

Leicestershire and Rutland Safeguarding Adults Board Business Development Plan 2018-19

Priority: SAB1 Prevention of Safeguarding Need

Priority Statement: Prevention of Safeguarding need through building resilience and self-awareness in adults with care and support needs.

Rationale:

Prevention is key in reducing harm and fear of harm, improving safety and quality of life
 Early intervention can reduce pressure on higher level, higher cost services.
 Scoping work has found practitioners across agencies are keen to support prevention and tools are often in place, but not used as effectively as they could to prevent safeguarding need.
 Services that support prevention of safeguarding harm could be better understood and engaged in safeguarding adults.
 Effective transition from children’s services, such as Looked After Children, Children on Child Protection Plans, and those affected by CSE, may support prevention of adult safeguarding need.

What do we want to be different?

Build resilience in adults with care and support needs
 Build self-awareness regarding health and wellbeing and safeguarding risk
 The Board is assured that work with young people who have been assessed as requiring additional support to reduce risk and vulnerability (including LAC, CIN, CP, CSE) assists prevention of adult safeguarding need.

Priority: SAB2 Mental Capacity

Priority Statement: Improve the understanding of capacity to consent and the application of the Mental Capacity Act across agencies.

Rationale:

- Practitioner feedback suggests there is a lack of confidence across agencies in understanding and assessing capacity to consent.
- Safeguarding Adults Reviews (SARs) and other reviews have identified the use of the term 'lack of capacity' as a generic statement, without reference to specific decisions, which is inaccurate and unhelpful.
- Consistency in the application of the Mental Capacity Act could be improved across agencies.

What do we want to be different?

- The Mental Capacity Act is applied with relevance and consistency within partner agencies
- Across agencies there is increased understanding of and confidence in the undertaking of Mental Capacity Assessments in relation to 'consent' and decision making
- The workforce has improved understanding of the resources available to support the service user participating in informed 'decision' making.
- The Board is assured of effective application of the Mental Capacity Act across agencies

Priority: SAB3 Adult Safeguarding Thresholds

Priority Statement: Promote a better and more consistent understanding and use of adult safeguarding thresholds.

Rationale:

- The Threshold guidance was initially a tool for supporting the Local Authority decision making but is now to be used by all referrers however the wider use still needs embedding. This guidance is available via the Multi-Agency Procedures
- Whilst there is a good balance of referral and application of thresholds there were still concerns regarding consistency of use of thresholds across different settings
- Guidance on Section 42 enquiries in health settings has been introduced in 2017/18.
- Work has taken place with providers in other settings regarding their role in Section 42 enquiries.
- The role of independent/private sector in Section 42 enquiries regarding application of thresholds sometimes conflicts with advice given by CQC.

What do we want to be different?

Growing and consistent application of thresholds across all organisations
 Assurance that S42 enquiries in health settings are being carried out in line with guidance
 Assurance that all service providers are carrying out their role in Section 42 enquiries appropriately.

Priority: SAB4 Engagement

Priority Statement: Ensuring the work of the Safeguarding Adults Board is informed by adults with care and support needs

Rationale:

Listening and responding to the wishes of adults with care and support needs should be at the heart of all the Board does. Whilst work on making safeguarding personal is increasing the response to the wishes of adults with care and support needs within individual safeguarding situations this is not visible at the Board level and there is room for more engagement in the overall work of the Board.

What do we want to be different?

The voice and wishes of adults with care and support needs is clearly influencing the work of the SAB.
