

Guidance for completing Expenditure sheet

How do we calcute the ASC spend figure from the NHS minimum contribution total?

Schemes tagged with the following will count towards the planned Adult Social Care services spend from the NHS minimum:

- Area of spend selected as 'Social Care' and Source of funding selected as 'NHS Minimum Contribution'

The requirement to identify which primary objective scheme types are supporting is intended to provide richer information about the services that the BCF supports. Please select [from the drop-down list] the primary policy objective which the scheme supports. If more than one policy objective is supported, please select the most relevant. Please note The Local Authority Better Care Grant was previously referred to as the iBCF.

On the expenditure sheet, please enter the following information:

1. Scheme ID:
- Please enter an ID to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.

2. Activity:
- Please select the Activity from the drop-down list that best represents the type of scheme being planned. These have been revised from last year to try and simplify the number of categories. Please see the table below for more details.

3. Description of Scheme:
- This is a free text field to include a brief headline description of the scheme being planned. The information in this field assists assurers in understanding how funding in the local BCF plan is supporting the objectives of the fund nationally and aims in your local plan.

4. Primary Objective:
- Sets out what the main objective of the scheme type will be. These reflect the six sub objectives of the two overall BCF objectives for 2025-26. We recognise that scheme may have more than one objective. If so, please choose one which you consider if likely to be most important.

5. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social care system which is most supported by investing in the scheme.

6. Provider:
- Please select the type of provider commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

7. Source of Funding:
- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop down list. This includes additional, voluntarily pooled contributions from either the NHS or Local authority
- If a scheme is funded from multiple sources of funding, please split the scheme across multiple lines, reflecting the financial contribution from each.

8. Expenditure (£)2025-26:
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)

9. Comments:
Any further information that may help the reader of the plan. You should estimate the overall spend on the activity type in question across the system (both local authority and ICB commissioned where both organisations commission this type of service). Where the total spend in the system is not clear, you should include an estimate. The figure will not be subject to assurance.

2025-26 Revised Scheme Types

Number	Activity (2025-26)	Previous scheme types (2023-25)	Description
1	Assistive technologies and equipment	Assistive technologies and equipment Prevention/early intervention	Using technology in care processes to supportive self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Community based equipment, Digital participation services).
2	Housing related schemes	Housing related schemes Prevention/early intervention	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.
3	DFG related schemes	DFG related schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes. The grant can also be used to fund discretionary, capital spend to support people to remain independent in their own homes under a Regulatory Reform Order, if a published policy on doing so is in place.
4	Wider support to promote prevention and independence	Prevention/early intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and wellbeing
5	Home-based intermediate care (short-term home-based rehabilitation, reablement and recovery services)	Home-based intermediate care services Home care or domiciliary care Personalised care at home Community based schemes	Includes schemes which provide support in your own home to improve your confidence and ability to live as independently as possible Also includes a range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services

6	Short-term home-based social care (excluding rehabilitation, reablement and recovery services)	Personalised care at home	Short-term schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period.
7	Long-term home-based social care services	Personalised care at home	Long-term schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient or to deliver support over the longer term to maintain independence.
8	Long-term home-based community health services	Community based schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering collaborative services in the community typically at a neighbourhood/PCN level (eg: Integrated Neighbourhood Teams) Reablement services should be recorded under the specific scheme type 'Reablement in a person's own home'
9	Bed-based intermediate care (short-term bed-based rehabilitation, reablement or recovery)	Bed-based intermediate care services (reablement, rehabilitation in a bedded setting, wider short-term services supporting recovery)	Short-term intervention to preserve the independence of people who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of professional groups.
10	Long-term residential or nursing home care	Residential placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.
11	Discharge support and infrastructure	High Impact Change Model for Managing Transfer of Care	Services and activity to enable discharge. Examples include multi-disciplinary/multi-agency discharge functions or Home First/ Discharge to Assess process support/ core costs.
12	End of life care	Personalised care at home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home for end of life care.
13	Support to carers, including unpaid carers	Carers services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. This might include respite care/carers breaks, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence.
14	Evaluation and enabling integration	Care Act implementation and related duties Enablers for integration High Impact Change Model for Managing Transfer of Care Integrated care planning and navigation Workforce recruitment and retention	Schemes that evaluate, build and develop the enabling foundations of health, social care and housing integration, encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Schemes may include: - Care Act implementation and related duties - High Impact Change Model for Managing Transfer of Care - where services are not described as "discharge support and infrastructure" - Enablers for integration, including schemes that build and develop the enabling foundations of health, social care and housing integration, and joint commissioning infrastructure. - Integrated care planning and navigation, including supporting people to find their way to appropriate services and to navigate through the complex health and social care systems; may be online or face-to-face. Includes approaches such as Anticipatory Care. Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of care needs and develop integrated plans, typically carried out by professionals as part of an MDT. - Workforce recruitment and retention, where funding is used for incentives or activity to recruit and retain staff or incentivise staff to increase the number of hours they work.
15	Urgent Community Response	Urgent Community Response	Urgent community response teams provide urgent care to people in their homes which helps to avoid hospital admissions and enable people to live independently for longer. Through these teams, older people and adults with complex health needs who urgently need care, can get fast access to a range of health and social care professionals within two hours.
16	Personalised budgeting and commissioning	Personalised budgeting and commissioning	Various person centred approaches to commissioning and budgeting, including direct payments.
17	Other	Other	This should only be selected where the scheme is not adequately represented by the above scheme types.
