Strategic Partnership Board

Prevention in Policing

Addressing the drivers of harmful behaviour across the partnerships as a whole drugs, mental health, alcohol

Components of Prevention

Violence Reduction Network Public Health Approach – addressing the causes of the causes; understanding the impact of ACEs – long term approach

Mental Health

Working with LPT, CCGs and Police to develop a more responsive and accessible service. Conference 3 Oct

Community Resilience Working with communities and agencies to develop local solutions via People Zones – these will link much more directly to the VRN – grants scheme local groups

Addressing vulnerability

Working with local authorities to redesign sexual and domestic violence services across LLR. Early intervention youth fund

These are some of the ingredients that constitute an approach to prevention of harmful behaviours. A key missing element is data analysis with a new approach in development

What's happening in SPB?
