Revenue Budget 2024/25 - forecast main variances (Period 6)

Children and Family Services

Dedicated Schools Grant

A net overspend of £19.6m is forecast. The main variances are:

	£000	% of Budget
DSG High Needs Block (HNB) earmarked reserve drawdown	17,025	Budget n/a
The DSG budget in the original MTFS includes an estimated HNB drawdown of £17.0m as the		n year
overspend.		-
Special Educational Needs	5,040	4.0%
Higher than budgeted numbers of High Needs students in both independent schools and main	nstream sc	hools is
resulting in a forecast overspend for the year. This is partially offset by vacant places at ASD	(autistic sp	ectrum
disorder) and SEMH (social emotional and mental health) units.		
Secondary Education Inclusion Partnerships	480	15%
Secondary Education Inclusion Partnerships are supporting a growing number of secondary s	tudents.	
Specialist Teaching Service	350	15%
The STS Service is a fully HNB funded service, with a fixed budget envelope, and does not represent to pay awards. It also has a built-in annual savings target which is usually achieved	through in	-year
vacancy savings. This year due to the significant, unfunded pay award, this target is forecast	not to be n	net.
High Needs Dedicated Schools Grant	205	n/a
The budget includes estimated 24/25 High Needs Grant of £108.456m as published by the Df		
2023. This has been updated in July 2024 and includes a reduction in grant value of £207k d students placed in provisions outside of Leicestershire as at Spring census date than the sam previous year.		
Early Years /Nursery Education Funding	-2,740	-4%
used to calculate the original 2024/25 Early Years DSG income in December 2023. The forec providers for 2024/25 are £11.8m more than the budget. £1.2m of this is due to there being 38 financial year April to March, a period covering two academic years. The funding is based on a expected that this will balance out in a future year. Payment forecast is also expected to increate to an increased number of children compared to the budget. This is due to a higher number or working parents than originally forecasted by the DFE and a higher number of under 2s now b DFE.	9 paid wee 38 weeks. ase by £10 f 2-year-old being foreca us and the	ks in the It is 0.6m due Is with asted by Spring
2023 census. There will be additional DSG income to fund the increase of 2-year-olds with we the additional forecast for under 2-year-olds. The estimated increase to DSG Grant is £5.2m f with working parents, £555k for Spring 2024 census, £6.9m for under 2's and £370k relation t adjustment which we are receiving this year. This gives a total increase of £13.0m for the DSC There is also a planned underspend of £1.1m as part of the payback of previous years' Early centrally managed budgets are forecast to underspend by £0.4m. The Early Years DSG deficience 2024 was £3.1m. The plan is to clear this deficit over 4 years. The DfE will recalculate the 2022 DSG income to allow for the Summer and Autumn Censuses which will count the additional 2.	or the 2-ye o prior yea G Grant. Years defic it as at 31 I 24/25 Early	ar-olds r sits, and March Years
under 2s, entitled to funding as part of the Early Years expansion.	· · · · ·	
Schools Growth / Budget Allocations	-440	-16%
This funding has been earmarked to help meet the revenue costs associated with new school will be transferred to the DSG earmarked reserve to fund pupil growth in future years.	,	
Education - Medical Grounds	-115	-21%
This is due to vacant posts in year.		
Other variances	-175	n/a

Local Authority Budget

The Local authority budget is forecast to overspend by £8.9m (7.4%). The main variances are:

Children's Social Care Placements Change in demand/numbers in relation to children in residential provision, in comparison to bu assumptions is showing a projected significant overspend position for this financial year. The financial year assumes budgeted residential numbers by March 25 to be at 86 children (includ Child placements). Trend and demand analysis at the time of budget setting looking back from would suggest budgeted assumption of net demand of residential numbers growing to 86 by N reasonable and reflective of data-driven demand analysis. However, between the period of Ja residential numbers increased rapidly, and the financial impact of this change is significant. Cu based on child trajectory plans, plus new demand suggest could end financial year with 108 cl residential or Parent and Child Placements. This represents a 26% increase in projected place budgeted position. The projected overspend has reduced since last reporting period due to th stepping down of the highest cost placement this financial year (£20k plus per week). Unaccompanied Asylum Seeking Children (UASC)	MTFS for t des Parent n April 21 te March 25 to	and
assumptions is showing a projected significant overspend position for this financial year. The financial year assumes budgeted residential numbers by March 25 to be at 86 children (includ Child placements). Trend and demand analysis at the time of budget setting looking back from would suggest budgeted assumption of net demand of residential numbers growing to 86 by N reasonable and reflective of data-driven demand analysis. However, between the period of Jaresidential numbers increased rapidly, and the financial impact of this change is significant. Consider the period of placements on child trajectory plans, plus new demand suggest could end financial year with 108 chased on child trajectory plans, plus new demand suggest a 26% increase in projected place budgeted position.
