The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Pension Fund or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

National context

For the general population, rising inflation, in particular for critical commodities such as energy, food and fuel, is pushing many households into poverty and financial hardship, including those in employment.

The pressures on household income have raised concerns that members will look at their pension contributions as a way of cutting back on their monthly costs. The cost-of-living crisis is having a detrimental impact on pension savings, with some even dipping in to their savings to supplement short-term needs and several members are also requesting early access to their pension after age 55 as a means to financially manage their commitments. The cost of living crisis makes it even more important that lowly paid workers have access to a good quality pension.

In planning our audit, we will take account of this context in designing a local audit programme which is tailored to your risks and circumstances.

Key matters

Our Responses

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set out further in our Audit Plan, has been agreed with the section 151 officer.
- We will continue to provide you and your Audit Committee with sector updates providing our insight on issues from a range of sources and other sector commentators
- We hold annual financial reporting workshops for our clients to access the latest technical guidance and interpretation , discuss issues with our experts and create networking links with other clients to support consistent and accurate financial reporting across the sector.
- We have identified an increased incentive and opportunity for organisations in the public sector to manipulate their financial statements due to increasing financial pressures. We have therefore identified a significant risk in regards to management override of control – please see the “Significant risks identified” section of this report for further detail.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Leicestershire Pension Fund ('the Pension Fund') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Leicestershire Pension Fund. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Pension Fund's financial statements that have been prepared by management with the oversight of those charged with governance (the Corporate Governance committee).

The audit of the financial statements does not relieve management or the Corporate Governance Committee of your responsibilities. It is the responsibility of the Pension Fund to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Pension Fund is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Pension Fund's business and is risk based.

Our audit planning work is ongoing. This plan is therefore presented as an interim plan and a final plan will be issued once our planning work is completed.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Leicestershire Pension Fund (‘the Pension Fund’) for those charged with governance.

Respective responsibilities

The National Audit Office (‘the NAO’) has issued a document entitled Code of Audit Practice (‘the Code’). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Leicestershire Pension Fund. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Pension Fund’s financial statements that have been prepared by management with the oversight of those charged with governance (the Corporate Governance Committee).

The audit of the financial statements does not relieve management or the corporate governance Committee of your responsibilities. It is the responsibility of the Pension Fund to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Pension Fund is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Pension Fund's business and is risk based.

Introduction and headlines

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Revenue and expenditure recognition (rebutted)
- Management override of controls
- Valuation of Level 3 investments

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have changed our approach to setting materiality. We have increased the level of materiality applied to investments but have reduced the materiality for other items. This will bring more areas into the scope of our audit.

We have determined planning materiality to be £83m (PY £40m) for the Pension Fund, which equates to 1.5% of your estimated net assets as at 31/12/2022 (the most recent valuation available). We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £4.1m (PY £2m).

In an enhancement of our approach, for 22/23 we have also set a specific, lower materiality in relation to Fund Account transactions of £23m (clearly trivial £1.1m)

Audit logistics

Our interim visit will take place in February and our final visit will start in June. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our proposed fee for the audit will be £36,793 (PY: £33,293) for the Pension Fund, subject to the Pension Fund delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

New Auditing Standards

There are two auditing standards which have been significantly updated this year. These are ISA 315 (Identifying and assessing the risks of material misstatement) and ISA 240 (the auditor's responsibilities relating to fraud in an audit of financial statements). We provide more detail on the work required later in this plan.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions (rebutted)	<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.</p> <p>This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p> <p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Fund, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> • there is little incentive to manipulate revenue recognition • opportunities to manipulate revenue recognition are very limited • the culture and ethical frameworks of local authorities, including Leicestershire County Council as the administering body for Leicestershire Pension Fund mean that all forms of fraud are seen as unacceptable. 	No specific work is planned as the risk has been rebutted.
The expenditure cycle included fraudulent transactions (rebutted)	<p>Practice Note 10: Audit of Financial Statements of Public Sector Bodies in the United Kingdom (PN10) states:</p> <p>"As most public bodies are net spending bodies, then the risk of material misstatement due to fraud related to expenditure may be greater than the risk of material misstatements due to fraud related to revenue recognition". Public sector auditors therefore need to consider whether they have any significant concerns about fraudulent financial reporting of expenditure which would need to be treated as a significant risk for the audit.</p> <p>We have rebutted this presumed risk for Leicestershire County Council because:</p> <ul style="list-style-type: none"> • expenditure is well controlled and the Fund has a strong control environment; and • the Fund has clear and transparent reporting of its financial plans and financial position to those charged with governance. • We therefore do not consider this to be a significant risk for Leicestershire Pension Fund. 	No specific work is planned as the presumed risk has been rebutted.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Valuation of Level 3 investments</p>	<p>The Fund revalues its investments on an annual basis to ensure that the carrying value is not materially different from the fair value at the financial statements date.</p> <p>By their nature Level 3 investment valuations lack observable inputs. These valuations therefore represent a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions</p> <p>Under ISA 315 significant risks often relate to significant non-routine transactions and judgemental matters. Level 3 investments by their very nature require a significant degree of judgement to reach an appropriate valuation at year end.</p> <p>Management utilise the services of investment managers and custodians as valuation experts to estimate the fair value as at 31 March 2023.</p> <p>We therefore identified valuation of Level 3 investments as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate management's processes for valuing Level 3 investments • review the nature and basis of estimated values and consider what assurance management has over the year end valuations provided for these types of investments; to ensure that the requirements of the Code are met • independently request year-end confirmations from investment managers and custodians • for a sample of investments, test the valuation by obtaining and reviewing the audited accounts, (where available) at the latest date for individual investments and agreeing these to the fund manager reports at that date. Reconcile those values to the values at 31 March 2022 with reference to known movements in the intervening period • in the absence of available audited accounts, we will evaluate the competence, capabilities and objectivity of the valuation expert • test revaluations made during the year to see if they had been input correctly into the Pension Fund's asset register • where available review investment manager service auditor report on design effectiveness of internal controls.
<p>Management over-ride of controls</p>	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate the design effectiveness of management controls over journals; • analyse the journals listing and determine the criteria for selecting high risk unusual journals; • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration; • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Other matters

Other work

The Pension Fund is administered by Leicestershire County Council (the 'Council'), and the Pension Fund's accounts form part of the Council's financial statements.

Therefore, as well as our general responsibilities under the Code of Practice a number of other audit responsibilities also follow in respect of the Pension Fund, such as:

- We read any other information published alongside the Council's financial statements to check that it is consistent with the Pension Fund financial statements on which we give an opinion and is consistent with our knowledge of the Authority.
- We consider our other duties under legislation and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2022/23 financial statements, consider and decide upon any objections received in relation to the 2022/23 financial statements;
 - Issue of a report in the public interest or written recommendations to the Fund under section 24 of the Act, copied to the Secretary of State.
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act; or
 - Issuing an advisory notice under Section 29 of the Act.
- We carry out work to satisfy ourselves on the consistency of the pension fund financial statements included in the pension fund annual report with the audited Fund accounts.

Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
1	<p>Determination</p> <p>We have determined financial statement materiality based on a proportion of the net assets for the Pension Fund. Materiality at the planning stage of our audit is £83m, which equates to approximately 1.5% of your estimated gross investment assets as at 31/12/2022 (the latest date for which valuation information is available).</p>	<p>We determine planning materiality in order to:</p> <ul style="list-style-type: none">– establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements– assist in establishing the scope of our audit engagement and audit tests– determine sample sizes and– assist in evaluating the effect of known and likely misstatements in the financial statements
2	<p>Reassessment of materiality</p> <p>Our assessment of materiality is kept under review throughout the audit process.</p>	<p>We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.</p>

Our approach to materiality

Matter	Description	Planned audit procedures
3	<p>Other communications relating to materiality we will report to the Audit Committee</p> <p>Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the corporate governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) ‘Communication with those charged with governance’, we are obliged to report uncorrected omissions or misstatements other than those which are ‘clearly trivial’ to those charged with governance. ISA 260 (UK) defines ‘clearly trivial’ as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.</p>	<p>We report to the corporate governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work.</p> <p>In the context of the Pension Fund, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £4.1m (PY £2m). If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the corporate governance Committee to assist it in fulfilling its governance responsibilities.</p>

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

	Amount (£)	Qualitative factors considered
Materiality for the entity financial statements (investments only)	83m	1.5% of the estimated gross assets as at 31/03/2023.
Materiality for the entity financial statements (Other than investments)	23m	10% of gross expenditure for the year ended 31/03/2022 (used as a proxy for forecast 22/23 outturn).

Please note, this is an enhancement of our approach with a view to introducing an element of unpredictability to the audit and recognizing the differing natures of asset and fund account balances.

IT audit strategy

In accordance with ISA (UK) 315 Revised, we are required to obtain an understanding of the relevant IT and technical infrastructure and details of the processes that operate within the IT environment. We are also required to consider the information captured to identify any audit relevant risks and design appropriate audit procedures in response. As part of this we obtain an understanding of the controls operating over relevant Information Technology (IT) systems i.e., IT general controls (ITGCs). Our audit will include completing an assessment of the design and implementation of relevant ITGCs. We say more about ISA 315 Revised on slide 17.

The following IT systems have been judged to be in scope for our audit and based on the planned financial statement audit approach we will perform the indicated level of assessment:

IT system	Audit area	Planned level IT audit assessment
E5	Financial reporting	<ul style="list-style-type: none">Detailed ITGC assessment (design effectiveness only)
Altair	Pensions benefits	<ul style="list-style-type: none">Detailed ITGC assessment (design effectiveness only)

ISA315

ISA 315 (revised July 2020) takes effect for accounting periods starting on or after the 15th December 2021. This ISA deals with the auditor's responsibility to identify and assess the risks of material misstatement in the financial statements. The revisions made in the ISA have increased the level of work required of auditors and detail of this extra work is set out below.

Area	What's changed?	Impact on the audit
Information Technology Environment	<p>The new requirement states certain aspects of the IT environment must be understood and documented for each significant classes of transactions, account balances and disclosures (SCOT+).</p> <p>The auditor is required to consider the information captured to identify any audit relevant risks and design appropriate audit procedures in response.</p>	<p>The audit team will be required to:</p> <ul style="list-style-type: none"> perform walkthroughs of the IT environment; identify and review relevant controls within the IT environment to ensure they are operational; obtain details of the relevant IT / technical infrastructure (i.e., server location, database type); and obtain details of the processes that operate within the IT environment (i.e., process to manage user access or manage a program or IT environment change).
Considering IT risks related to internal controls relevant to the audit.	<p>The auditor is required to identify controls within a business process and identify which of those controls are controls relevant to the audit. For each internal control relevant to the audit, the auditor is required to evaluate the design of the control and evidence effective implementation of the control.</p> <p>The auditor is required to evaluate the design and determine the implementation of the general IT controls (ITGCs) that address the risks arising from the use of IT.</p>	<p>This requirement will lead to a significant change in practice, to the level of detail in which we will be required to understand the risks arising from the use of IT and associated general IT controls (ITGCs).</p> <p>There has been a significant increase in the number of detailed ITGC assessments required.</p>
Control reliance	<p>In previous years, where we had performed a walkthrough of your controls (such as operating expenditure), we were able to use the review of these controls to obtain comfort over the design effectiveness of your system. This would usually result in smaller sample sizes. The changes made to the ISA mean that design effectiveness will no longer grant a benefit when determining sample sizes.</p>	<p>There will be larger sample sizes across a number of areas. Key areas where we will likely see the biggest increase are:</p> <ul style="list-style-type: none"> operating expenditure and payables; property, plant and equipment; non-contract income. <p>This is not a complete list but these will be the areas we expect to be most affected.</p>

Audit logistics and team

Mark Stocks, Key Audit Partner

Mark's role will be to lead our relationship with you. He will take overall responsibility for the delivery of a high quality audit, meeting the highest professional standards and adding value to the Council

David Rowley, Senior Audit Manager

David plans, manages and leads the delivery of the audit, is your key point of contact for your finance team and is your first point of contact for discussing any issues arising

Shazna Rashid, Audit In-Charge

Shazna's role is to assist in planning, managing and delivering the audit fieldwork, ensuring the audit is delivered effectively and efficiently, and is also involved in supervising and co-ordinating the audit

Audited Entity responsibilities

Where audited entities do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where the elapsed time to complete an audit exceeds that agreed due to an entity not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to an entity not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to :

- ensure that you produce draft financial statements of good quality by the deadline you have agreed with us, including all notes
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees and updated Auditing Standards including ISA 315 Revised

In 2012/13, PSAA awarded a contract of audit for Leicestershire Pension Fund to begin with effect from 2012/12. The fee agreed in the contract was £21,280. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2022/23 audit. For details of the changes which impacted on years up to 2021/22 please see our prior year Audit Plans.

The major change impacting on our audit for 2022/23 is the introduction of ISA (UK) 315 (Revised) - Identifying and assessing the risks of material misstatement ('ISA 315'). There are a number of significant changes that will impact the nature and extent of our risk assessment procedures and the work we perform to respond to these identified risks. Key changes include:

- Enhanced requirements around understanding the Council's-IT Infrastructure, IT environment. From this we will then identify any risks arising from the use of IT. We are then required to identify the IT General Controls ('ITGCs') that address those risks and test the design and implementation of ITGCs that address the risks arising from the use of IT.
- Additional documentation of our understanding of the Council's business model, which may result in us needing to perform additional inquiries to understand the Council's end-to-end processes over more classes of transactions, balances and disclosures.
- We are required to identify controls within a business process and identify which of those controls are controls relevant to the audit. These include, but are not limited to, controls over significant risks and journal entries. We will need to identify the risks arising from the use of IT and the general IT controls (ITGCs) as part of obtaining an understanding of relevant controls.
- Where we do not test the operating effectiveness of controls, the assessment of risk will be the inherent risk, this means that our sample sizes may be larger than in previous years.

These are significant changes which will require us to increase the scope, nature and extent of our audit documentation, particularly in respect of your business processes, and your IT controls. We will be unable to determine the full fee impact until we have undertaken further work in respect of the above areas. However, for an authority of your size, we estimate an initial increase of £3,100. We will let you know if our work in respect of business processes and IT controls identifies any issues requiring further audit testing. There is likely to be an ongoing requirement for a fee increase in future years, although we are unable yet to quantify that.

The other major change to Auditing Standards in 2022/23 is in respect of ISA 240 which deals with the auditor's responsibilities relating to fraud in an audit of financial statements. This Standard gives more prominence to the risk of fraud in the audit planning process. We will let you know during the course of the audit should we be required to undertake any additional work in this area which will impact on your fee.

Taking into account the above, our proposed work and fee for 2022/23, as set out below, is detailed overleaf.

Audit fees

	Actual Fee 2021/22	Proposed fee 2022/23
Leicestershire Pension Fund Audit	£33,293	£36,793
Total audit fees (excluding VAT)	£33,293	£36,793

Assumptions

In setting the above fees, we have assumed that the Pension Fund will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.
- as the triennial revaluation has just been completed and published, we will carry out additional work on the data supplied to the actuary to complete this. The additional fee for this work is to be confirmed.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

C. Fees analysis

Audit fees	Final fee
Pension Fund Audit	
Scale Fee	21,280
Investment valuation	4,313
ISA540	3,600
Journals	4,000
Payroll – change of circumstances	500
ISA315	3,100
Total audit fees (excluding VAT)	36,793

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons, relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Pension Fund.

Independence and non-audit services

Other services

The following other services provided by Grant Thornton were identified/ No other services provided by Grant Thornton were identified.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Pension Fund's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
IAS19 Assurance letters for Admitted Bodies	17,000 (est.)	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is small in comparison to the total fee for the audit and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level. (Please note; level of the fee is estimated based on the prior period. There is a variable element which is charged per IAS 19 assurance request received).
Non-audit related	0		
Total	17,000		

Communication of audit matters with those charged with governance

Our communication plan

	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	•	
Overview of the planned scope and timing of the audit, form, timing and expected general content of communications including significant risks and Key Audit Matters	•	
Confirmation of independence and objectivity of the firm, the engagement team members and all other indirectly covered persons	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern	•	•
Significant findings from the audit		•
Significant matters and issue arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit		•
Significant matters arising in connection with related parties		•
Identification or suspicion of fraud (deliberate manipulation) involving management and/or which results in material misstatement of the financial statements		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Expected modifications to the auditor's report, or emphasis of matter		•

ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.

This document, the Audit Plan, outlines our audit strategy and plan to deliver the audit, while the Audit Findings will be issued prior to approval of the financial statements and will present key issues, findings and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via an audit progress memorandum.

Respective responsibilities

As auditor we are responsible for performing the audit in accordance with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.
