatives freely giving their time and commitment.

	20 April 2020	10 August 2020	26 October 2020	8 Feb 2021
Mrs. R. Page	<i>Cancelled due to COVID-19. Papers were circulated to Members for comment.</i>	✓	✓	✓
Mr. R. Shepherd		✓	✓	✓
Cllr. E. Pantling		✓	✓	✓
Ms. C. Fairchild		✓	✓	✓
Ms. D. Haller		✓	✓	x
Ms. R. Gilbert		✓	✓	✓
Manjit (Reserve Representative)		n/a	n/a	✓

The Board held three meetings during the year. Which have covered the following:

- **Pension Fund Administration Reports** – The Board was updated at each meeting on the performance of the Pension’s Section against its performance indicators. Including updates on breaches, complaints and appeals.
- **Risk Management and Internal Controls** –The Board was updated at each meeting on the risk management and internal controls of the Fund.
- **Pension Fund Valuation** – The Board received an update on the consultation with employers on the Funding Strategy Statement.
- **Investment Strategy Statement Update** – An update on the revised Investment Statement Strategy, which the Board supported.
- **Draft Responsible Investment Strategy** – A report on the Fund’s approach to improving the management of responsible investment risks, which was welcomed by the Board.
- **The Pension Regulator ‘Deep Dive’ Findings** – The Board noted areas of improvement that the Pension Regulator identified in other funds that the Leicestershire Fund would undertake where appropriate.
- **LGPS Transfer of Pension Rights** – An update concerning minor changes to Leicestershire’s acceptance of transfer values from certain external pension schemes.
- **Updates on Conferences Attended** - The Chairman and Ms. D. Haller both updated the Board on information gleaned from the LGPS Central Conference.
- **Member Self Service** – The Board received an update on improvements to the Self-Service system following training received
- **Transfers Out** - A report on issues relating to pension transfer out requests and the risk of scam activity.

- **Exit Credit Policy** – Proposed Changes to the Fund’s Exit Credit Policy and consultation.
- **LGPS Scheme Advisory Board’s Good Governance Review** – Update reports to meetings on progress towards the Good Governance Phase 2 Report.

Breaches

The Board has a responsibility to report any matter that appears to be materially significant. There were no significant issues of concern raised with, or by the Board, throughout the year.

Highlights

Below is a selection of highlights of the items considered this year:-

Transfer of Undertakings Protection of Employment (TUPE)

In 2019/20 the Chairman had written to employers, on behalf of the Local Pension Board, where it held concern over the lack of bond or admission agreements and their failure to sign legal documents in relation to Transfer of Undertakings Protection of Employment, which resulted in a delay for scheme members joining the scheme. Following further warnings from the Pension Manager we were pleased to note that the outstanding cases had been completed as at February 2021. We will continue to monitor employer risk including the bond values and contract dates through the quarterly Administration reports.

Transfers Out

The Pensions Manager regularly updated us regarding scheme member requests to transfer out to non-public service schemes. It was clear there was a conflict between scheme members who wished to transfer quickly, versus the Scheme Manager wishing to undertake sufficient due diligence. We were pleased to note the level of due diligence that the Fund undertook provided security for members before transfers were completed. It was concerning that even some Financial Conduct Authority approved schemes were not always in the best long-term interests for scheme members. Concluding our discussion, we recommended that the Pension Manager review the wording incorporated into documents circulated to scheme members as part of the Stage 1 letter to ensure it set out time scales, managed service expectations and advised of the Fund’s position in relation to due diligence. While the Pensions Section was not aware of any scam activity within the Leicestershire Fund, we noted the importance of remaining vigilant, a theme we revisited at future meetings.

Ultimately, we would encourage any scheme member considering transferring out to consider the costs, risks and loss of benefits involved, and to take independent financial advice as necessary.

McCloud

We continued to await the impact of the McCloud judgement, which found that when public service pension schemes changed in 2014 and 2015 they had discriminated on the grounds of age, by only providing protection for older members. It seems clear that Government's intention is to fix unlawful discrimination in the public service pension schemes, and we await the expected further consultation on draft LGPS regulations. As a result, we expect a major strain on the Pensions Team resourcing with the requirement recalculate member's benefits and potentially to re-aggregate cases. We undertook further training on the matter to further explain the potential impact as well as the Sargeant ruling and will continue to monitor effect of the case.

95k Exit Cap

We considered, in the Board's role as regulatory body for the Leicestershire Pension Fund, Government's response to the 95k Exit Cap consultation. While the cap was primarily an employer issue it also impacted on the administration of the Fund in relation to the pension strain (costs that occurred when there is a clear shortfall in the assumed level of funding needed to provide an unreduced pension benefit, for example if a member drew their benefit a lot earlier than expected). We will continue to monitor the situation as it remains a key issue with the potential impact it may have on the Fund. It is clearly concerning that the 95k exit cap could affect a lot of public sector workers, especially those who may have long service such as nurses and social workers if not linked to inflation. We were pleased to note that the Pensions Manager had written to all employers making them aware of the change and informing them they must contact any impacted staff. We were also aware employers were looking at the implications and that Unison were also lobbying against the cap in its current form. We continue to encourage any scheme member of the fund who is concerned to contact their employer.

Looking ahead to 2021/22.

The Board will maintain oversight of the Fund and continue to receive regular reports on admin, governance and risk. As previously identified we await further guidance and information relating to the impact of the McCloud ruling on the Fund and whether it will require recalculation of post 2014 scheme benefits and the impact this could have on resource within the Pensions Section.

The focus on employer risk and governance also continues to grow for the Pensions Section, and the required resource will be allocated accordingly. We also continue to await guidance arising from Scheme Advisory Board's Good Governance Phase 3 report, and the continuing the work in response to Clare Scott's Independent Governance Report, such as the introduction of a Conflict of Interest Policy for the Fund.

Importantly, we will look to scrutinise the Prudential, the Fund's Additional Voluntary Contribution (AVC) provider, following concerns raised by the Pensions Manager that they were breaching service standards. We will look to monitor the service that they provide and look to invite them to a future meeting to answer for the service provided and understand what mitigation would be put in place to avoid such issues

in future, as it is a significant concern to the Board that problems could impact on members ability to receive funding in a timely manner.

Training

The Fund's **Training Policy** was adopted in November 2019 and applies to all members of the Local Pension Committee, Local Pension Board and senior officers involved in the management and administration of the Fund. The Training Policy has regard to relevant codes of practice and guidelines issued by the Pensions Regulator, CIPFA, the training needs of the Committee and Board and the Fund's current priorities.

The 2013 Public Service Pension Act requires that members of Local Pension Boards have an appropriate level of knowledge and understanding in order to carry out their role. Any individual appointed to a local pension board must be conversant with;

- The regulations of the Local Government Pension Scheme, including historical regulations and transitional provisions, to the extent that they still affect members; and
- any document recording policy about the administration of the scheme Local Pension Board members must also have knowledge and understanding of;
- the law relating to pensions, and
- such other matters as may be prescribed in other legislation

The degree of knowledge and understanding required by Board members is appropriate for the purposes of enabling the individual to properly exercise the functions of a member of the Local Pension Board. The Leicestershire Pension Fund is committed to supporting Local Pension Board members to achieve the level of knowledge and understanding they require by providing the appropriate level of training and assistance.

Members of the Board complete self-evaluation forms on an annual basis assessing their knowledge in terms of General Understanding, Funding and Pension Administration. A personal Training Plan is then developed for each Member based on the results of these assessments and is supplemented, where appropriate, to cover matters arising in the course of managing the Fund as part of reports to the Board and following meetings delivered by officers or the Fund's providers such as the Actuary and independent adviser.

The Board undertook a comprehensive knowledge review and training programme in December . This provided each Member with a thorough information base to build upon.

While this Annual Report is written from – 30 November it is worth noting that following adoption of the Training Policy in November the Board undertook a comprehensive training programme to refresh all Board Members knowledge, to provide each Member with a thorough information base to build upon.

The attendance log for training undertaken following Board Meetings is as follows:

	General Training	Member Self Service	McCloud
Mrs. R. Page	✓	✓	✓
Mr. R. Shepherd	✓	x	✓
Cllr. E. Pantling	✓	x	✓
Ms. C. Fairchild	✓	✓	✓
Ms. R. Gilbert	✓	✓	✓
Ms. D. Haller	✓	✓	✓

Given there have been a number of recent changes both within the LGPS, and externally in the broader pension's environment all Board Members are encouraged to complete The Pension Regulator's online training and other external training as held by the Scheme Advisory Board, Local Government Association, Hymans Robertson as well as LGPS Central. Some of the events include:-

- Pension Fundamentals Webinars October 2020
- Local Government Association LGPS Update January 2021
- Local Government Association Local Pension Board Training
- LGPS Central Annual Investment Day – Mar 2021

-
