Revenue Budget 2023/24 – forecast main variances (Period 6)

Children and Family Services

Dedicated Schools Grant

A net overspend of £12.2m is forecast. The main variances are:

	£000	% of Budget
DSG High Needs Block (HNB) earmarked reserve drawdown	13,330	n/a
The DSG budget in the original MTFS includes an estimated HNB drawdown of £13.3m as the foverspend.	orecast in y	/ear
Secondary Education Inclusion Partnerships	805	34%
Secondary Education Inclusion Partnerships are supporting a growing number of secondary stu	dents.	
Specialist Teaching Service (STS)	335	14%
The STS Service is a fully HNB funded service, with a fixed budget envelope, and does not recerresponse to pay awards. It also has a built-in annual savings target which is usually achieved the vacancy savings. As yet, these potential savings are yet to be fully identified.		
Early Years / Nursery Education Funding	-1,630	-4%
The budget is based on the number of hours used to calculate the original 2023-24 Early Years December 2022. The 2023-24 Early Years DSG income was increased in July 2023 by £1.7m to Spring Term 2023 census (this includes a prior year adjustment of £600k relating to 2022-23). T planned underspend of £0.9m as part of the payback of previous years' Early Years deficits. Th paid to Providers for 2023-24 are £1.2m more than the budget.	o allow for t here is also	he ba
Schools Growth / Budget Allocations	-500	-18%
This funding has been earmarked to help meet the revenue costs associated with new schools. be transferred to the DSG earmarked fund to fund pupil growth in future years.	The unders	spend will
Early Years SEN Inclusion	-100	-8%
Staff turnover and vacancy management controls are the main contributing factors driving the u	nderspend.	
Education - Medical Grounds	-75	-14%
This is due to increased recoupment and vacant posts in year.		
Other variances	55	n/a
TOTAL	12,220	n/a

Local Authority Budget

The Local authority budget is forecast to overspend by £9.6m (9.3%). The main variances are:

	£000	% of Budget
Children's Social Care Placements	6,570	13%
The overall LAC numbers for Leicestershire for financial year 2023/24 look relatively stable in li	ne with rece	ent years.
However, in terms of the placement mix - whilst the most costly provision types such external r slightly in numbers but in line with budgeted position, the average unit costs have increased sig budgeted unit cost. For example – currently average social care external residential cost is circa (20% increase on budgeted unit cost). The combination of complexity of need makes these chil people 'unattractive' to the market (need includes violence, aggression as result of experiencing in the use of high cost (£10k+/week/child) interim provisions until behaviour stabilises or another found.	gnificantly v a £5,750 pe dren and yo g trauma) a	s er week oung nd results

Other sufficiency issues impacting on budget position include:

•Lack of step-down from residential placements (10 children who have been waiting long periods for family-based placements), with continued searches and work with providers to try to identify homes

•Slow recruitment pipeline for mainstream carers, nationally. Particularly impacting on availability of placements for older children and those with more complex needs.

Unaccompanied Asylum Seeking Children (UASC)

The rapid increase in UASC in care and care leavers has required a greater resource requirement to meet their needs. The different entry routes include both the National Transfer scheme, as well as spontaneous arrivals, but more recently through the hotel dispersal scheme where requests to accommodate people placed in Asylum Dispersal Hotels in Leicestershire are made. And whilst they have been deemed adults by the Home Office, subsequently claim to be children, which creates an additional pressure for the service to manage which is not fully funded. In addition, delays in asylum claim processes mean that the Council are often accommodating young people well past 18 and the Home Office funding drops significantly at 18 but the costs do not.

SEN Service Budget

865 48%

1,770

107%

Increased service demand and complexity has resulted in need for additional service resource to ensure demand can be managed in the most efficient and effective manner. A heavy reliance on agency workers to undertake Education, Health and Care Plan (EHCP) writing and tribunal work has resulted in a significant forecast overspend in this area. A second Service Manager post has been created to help deliver whole-system change within SEN. Meanwhile mediation costs remain high, adding to the forecast overspend.

Educational Psychology Service	350	29%
Difficulties recruiting into vacancies in this area has resulting in an increased reliance on locume higher cost. Increased demand due to an increase in the number of EHCP needs assessments impacted the overspend position		
Other variances	45	n/a
TOTAL	9,600	n/a

Adults & Communities

The Department has a net forecast overspend of £6.6m (3.2%). The main variances are:

	£000	% of Budget
Homecare	8,260	21%
The current weekly homecare payments are estimated to be £880k per week. The forecast prov		
of 2,730 service users (SU) for the year, this is 7% higher than the budgeted number of 2,540. C package costs (or hours) are also 6% higher than budgeted (excluding the fee uplift of 8.4%) at		•
week compared to the budgeted value of £313.	2002 per o	o pei
The increase is from:		
a) delaying admission into residential care and increased provision within the service user's owr	n home.	
b) lower numbers of service users are opting to take a Direct Cash Payment.		
The department has established a wide ranging demand management project and this is curren		•
analysis of home care data to establish whether any internal changes in practice have led to the	U 1	

to what extent this has been as a result of external influences. The project is also reviewing existing savings activity to ensure these are on track to meet the MTFS targets. There is some offsetting from ASC Discharge income £700k.

Residential Care and Nursing

The projected overspend is mainly due to increases in the average weekly cost per residential placement over and above the planned inflationary increases to the banded rates. This is a continuation of the pressure experienced in 2022/23 which led to an overspend. There are an average 2,390 service users with an average weekly rate of £1,017.

The main driver of the increases are:

1.Where the authority has agreed funding above the banded rates to ensure that the service is provided with a suitable care placement (known as Local Authority Agreed Funding-LAAF) estimated to be a net £7.2m.The forecast cost of LAAFs in 2023/24 (based on current volumes and values of LAAFs) is £15.0m. This compares to the 2022/23 cost of LAAFs of £12.6m, and the 2021/22 cost of LAAFs of £10.0m. The forecast 2023/24 cost is a 50% increase on the 2021/22 costs. This increase in the costs of LAAFs is a combination of both an increase in the volume and value of LAAFs. The volume of LAAFs has increased from 742 service users per week having a LAAF in 2021/22 to 984 in 2023/24. The value of LAAFs has increased from an average of £258 per service user per week in 2021/22 to £294 in 2023/24. The increase in LAAFs (both volume and value) is predominantly in the older adults area.

2. An increase in the residential banded rate and the implementation of a nursing rate in October, estimated to be $\pounds 2.1m$. These increases are funded through the Market Sustainability and Improvement Fund (part 1) grant, which is included on a separate line below.

This overspend is offset by additional service user income of £2.6m which is mainly due backdated arrears from working through a backlog of financial assessments. The department is also investigating the allocation of the latest tranche of Market Sustainability and Improvement Fund (part 2) to reduce this overspend by £3.6m (identified on a separate line below).

Supported Living Commissioned Services

935

500

430

5%

4,535

The forecast assumes a projected increase of 30 service users over the course of the financial year from 470 to 500. Last year the increase was larger at around 51 service users. Average placement costs have risen since April and currently stand at £1,525 per week per service user (+3%). The majority of the increase in service users are from those service users either transitioning from Children's Social Care, living at home with their parents or moving from a Hospital/Residential setting into Supported Living. They represent new growth in numbers rather than a movement of existing service users from Residential Care, which was the primary driver under the TOM Programme. The Dynamic Purchasing System used by Supported Living commissioners is increasing the supply of additional Supported Living schemes facilitating the increase in the number of placements that can be made. The forecast overspend has increased from Period 4, however much of this is met by additional Health income relating to these higher cost service users, which has increased and is listed on the Community Income line.

Better Care Fund (Balance) / Other NHS Income

A shortfall in Discharge to Assess (D2A) recharge income of £3.2m. Offset by additional BCF and Discharge Grant income of £1.7m.

Community Life Choices (CLC) Commissioned Services

Overspend with the transition of service users from inhouse CLC services to the independent sector. This overspend should be viewed alongside the underspend within CLC/Day Services within Direct Services as internal bases are closed and staff action plans are conducted. A virement will take place for 2024/25 to increase this budget. The forecast includes the assumption of the remaining bases closing and the transfer of the remaining service users to the independent sector.

Other Support

Other social care support includes £150k for kennel costs and £330k for floating support contract for mental health.

Care Pathway - Mental Health and Safeguarding

Overspend predominantly caused by the Liberty Protection Safeguards and the contracted out Best Interest Assessor and Paid Person Representative spend, even after a £350k contribution from reserves. A more sustainable funding position is required for this service, as reserve funding has been used for multiple years.

Adult Learning180n/aOverspend due to Children and Families Services (CFS) planning to 'Cease to Maintain' a number of Educational
Health Care Plans (EHCPs). As a result the Transitions Learning Programme is likely to have fewer High Needs
learners in the next academic year resulting in reduced income. The service is unable to reduce staffing or close
the service until the legal process has been completed by CFS.Market Sustainability and Improvement Fund (MSIF) - Tranche 2-3,670

This is the MSIF second tranche for 2023/24. It can be used to offset eligible spend that was already planned.

	· · · · · ·	
Market Sustainability and Improvement Fund (MSIF) - Tranche 1	-3,520	n/a
This relates to the MSIF first tranche for 2023/24. This is offsetting increases in Residentia reducing waiting times and staff retention in the care sector. This offsets some of the additi commissioned services.		e fees,

Chief Executive's

The Department is forecasting a net underspend of $\pounds 0.1m$ (0.5%). The main variances are:

	£000	% of Budget
Coroner's Service	400	33%
Forecast based on activity to date. This overspend is a combination of an increase in both the r complexity of post mortems exacerbated by the 2021/22 increase in UHL prices. The lack of detailed information from partners, who provide the coronial services for North and Leicestershire, is making forecasting difficult.		
Departmental Items	115	n/a
Departmental-wide saving for staffing vacancy held in this budget. Overspend offset by undersp the department.	ends elsev	vhere in
Legal Services	85	2%
The variance is due to vacant posts, which are proving difficult to recruit to, being filled by Locu expensive.	ms which is	s more

Trading Standards	50	3%
£50k overspend on statutory Food Compliance activities.	•	
Registrars	-375	n/a
Wedding fee income continues to be higher than budgeted and this trend is expected to continue of the financial year.	ue for the rem	ainder
Democratic Services and Administration	-85	-6%
Underspend due to staffing vacancies.	•	
Growth Service	-65	-10%
Underspend due to staffing vacancies.	•	
Other variances	-195	n/a
TOTAL	-70	n/a

Corporate Resources

The Department has a net forecast overspend of $\pounds 0.3m$ (0.7%). The main variances are:

	£000	% of Budget
Commercial Services (Commercialism - catering and professional services, Country Parks and LTS Property)	605	45%
Pressure in Commercial Services is on-going; this includes recovery from the pandemic but als pressures through the increase in national living wage and general inflationary pressures. The workers pay offer places significant pressure on commercialism, especially services employing grades e.g. catering. It is likely that those pressures will persist into 2024/25.	local gover	nment
Customer Service Centre (CSC)	50	3%
Savings of £0.1m were included in this year's MTFS related to additional attrition experienced la are unlikely to be fully achieved now as attrition is running lower than budgeted levels, which all impact on the budget has a positive impact on service and staff. The CSC has transferred the A CSC back to A&C.	hough an a	dverse
