Capital Budget 2022/23 – main variances

Children and Family Services

Net slippage of £12.4m. The main variances were:

	£000
Provision of Additional School Places	-7,315

- 1) Barrow Humphreys Perkins acceleration of £1.0m. This is a S.106 funded passported scheme included in 2023/24 as timing was not known. The works started earlier than anticipated to build a new two-storey 13 classroom block to replace several dilapidated temporary buildings.
- 2) Schemes to be defined slippage of £3.1m. Some agreements with schools were signed prior to the current economic situation. Gaps between indexation and inflation rates are likely to continue to impact the delivery of schemes within budgets. For this reason this unallocated budget will be held as an inflation contingency into 23/24.
- 3) Melton, John Fernley slippage of £1.4m. Resourcing issues in Legal pushed back this project timeline even further and works did not commence on site until December 2022. Practical Completion is now expected for August 2023.
- 4) Castle Donington Secondary School slippage of £1.3m. This is a passported scheme. There were originally delays in getting legal agreements drawn up and signed. The school needs to send copies of invoices in order to enable payment to be made. They have been chased numerous times but the evidence has not been submitted.
- 5) Old Dalby primary school slippage of £1.2m. Initial feasibility undertaken. Value engineering has been undertaken to bring down costs. Practical completion is now forecast for the Autumn Term.
- 6) Barrow Hall Orchard School slippage of £0.8m Delays in the creation and signing of the legal agreement for this passported scheme resulted in both delivery delays and increased costs. The final payments to the school will now be made in 23/24.

SEND Programme -3,284

- (i) Foxfield's Special School £0.8m Detailed design and surveys were undertaken to determine exact requirements. Amendments were required as the school will be taking the initial intake of students originally planned to be placed in September at the new Bowman Academy, which has now been delayed. The first payment to Foxfields for this passported scheme is now scheduled for April.
- (ii) Forest Way School £0.7m slippage as the findings of an environmental impact assessment has resulted in a full environmental study needing to be undertaken. Certain parts of this could not be by undertaken until late March for ecological reasons.
- (iii) Ashmount School £0.6m slippage due to poor weather conditions in January resulted in bricklaying delays, which in turn pushed back the delivery of the scheme. Additional works were also needed to be undertaken to re-route services within, rather than outside of the school boundary.
- (iv) Bowman Academy £0.5m slippage due to issues with the DfE appointing contractors. Although the demolition of the old building has taken place, there are a number of other 'abnormal' costs that LCC may be liable for such as drainage and uprated power supply. The DfE have commissioned further site surveys in relation to this.

Children's Social Care Investment Plan -78

Match funding bids submitted to the DfE was confirmed successful recently. The delay in being advised of this outcome meant that no significant expenditure took place. Property Services are exploring the market for suitable sites.

Strategic Capital Maintenance -711

Slippage due to the intrusive nature of this remedial work it cannot take place during term time. The spend for the works during easter break fell into the new financial year.

curity -321

Slippage due to a number of schemes to be completed outside of school term time. One scheme delayed as asbestos was discovered which required removal before works could commence.
