

Childrens Centre Usage (12 month period)

How have we decided where Family Wellbeing Centres should be located?

We have looked at a number of different factors to reach these proposals, including:

- How the buildings are located across the county.
- How suitable the building is – flexible space to deliver both group and one-to-one work and office space to accommodate staff.
- How accessible the location and building are from nearby towns and villages – on foot, by car and public transport.
- How people currently use services at the location/building.
- Practicalities including running costs and whether we own or lease a building - this often has an impact on how it can be used.

The data referred to below is only from the Childrens Centre activity that takes place in the centres . The childrens centre programme also provides outreach in peoples homes in addition to the delivery in services. The other three EH Services deliver their services through outreach in peoples homes, community venues (for group work) and in the SLF Centres.

Buildings proposed for future use

| Childrens Centre Area | Centre Building | Centre Opening Hours | No. of service user contacts during 12 months (contacts not individual people, some people may have attended the centres on more than one occasion) | | Usage | | Buildings Information | | | |
|-----------------------|-------------------|--|--|---|---|---|--|------------|---------------|---|
| | | | Targeted Children's Centre pathway and group work. Individual family outreach work for targeted families delivered in centres, SEND groups | Universal Health visitor sessions, volunteer led sessions, community group sessions. | Current Sessions Running Weekly NB: This is a snapshot overview of the types of sessions run in each centre. The programme change regularly (usually termly). | Which other organisations use the buildings | Address | Tenure | Running Costs | Owner |
