Improvements required following self-assessment against CIPFA Code of Practice for the Governance of IA in LG	Complete actions by end of May 2026	Compliance with identified actions		Report conformance to Code to October 2026 Subcommittee

Internal Audit Maturity Analysis Framework Levels

¹ Level 3 - Implemented: At the Implemented level, internal audit policies, procedures, and approaches are formally defined, documented, and integrated with one another. The function consistently adheres to professional standards, such as the GIAS. Technology and data analytics are embedded into the audit lifecycle, enabling more efficient and effective assurance.

² Level 4 - Managed: As the function reaches the Managed level, it becomes an integral component of the organisation's governance and risk management framework. Audit plans are dynamic and responsive to changing business needs. Continuous monitoring and data-driven insights enable proactive risk identification. The function is seen as a trusted advisor, delivering value beyond basic assurance.

³ Level 4 - Optimised: At the pinnacle of maturity, the internal audit function is fully aligned with the organisation's purpose and strategic objectives. It focuses on continuous learning and improvement, leveraging advanced analytics and innovative techniques to deliver predictive insights. The function is adaptive and consistently delivers measurable value to the organisation.
