RULE 8. Planned Procurement Notices

- 8.1 The Council may consider whether to publish a Planned Procurement Notice to provide suppliers with advance notice of an upcoming Competitive Tendering Procedure.
- 8.2 A Planned Procurement Notice is intended to give as much advance information to the market as possible to allow interested suppliers to appropriately plan for future opportunities.

RULE 9. Preliminary Market Engagement

- 9.1 Before commencing a Competitive Tendering Procedure, the Council may engage with suppliers and other persons for the purposes of:
 - 9.1.1 developing the Council's requirements and approach to the procurement.
 - 9.1.2 designing a procedure, conditions of participation or award criteria.
 - 9.1.3 preparing the tender notice and associated tender documents.
 - 9.1.4 identifying suppliers that may be able to supply the goods, services or works required.
 - 9.1.5 identifying likely contractual terms.
 - 9.1.6 building capacity among suppliers in relation to the contract being awarded.

Such engagement will be considered "Preliminary Market Engagement." When conducting Preliminary Market Engagement the Commissioning Support Unit must be consulted.

- 9.2 When carrying out Preliminary Market Engagement the Council must take steps to ensure that:
 - a) suppliers participating in the Preliminary Market Engagement are not put at an unfair advantage; and

Part 4G Contract Procedure Rules

- b) competition in relation to the award of the public contract is not otherwise distorted.

9.3 If the Council considers that:

- a) a supplier's participation in Preliminary Market Engagement has put the supplier at an unfair advantage in relation to the award of a public contract; and
- b) the advantage cannot be avoided.

that supplier must be treated as an Excluded Supplier for the purposes of (i) assessing tenders under section 19 of the Procurement Act; or (ii) awarding a contract under Section 41 or 43 of the Procurement Act and excluded from participating in, or progressing as part of, any Competitive Tendering Procedure.

Preliminary Market Engagement Notice

9.4 In carrying out Preliminary Market Engagement the Council must either:

- 9.4.1 publish a Preliminary Market Engagement notice before publishing a Tender Notice; or
- 9.4.2 provide reasons for not publishing a Preliminary Market Engagement notice in the Tender Notice.
- 9.4.3 preliminary market engagement could include (but not limited to) requests for information, supplier questionnaires and surveys, to understand their capabilities and any potential barriers to procurement; and meet-the-buyer events etc.

PRELIMINARY PROCUREMENT CONSIDERATIONS/PLANNING STAGE

RULE 10. *Calculating the Estimated Value of Contracts*

- 10.1 Before any procurement process is begun the Procuring Officer must calculate the Estimated Value of a Contract in accordance with Section 4 and Schedule 3 of the Procurement Act. Determining an Estimated Value for a contract enables the Council to determine whether the proposed procurement will be above or below the relevant threshold and in turn determine which procedures should be followed.
- 10.2 The Estimated Value for the Procurement must not be artificially subdivided to circumvent the application of these Rules or the Procurement Act.
- 10.3 The Estimated Value of Contracts must be calculated in accordance with paragraph 1 of Schedule 3 to the Procurement Act.
- 10.4 Rules 10.5–10.7 (below) covers Contracts for goods, services, works and Utilities Contracts.
- 10.5 The Estimated Value shall be calculated as the maximum amount the Council could expect to pay under the Contract, including where applicable, amounts already paid. The Estimated Value shall be inclusive of VAT.
- 10.6 The estimated amount the Council could expect to pay includes (but is not limited to) the following:
 - 10.6.1 the value of any goods, services or works provided by the Council under the Contract other than for payment; for example, if the Council is giving something to the contractor as part of the agreement (materials, equipment, staff time etc), this needs to be factored into the estimated contract value.
 - 10.6.2 amounts that would be payable if all options in the Contract to supply additional goods, services or works were exercised.

Part 4G Contract Procedure Rules

- 10.6.3 amounts that would be payable if all options in the Contract to extend or renew the term of the Contract were exercised.
 - 10.6.4 amounts representing premiums, fees, commissions, inflationary uplifts, gain shares or interest that could be payable under the Contract; and
 - 10.6.5 amounts representing prizes or payments that could be payable to participants in the procurement.
- 10.7 In calculating the Estimated Value, the Council must consider all the facts material to the estimate and available to the Council at the time it makes the estimate.

Estimating for Framework Contracts

- 10.8 The Council must estimate the value of a Framework as the sum of the Estimated Values of all the Contracts that are or may be awarded in accordance with the Framework during its entire term.
- 10.9 For open frameworks the Council must estimate the total value as the combined value of all individual frameworks awarded under the scheme, including future anticipated re openings of the framework.

Estimating for Concession Contracts

- 10.10 The Estimated Value of Concession Contracts is to be calculated in accordance with paragraph 3 of Schedule 3 to the Procurement Act.
- 10.11 The Council must calculate the Estimated Value of a Concession Contract as the maximum amount the supplier could expect to receive under or in connection with the Contract including, where applicable, amounts already received.
- 10.12 The amount a supplier could expect to receive includes (but is not limited to) the following:
 - a) amounts representing revenue (whether monetary or non-monetary) receivable pursuant to the exploitation of the works or services to which the contract relates (whether from the Council or otherwise).
 - b) the value of any goods, services or works provided by the council under the contract other than for payment amounts that would be receivable if an option in the contract to supply additional services or works were exercised.
 - c) amounts that would be receivable if an option in the contract to extend or renew the term of the contract were exercised.
 - d) amounts representing premiums, fees, commissions, or interest that could be receivable under the contract.
 - e) amounts received on the sale of assets held by the supplier under the contract.

Estimating for Mixed Procurement Contracts

- 10.13 Where a Contract comprises of a mixture of services, works or goods, consideration will need to be given to Section 5 of the Procurement Act as to the classification of that Contract and advice sought from the CSU as appropriate.

Estimating for Mixed Category Contracts

Part 4G Contract Procedure Rules

- 10.14 Where a Contract involves different categories or types of Contracts, e.g, Concession Contracts, Light Touch Contracts etc. the classification of that Contract will need to be considered in accordance with Section 10 of the Procurement Act and advice sought from the CSU as appropriate.

Anti-avoidance of estimating

- 10.15 The Council must calculate the Estimated Value of each of the Contracts in accordance with paragraph 4 of Schedule 3 to the Procurement Act as including the value of all of the Contracts unless it has a good reason for not doing so. This would apply where:

10.15.1 the Council calculates the Estimated Value of two or more Contracts; and

10.15.2 the goods, services or works to be supplied under the Contracts could reasonably be supplied under a single Contract.

Inability to calculate the Estimated Value of a Contract

- 10.16 Where it is not possible to calculate the Estimated Value of a Contract (in accordance with this Rule), e.g., where the duration of a Contract is unknown, that Contract is to be treated as exceeding the Threshold amount for that type of Contract.
- 10.17 Where the Estimated Value (calculated in accordance with this Rule) is £6,000 including VAT (£5,000 excluding VAT) or more the Procuring Officer must notify in writing, via completion of a PID, the appropriate Commercial Specialist of the Estimated Value before proceeding. A written record of that Estimated Value must then be kept on file by the Procuring Officer.

Additional Requirements

- 11.2 Details of oral Quotations must be confirmed in writing.
- 11.3 All procurements proposed over £6,000 including VAT (£5,000 excluding VAT) must be approved before any procurement activity, by the CSU through use of the PID.
- 11.4 All procurements regardless of value must have an approved Purchase Order in place before commencement of work.
- 11.5 The CSU shall advise the Procuring Officer on the appropriate route to market which may include the use of Frameworks or a Corporate Contract prior to the procurement process beginning.
- 11.6 When the Corporate Contract is a Framework, the Procuring Officer must comply with Rule 19 after consulting with a relevant Commercial Specialist on the suitability of the Framework intended for use.

RULE 12. Consideration of Lots

- 12.1 Before commencing a procurement process the Council must consider whether the goods, works or services could reasonably be supplied under more than one Contract to benefit Small to Medium sized Enterprises (SMEs) and reduce risk and if those Contracts could appropriately be awarded by reference to lots.
- 12.2 The Act makes provision in relation to lots at Section 18 (Duty to consider lots), Section 20 (Competitive tendering procedures) and Section 23 (Award criteria).

Part 4G Contract Procedure Rules

- 12.3 The Procuring Officer must provide reasons within the Procurement Initiation Document (PID) for not splitting a procurement into lots for all contracts other than light touch contracts, the reasons must also be provided in the Tender Notice.

REGULATED BELOW THRESHOLD CONTRACTS**RULE 13. *Regulated Below Threshold Contract Requirements***

(over £30,000 including VAT/ £25,000 excluding VAT but below Threshold).

General

- 13.1 A Regulated Below Threshold Contract is a Contract which does not meet the relevant Procurement Threshold as defined by the Procurement Act.
- 13.2 The Council must conduct procurements for Regulated Below Threshold Contracts in accordance with Part 6 of the Procurement Act. The duties to have regard to National Procurement Policy Statements and the duty not to discriminate against a treaty supplier will also apply to Regulated Below Threshold Procurements.

Suitability Assessment

- 13.3 Where the Council invites the submission of quotations in relation to the award of a Regulated Below Threshold Contract, the Council must ensure that the assessment of the suppliers' suitability to perform the Contract doesn't restrict their ability to submit a quotation. A separate suitability stage before the submission of bids cannot be used to reduce the number of suppliers invited to bid, but this does not prevent the council from asking for this information in a bid and then assessing supplier suitability at award stage.
- 13.4 There is an exception to Rule 13.3 (above) detailed at section 85 of the Procurement Act to the rule prohibiting a separate suitability stage in relation to a below-threshold works contract if the contract:
- 13.4.1 has an estimated value of not less than £207,720 including VAT (£173,100 excluding VAT). This is the same as the thresholds for goods and services. This exception is because the works threshold is much higher, and it is appropriate that contracting authorities carrying out procurements for higher value below-threshold works contracts that are still above the goods and services thresholds, can include a separate suitability stage before the award stage, if desired or;
- 13.4.2 is awarded in accordance with a Framework.
- 13.5 Based on criteria laid down by the Executive, the Chief Finance Officer will be responsible for evaluating the financial status of Tenderers and suppliers. The Chief Finance Officer is responsible for setting the criteria for evaluating the financial status of Tenderers and Suppliers which Officers will use.

Notices

- 13.6 The Council must publish a Regulated Below Threshold Tender Notice on the Central Digital Platform if advertising for the purpose of inviting Tenders for Below Threshold Contracts where the Estimated Value of the Contract is no less than £30,000 including VAT (£25,000 excluding VAT).
- 13.7 The requirement set out in Rule 13.6 (above) does not apply where the Council invites Quotes or Tenders from a closed group of pre-selected suppliers, i.e. via a Framework or from one or more targeted suppliers provided it does not advertise the procurement in any other way.

Part 4G Contract Procedure Rules

- 13.8 The Below Threshold Tender Notice must be published on the Central Digital Platform before being published elsewhere via the Councils Electronic Tendering System.
- 13.9 Section 87(3) provides that as soon as reasonably practicable after entering into a notifiable below-threshold contract, a Contract Details Notice must be published on the Central Digital Platform via the Councils Electronic Tendering System. This applies to all notifiable below-threshold contracts, and not just those which require the publication of a below-threshold tender notice.
- 13.10 If a contracts estimated value is below £30,000 including VAT (£25,000 excluding VAT), there is no obligation to publish any notices on the Central Digital Platform.

PUBLIC CONTRACTS**RULE 14. *Competitive Tendering Procedures***

- 14.1 The Council may wish to engage with suppliers prior to commencing any Competitive Tendering Procedure in accordance with Rule 9.
- 14.2 All Public Contracts, including Concession Contracts, Light Touch Contracts and Utilities Contracts the value of which is above a Relevant Procurement Threshold must be procured by a Competitive Tendering Procedure using either:
- a) Open Procedure; or
 - b) Competitive Flexible Procedure.
- as described in more detail in Section 20 of the Procurement Act.
- 14.3 The Council is not required to use the above mentioned Competitive Tendering Procedures for a Public Contract as set out below:
- a) *Direct award* – where justified under Sections 41 or 43 of the Procurement Act; or
 - b) *Call Off Contract* - when awarding a Public Contract under a Framework as set out in Section 45 of the Procurement Act.
 - c) *Provider Selection Regime* – where the applicable procurement must be carried out under the Provider Selection Regime.

RULE 15. *Conditions of Participation*

- 15.1 The Council may set conditions of participation to perform the Contract under a Competitive Tendering Procedure, in accordance with Section 22 of the Procurement Act which relate to:
- a) legal and financial capacity; or
 - b) technical ability to perform the Public Contract
- 15.2 Based on criteria laid down by the Executive, the Chief Finance Officer will be responsible for evaluating the financial status of Tenderers and suppliers. The Chief Finance Officer is responsible for setting the criteria for evaluating the financial status of Tenderers and Suppliers which Officers will use.
- 15.3 Conditions of participation must be a proportionate means of ensuring the relevant capacity or ability, having regard to the nature, complexity and cost of the Public Contract.

Part 4G Contract Procedure Rules

- 15.4 A supplier must meet the conditions of participation in order to be awarded the Public Contract.
- 15.5 Further details on the rules relating to conditions of participation are set out in Section 22 of the Procurement Act.

RULE 16. Award Criteria

- 16.1 In the case of a procurement process with an Estimated Value of £30,000 including VAT (£25,000 excluding VAT) or more the process for identifying the most advantageous Tender, including selection and award criteria, must be agreed in consultation with the appropriate Commercial Specialist and included in the Request for Quotation/Invitation to Tender and a copy retained on file.
- 16.2 The Procuring Officer must notify all Tenderers of the award methodology and evaluation criteria being used in the case of the Contract in question. If weightings are to be applied to the award criteria, then the Procuring Officer must ensure that these are also incorporated into the Request for Quotation/Invitation to Tender.

Procurement Act

- 16.3 A Public Contract may be awarded to a supplier that submits the most advantageous tender in a competitive tendering process which will be considered from the Council's point of view, which:
- a) satisfies its requirements; and
 - b) best satisfies the award criteria.
- 16.4 The Council will need to consider Section 23 of the Procurement Act in relation to setting award criteria for each competitive tendering process.
- 16.5 Award criteria for a Competitive Flexible Procedure may be refined in accordance with Section 24 of the Procurement Act and the Council must modify and republish or re-provide the Tender Notice and any associated documents affected by the refinements in accordance with Section 24(4) of the Procurement Act.

Health Care Services (Provider Selection Regime) Regulations 2023

- 16.6 The Council is required to follow one of the following provider selection processes in awarding contracts for health care services.
- a) *Direct award processes (A, B, and C)* – awarding contracts to providers when there is limited or no reason to seek to change from the existing provider; or to assess providers against one another, because:
 - (i) the existing provider is the only provider that can deliver the health care services direct award process A must be used,
 - (ii) patients have a choice of providers, and the number of providers is not restricted by the Council direct award process B must be used.
 - (iii) the existing provider is satisfying its existing contract, will likely satisfy the new contract to a sufficient standard, and the proposed contracting arrangements are not changing considerably direct award process C may be used.
 - b) *Most suitable provider process* – awarding a contract to providers without running a competitive process, because the Council can identify the most suitable provider.
 - c) *Competitive process* – running a competitive process to award a contract.

Part 4G Contract Procedure Rules

16.7 When procuring under these regulations, the five key criteria as stated within those regulations must all be evaluated. These are:

- Quality and innovation
- Value
- Integration, collaboration, and service sustainability
- Improving access, reducing health inequalities, and facilitating choice; and
- Social value

RULE 17. *Open Procedure*

17.1 Prior to commencing an Open Procedure, the Council may wish to engage with suppliers prior to commencing any Competitive Tendering Procedure in accordance with Rule 9.

17.2 The Open Procedure is a single stage procedure.

17.3 Under the Open Procedure, Procuring Officers must ensure access to Invitations to Tender is available to all suppliers (other than those who are excluded) who respond to the Tender Notice and who meet the requirements stated in the tender documents. Where the opportunity has been advertised via the electronic tendering system the Invitation to Tenders and all supporting documents must be made available in the system for all interested parties to access subject to confidentiality agreement where applicable.

RULE 18. *Competitive Flexible Procedure*

18.1 Prior to commencing a Competitive Flexible Procedure, the Council may wish to engage with suppliers prior to commencing any Competitive Tendering Procedure in accordance with Rule 9.

18.2 The Competitive Flexible Procedure is any other Competitive Tendering Procedure, i.e. multi-staged process that the Council considers appropriate for the purpose of awarding a Public Contract.

18.3 The Council is afforded flexibility as to how to design a Competitive Flexible Procedure but details on how the procedure will be carried out must be set out in the Tender Notice and tender documents. However, when using the Competitive Flexible Procedure, the Council must consider the procurement objectives, such as those relating to time limits and transparency.

18.4 The Competitive Flexible Procedure may allow the Council to reserve the Public Contract to supported employment providers and public service mutual in certain circumstances. See Sections 32 – 33 Procurement Act.

18.5 Before allowing a supplier to participate in a Competitive Flexible Procedure the Council must determine whether the supplier is excluded or excludable in accordance with Section 27 of the Procurement Act. Where an excluded or excludable supplier is identified there must be consultation with CSU before excluding.

Part 4G Contract Procedure Rules**RULE 19. Frameworks**

- 19.1 Frameworks can be established either under the Open Procedure or the Competitive Flexible Procedure.
- 19.2 Frameworks are governed by Chapter 4 of the Procurement Act.
- 19.3 Frameworks must not be awarded for more than four years unless:
- a) It is a utilities Framework;
 - b) It is an Open Framework (see below);
 - c) It is a Light Touch Framework;
 - d) It is considered that due to the nature of the goods, services or works to be supplied that a longer term is required.
- The justifications for awarding for more than four years in any of the above scenarios must be detailed and approved within the Procurement Initiation Document, authorisation must also be sought from the Chief Finance Officer
- 19.4 Call Off Contracts may be awarded following a competitive selection process in accordance with Section 45(3) of the Procurement Act
- 19.5 Alternatively, Call Off Contracts may be awarded without competition, with prior approval from Commercial Specialist, (in accordance with Section 45(4)) of the Procurement Act to suppliers:
- a) in circumstances where only one supplier is party to the Framework; or
 - b) where the Framework sets out:
 - (i) the core terms of the public contract; and
 - (ii) an objective mechanism for supplier selection.
- 19.6 Call Off Contracts are to be awarded in accordance with the terms of the Framework and are not subject to the Competitive Tendering Procedures.

Open Frameworks

- 19.7 An Open Framework is a scheme of Frameworks that provides for the award of successive Frameworks on substantially the same terms.
- 19.8 Open Frameworks must provide:
- a) for the re-opening of a Framework at least once during—
 - (i) the period of three years beginning with the day of the award of the first framework in the scheme, and
 - (ii) each period of five years beginning with the day of the award of the second framework in the scheme;
 - b) for the expiry of one framework on the award of the next;
 - c) for the final framework to expire at the end of the period of eight years beginning with the day on which the first framework under the scheme is awarded.
- 19.9 The rules governing Frameworks are set out in Section 45-49 of the Procurement Act.

Part 4G Contract Procedure Rules

- 19.10 Each Call Off Contract awarded under a Framework must be included on the Contracts Register within 30 days of award as per Rule 36.

RULE 20. *Dynamic Markets*

- 20.1 The Council may wish to establish arrangements (Dynamic Markets) for the purpose of awarding Public Contracts by reference to suppliers' participation in those arrangements which must remain open for new suppliers to join at any time.
- 20.2 The Open Procedure or direct award route cannot be used to award a Public Contract under a Dynamic Market
- 20.3 Dynamic Markets are not permitted for below threshold calls offs.
- 20.4 Procuring Officers must only establish Dynamic Markets with the prior written approval of a Senior Commercial Specialist and the Director of Corporate Resources and in accordance with the requirements of the Procurement Act and these Rules where appropriate.
- 20.5 Sections 34 – 40 of the Procurement Act sets out the rules relevant to Dynamic Markets.

RULE 21. *Direct Awards*

- 21.1 In limited circumstances, the Council may directly award a Public Contract to a supplier without conducting a Competitive Tendering Procedure or compliant Framework call off as more particularly described in Sections 41 – 44 of the Procurement Act and set out in Rule 21.4. This is classed as permitted Direct Awards.
- 21.2 If a Direct Award justification applies, the Council may award a Public Contract directly to a supplier that is not an excluded supplier. The Council may award a Contract to a supplier that is an excluded supplier if the Council considers that there is an overriding public interest in awarding the contract to that supplier.
- 21.3 When making a Direct Award, the Council may carry out a selection process or take other preliminary steps as it considers appropriate for the purpose of awarding a Direct Award Contract.
- 21.4 To be able to award a contract as a Direct Award the following conditions must be met:
- a) **Direct award to protect life** - the Minister of the Crown must consider it necessary in order to protect human, animal or plant life or health, or to protect public order or safety.
 - b) **Switching to direct award** – the Council can switch to awarding directly to a supplier that is not an excluded supplier if we have invited suppliers to submit tenders or request to participate in a competitive tendering procedure, and we have not received any suitable tenders or requests in response (although NB the Council must consider whether the supplier submitted an unsuitable tender or request); and considers that award under section 19 is not possible in the circumstances. A tender or request is not suitable if the Council considers that it would be disregarded in an assessment of tenders under section 19(3)(a) or (c); or it does not satisfy the Councils requirements or the award criteria when assessed by reference to the assessment methodology; or there is evidence of corruption or collusion between the suppliers or between suppliers and contracting authorities; or it materially breaches a procedural requirement in the tender notice (including in relation to the tender). A breach is material if ignoring it would put the tender at an unfair advantage.
 - c) **Production of a prototype, or supply of other novel goods or services** - for the purpose of testing the suitability of the goods or services, researching the viability of

Part 4G Contract Procedure Rules

producing or supplying the goods or services at scale and developing them for that purpose, or other research, experiment, study or development.

- d) **Single suppliers** - due to a particular supplier having intellectual property rights or other exclusive rights, only that supplier can supply the goods, services or works required, and there are no reasonable alternatives to those goods, services or works. Due to an absence of competition for technical reasons, only a particular supplier can supply the goods, services or works required, and there are no reasonable alternatives to those goods, services or works.
- e) **Additional or repeat goods, services or works** - a change in supplier would result in the Council receiving goods, services or works that are different from, or incompatible with, the existing goods, services or works, and the difference or incompatibility would result in disproportionate technical difficulties in operation or maintenance. The existing goods, services or works were supplied under a public contract that was awarded in accordance with a competitive tendering procedure within the period of five years ending with the day on which the transparency notice is published, and the tender notice or any tender document in respect of that earlier contract set out—
 - (i) the Councils intention to carry out a subsequent procurement of similar goods, services or works in reliance on this direct award justification, and any other information specified in regulations under section 95.
- f) **Commodities** - the public contract concerns goods purchased on a commodity market.
