PATHWAY FOR SUPPORTING CARERS

Who is a Carer?

A Carer is a friend or family member who gives their time to support a person in their home, to an extent that the person could not remain at home if this care was not being provided. A Carer can receive Carers Allowance, but not a wage and the care they are giving will significantly affect their own life.

Who	What	Resource / Contact
All Ward Staff	Identify carers of all ages	UHL Carer Leaflet via Patient Experience Team.
Nurse responsible for Admission	Complete Carer Involvement Form with consent from patient and carer(s)	➤ ☎ 0116 258 5384

Quick Poll Survey:

Parent Views about Health Services

Introduction
Healthwatch Leicestershire (HWL) wanted to understand how parents with children under the age of 18 years use and experience health and social care services.

Aim
To allow local parents to share their opinions and experiences of health and social care services across Leicestershire.

Methodology
The survey was promoted during February 2016 and April 2016 via our newsletters, website and through social media. We also made the survey available face to face at general engagement events.

Findings
What respondents told us
We wanted to know which services needed to be improved or changed to better support families?

More Informed GPs on Mental Health Issues
GPs are the first port of call for many parents when discussing mental health issues concerning their child. This becomes a bigger issue given that many parents are still finding it difficult to access a timely GP appointment, including non-emergency, same day or appointments that are available for parents after school.

Access to services
Waiting times to access Children and Adolescent Mental Health Services (CAMHS) need to be improved as this may result in the individual problems potentially worsening.

Who we heard from:

- 55 Leicestershire residents
- 8 Leicester City residents
- 2 Out of area residents

65 people responded
