

**HEALTH OVERVIEW AND SCRUTINY COMMITTEE**

**WEDNESDAY 9 SEPTEMBER 2015**

**RESPONSE FROM WEST LEICESTERSHIRE CCG TO THE  
QUESTION FROM THE VICE CHAIRMAN OF ASHBY CIVIC SOCIETY**

The following response has been received from West Leicestershire Clinical Commissioning Group to the question set out in Attachment 4:-

“The information provided in the letter relates to floor space in clinical settings rather than services provided, which does not necessarily indicate the quantum of services provided. It is also well known that not all of the space in community hospitals is currently utilised. The plans for Better Care Together are focussed on ensuring that services are available to meet the clinical requirements for the patient population going into the future.”
