

REPORTS FOR LEICESTERSHIRE LOCAL ACCESS FORUM***Meeting Oct 2017*****NATIONAL FOREST ACCESS & RECREATION GROUP**

They are concentrating this year on the connectivity and access to the areas planted up and promoting recreational and sporting use of the Forest. I have represented the Forum at one of their Access & Recreation Group's meetings and advised them as what the Forum are doing in particular in respect of unrecorded ways within the forest and the wider area. I have also had meetings and discussions about the location and design of 7 major information hubs being established throughout the area. They have appointed an Access & Recreation Office to push their agenda. They have another meeting scheduled for November 8th when this person should be introduced to us and the location of another fairly sizeable site will be disclosed
