Delivering Growth Together

APPENDIX 3

Have your say on the Leicester and Leicestershire combined authority proposal

Introduction

The city, county and district councils are working on proposals to create a combined authority. A combined authority would not replace individual councils and their current services but would enable them to work more closely together on transport, planning, skills and other key issues affecting the whole area. The combined authority can only be formed if all councils agree and if the Government approves any proposals.

The councils concerned are: Leicester City Council; Leicestershire County Council; Blaby District Council; Charnwood Borough Council; Harborough District Council; Hinckley and Bosworth Borough Council; Melton Borough Council; North West Leicestershire District Council; and Oadby and Wigston Borough Council.

We'd like your views on our outline proposal.

All comments we receive during the consultation will be analysed and we will amend the proposals in the light of them. The amended proposals will then be considered by all the above councils. If all councils approve the proposals, we will submit them to the Government. We hope to be able to submit proposals early next year and would then expect a decision from ministers within a year.

Please note: Your responses to the main part of the survey (Q1 to Q7, including your comments) may be released to the general public in full under the Freedom of Information Act 2000. Any responses to the questions in the 'About you' section of the questionnaire will be held securely and will not be subject to release under Freedom of Information legislation, nor passed on to any third party.

Combined authority governance model

Recently we looked at possible governance models to enable economic and transport improvements in the local area. The preliminary findings of the governance review suggest the combined authority is the best governance model for Leicester and Leicestershire.

A combined authority is a legal arrangement which enables councils to work together more closely on issues around transport, planning and economic growth. They can help reduce duplication and bureaucracy. They are created to enable clearer co-ordination and decision-making, to drive forward decisions on transport, economic development and skills, giving local councils a stronger voice in discussions with the Government, neighbouring areas and developers.

There are alternatives to having a combined authority. For example, councils could continue to work together as they are, or set up a joint committee, or an economic prosperity board. However, none of these options give the full benefits of a combined authority and that is why a number of areas are applying to set up combined authorities. These are set out in our governance review.

Combined authority functions

Part 2 of the draft scheme sets out the proposed functions of the combined authority. In summary, these are:

Planning: councils could work together to agree a clearer, long-term framework to meet future housing and employment needs for the whole area and identify future growth locations.

Transport: focussing on long-term investment in road, rail and other public transport infrastructure.

Skills: driving improvements in skills and training, to give local people the chance to get better qualifications and employment.

Q4 To what extent do you agree or disagree that these proposed functions are appropriate? Please tick one option only
