

Better Care Fund (BCF) 2026-27 Numerical Template

1. Guidance

Overview

The numerical return is designed to capture planned BCF spend, goals and assurance statements. Together with the narrative return these will enable local areas to demonstrate how they meet the national funding conditions, in line with the published BCF 2026-27: <https://www.gov.uk/government/publications/better-care-fund-framework-2026-to-2027/better-care-fund-framework-2026-to-2027>.

Completed numerical returns are due by Tuesday 19 May 2026 (noon)

Submissions should be sent to the national BCF team at england.bettercarefundteam@nhs.net, as well as to regional Better Care Managers.

This guidance provides an overview of how to complete this numerical return. Further guidance is provided in the BCF Planning Principles guidance and supporting documents which can be found on the Better Care Exchange - <https://future.nhs.uk/bettercareexchange/view?objectID=70716560>

Functional use of the template

We are using the latest version of Excel in Office 365, an older version may cause an issue.

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a blue background, as below:

Data needs inputting in the cell
Pre-populated cells

This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

2. Cover

The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off. To view pre-populated data for your area and begin completing your template, you should select your HWB from the top of the sheet.

Governance and sign-off

National condition one (refer to tab 6) outlines the expectation for the local sign off of plans. Plans must be jointly agreed and be signed off in accordance with organisational governance processes across the relevant ICB and local authorities. Plans must be accompanied by signed confirmation from local authority and ICB chief executives that they have agreed to their BCF plans, including the goals for performance against headline metrics. Please enter date of expected sign off if not yet signed off. **This accountability must not be delegated.**

Data completeness and data quality:

- Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells in this table are green should the template be sent to the BCF team: england.bettercarefundteam@nhs.net (please also copy in your better care manager).

- The checker column, which can be found on each individual sheet, updates automatically as questions are completed. It will appear red and contain the word 'No' if the information has not been completed. Once completed the checker column will change to green and contain the word 'Yes'.

- The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.

- Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Template Complete'. Please ensure that all boxes on the checklist are green before submission. Please contact your regional BCF team if you have any issues.

3. Income

This sheet should be used to specify all funding contributions to the HWBs BCF plan and pooled budget for 2026-27. This section will be pre-populated with the NHS minimum contributions, Disabled Facilities Grant (DFG) and Local Authority Better Care Grant (LABCG). For any questions regarding the BCF funding allocations, please contact england.bettercarefundteam@nhs.net (please also copy in your better care manager).

Additional Contributions

This sheet also allows local areas to add in additional contributions from both the NHS and local authority. You will be able to update the value of any additional contributions (local authority and NHS) income types locally. If you need to make an update to any of the funding streams, select 'Yes' in the boxes where this is asked and cells for the income stream below will turn yellow and become editable. Please use the comments boxes to outline reasons for any changes and any other relevant information as this will ensure section is marked as complete.

Unallocated funds

Plans should account for full allocations meaning no unallocated funds should remain once the template is complete.

4. Expenditure

Please see tab '4a. Expenditure guidance' for further information.

5. Metrics

For 2026-27, local authorities, integrated care boards (ICBs) and HWBs will be expected to monitor performance and improvement for the four metrics listed in the Metrics Handbook <https://future.nhs.uk/bettercareexchange/view/objectID=277641413>, available on the Better Care Exchange:

It is a national requirement for partners to set local goals in relation to the following two metrics:

- Non elective admissions to hospital for people aged 65 and over per 100,000 population
- Average length of discharge delay for all acute adult patients

HWBs are also encouraged to set goals for the metric on long-term admissions to residential and nursing homes for people aged 65 and over per 100,000 population.

We also expect HWBs to monitor and drive improvements for the metric on the proportion of people aged 65 and over discharged from hospital with reablement provided partly or solely by local authorities who remained in the community within 12 weeks of discharge.

Further details on the metrics, can be found below:

1. Non-elective admissions to hospital for people aged 65 and over per 100,000 population. (monthly)

- This is a count of non-elective inpatient spells at English hospitals with a length of stay of at least 1 day, for specific acute treatment functions and patients aged 65+
- This requires inputting of both the planned count of emergency admissions. The population figure is pre-populated using the latest available mid-year estimates.
- This will then auto populate the rate per 100,000 population for each month

Source statistics: <https://digital.nhs.uk/supplementary-information/2026/non-elective-inpatient-spells-at-english-hospitals-occurring-between-1-april-2020-and-30-november-2025-for-patients-aged-18-and-65>

2. Average number of days from Discharge Ready Date to discharge (all adult acute patients). (monthly)

- This is calculated as the sum of all bed days between the Discharge Ready Date and discharge (bed days lost) for patients discharged in a given month, divided by the total number of patients discharged in that month.

In completing the table for 2026-27 we ask areas to set out these two components and sheet automatically calculates the average figure:

- In a given month, the total number of patients discharged on the same day as their Discharge Ready Date, divided by the total number of patients discharged in that month.
- The sum of all bed days between the Discharge Ready Date and discharge (bed days lost) for patients discharged in a given month, divided by the total number of patients delayed by at least 1 day and discharged in that month.

Source statistics: <https://www.england.nhs.uk/statistics/statistical-work-areas/discharge-delays/discharge-ready-date/>

3. Long-term admissions to residential and nursing care homes for people aged 65 and over per 100,000 population

- Admissions data is taken from the Client Level Data (CLD) source published on a quarterly basis and presents admissions as a rolling 12-month total, calculated to the end of each quarter and reported as a rate per 100,000 population.
- Population are based on a calendar year using the latest available mid-year estimates.

Any improvement planned in reablement can be noted in the narrative template but does not need to be included in this numerical template.

For missing pre-populated actuals data from November 2025 to date, please check the BCF dashboard on the DHeXchange which will have more recent data as it becomes available.

6. National conditions

This section requires local authorities, ICBs and HWBs to confirm whether the three BCF national conditions and planning requirements detailed in the published BCF 2026-27 guidance will be met. The assurance statements in this section refer to specific planning requirements, supplementing the information provided in the narrative template and this numerical template.

This sheet requires the local authorities, ICBs and HWBs to confirm 'Yes' or 'No' to the assurance statements. Should 'No' be selected, please note the actions in place towards meeting the requirement and outline the timeframe for resolution.

In summary, the national conditions are as below:

- **National condition 1:** ICBs and local authorities must develop joint plans, agreed by health and wellbeing boards, outlining how ICBs and local authorities intend to use BCF funding, to deliver more integrated and preventative care, linked to the wider development of neighbourhood health and social care services.
- **National condition 2:** ICBs and local authorities must comply with all national grant and funding conditions and deliver in accordance with their approved return. ICBs must maintain the NHS minimum contribution to adult social care and pool NHS BCF contributions into a section 75 (of the NHS Act 2006) pooled fund.
- **National condition 3:** ICBs and local authorities must comply and engage with BCF planning, governance and reporting requirements including adherence to any assurance and oversight processes.
