

Better Care Fund 2025-26 Q2 Reporting Template		0		
1. Guidance				
Overview <p>The Better Care Fund (BCF) reporting requirements are set out in the BCF Planning Requirements for 2025-26 (refer to link below), which supports the aims of the BCF Policy Framework and the BCF programme; jointly led and developed by the national partners Department of Health and Social Care (DHSC), Ministry for Housing, Communities and Local Government (MHCLG), NHS England (NHSE).</p> <p>https://www.england.nhs.uk/long-read/better-care-fund-planning-requirements-2025-26/#introduction</p> <p>https://www.gov.uk/government/publications/better-care-fund-policy-framework-2025-to-2026/better-care-fund-policy-framework-2025-to-2026</p>				
<p>As outlined within the planning requirements, quarterly BCF reporting will continue in 2025-26, with areas required to set out progress on delivering their plans by reviewing metrics performance against goals, spend to date as well as any significant changes to planned spend.</p> <p>The primary purpose of BCF reporting is to ensure a clear and accurate account of continued compliance with the key requirements and conditions of the fund. The secondary purpose is to inform policy making, the national support offer and local practice sharing by providing a fuller insight from narrative feedback on local progress, challenges and highlights on the implementation of BCF plans and progress on wider integration.</p> <p>BCF reporting is likely to be used by local areas, alongside any other information to help inform HWBs on progress on integration and the BCF. It is also intended to inform BCF national partners as well as those responsible for delivering the BCF plans at a local level (including ICBs, local authorities and service providers) for the purposes noted above.</p> <p>In addition to reporting, BCMs and the wider BCF team will monitor continued compliance against the national conditions and metric ambitions through their wider interactions with local areas.</p> <p>BCF reports submitted by local areas are required to be signed off HWB chairs ahead of submission. Aggregated data reporting information will be available on the DHSC BCF Metrics Dashboard and published on the NHS England website.</p>				
<p>Note on entering information into this template</p> <p>Please do not copy and paste into the template</p> <p>Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a blue background, as below:</p> <table border="1"> <tr> <td>Data needs inputting in the cell</td> <td>Pre-populated cells/Not required</td> </tr> </table> <p>Note on viewing the sheets optimally</p> <p>To more optimally view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance tab for readability if required.</p> <p>The row heights and column widths can be adjusted to fit and view text more comfortably for the cells that require narrative information.</p> <p>Please DO NOT directly copy/cut and paste to populate the fields when completing the template as this can cause issues during the aggregation process. If you must 'copy and paste', please use the 'Paste Special' operation and paste Values only.</p> <p>The details of each sheet within the template are outlined below.</p>			Data needs inputting in the cell	Pre-populated cells/Not required
Data needs inputting in the cell	Pre-populated cells/Not required			
<p>Checklist (2. Cover)</p> <ol style="list-style-type: none"> 1. This section helps identify the sheets that have not been completed. All fields that appear as incomplete should be complete before sending to the BCF Team. 2. The checker column, which can be found on the individual sheets, updates automatically as questions are completed. It will appear 'Red' and contain the word 'No' if the information has not been completed. Once completed the checker column will change to 'Green' and contain the word 'Yes'. 3. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'. 4. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Template Complete'. 5. Please ensure that all boxes on the checklist are green before submission. <p>2. Cover</p> <ol style="list-style-type: none"> 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off. Once you select your HWB from the drop down list, relevant data on metric goals from your BCF plans for 2025-26 will pre-populate in the relevant worksheets. 2. HWB Chair sign off will be subject to your own governance arrangements which may include a delegated authority. 3. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to: england.bettercarefundteam@nhs.net (please also copy in your respective Better Care Manager) 4. Please note that in line with fair processing of personal data we request email addresses for individuals completing the reporting template in order to communicate with and resolve any issues arising during the reporting cycle. We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed. <p>3. National Conditions</p> <p>This section requires the Health & Wellbeing Board to confirm whether the four national conditions detailed in the Better Care Fund planning requirements for 2025-26 (link below) continue to be met through the delivery of your plan. Please confirm as at the time of completion.</p> <p>https://www.england.nhs.uk/long-read/better-care-fund-planning-requirements-2025-26/</p> <p>This sheet sets out the four conditions and requires the Health & Wellbeing Board to confirm 'Yes' or 'No' that these continue to be met. Should 'No' be selected, please provide an explanation as to why the condition was not met for the year and how this is being addressed. Please note that where a National Condition is not being met, an outline of the challenge and mitigating actions to support recovery should be outlined. It is recommended that the HWB also discussed this with their Regional Better Care Manager.</p> <p>In summary, the four National conditions are as below:</p> <ul style="list-style-type: none"> National condition 1: Plans to be jointly agreed National condition 2: Implementing the objectives of the BCF National condition 3: Complying with grant and funding conditions, including maintaining the NHS minimum contribution to adult social care (ASC) (and section 75 in place) National condition 4: Complying with oversight and support processes 				
<p>4. Metrics</p>				

The BCF plan includes the following metrics (these are not cumulate/YTD):

1. Emergency admissions to hospital for people aged 65+ per 100,000 population. (monthly)
2. Average number of days from Discharge Ready Date to discharge (all adult acute patients). (monthly)
3. Admissions to long term residential and nursing care for people aged 65+ per 100,000 population. (quarterly)

Plans for these metrics were agreed as part of the BCF planning process outlined within 25/26 planning submissions.
Populations are based on 2023 mid year estimates

Within each section, you should set out how the ambition has been reached, including analysis of historic data, impact of planned efforts and how the target aligns for locally agreed plans such as Acute trusts and social care.

The bottom section for each metric also captures a confidence assessment on achieving the locally set ambitions for each of the BCF metrics. The metrics worksheet seeks a short explanation if a goal has not been met - in which case please provide a short explanation, including noting any key mitigating actions. You can also use this section to provide a very brief explanation of overall progress if you wish.

In making the confidence assessment on progress, please utilise the available metric data via the published sources or the DHSC metric dashboard along with any available proxy data.

5. Expenditure

This section requires confirmation of an update to actual income received in 2025-26 across each fund, as well as spend to date at Q2. If planned expenditure by activity has changed since the original plan, please confirm that this has been agreed by local partners. If that change in activity expenditure is greater than 5% of total BCF expenditure, please use this box to provide a brief summary of the change.

On the 'DFG' row in the 'Source of Funding' table, 'Updated Total Planned Income for 25-26' this should include the total funding from DFG allocations that is available for you to spend on DFG in this financial year 2025-26. 'Q2 Year-to-Date Actual Expenditure' should include total amount that has been spent in Q2, even if the application or approval for the DFG started in a previous quarter or there has been slippage.

The template will automatically pre-populate the planned income in 2025-26 from BCF plans, including additional contributions. Please enter the update amount of income even if it is the same as in the submitted plan.

Please also use this section to provide the aggregate year-to-date spend at Q2. This tab will also display what percentage of planned income this constitutes; [if this is 50% exactly then please provide some context around how accurate this figure is or whether there are limitations.]

DRAFT
