

APPENDIX B

KEY AREAS FOR INCLUSION IN THE STRATEGY

(FROM NATIONAL GUIDANCE ON THE DEVELOPMENT OF LOCAL FLOOD RISK MANAGEMENT STRATEGIES)

- How the LLFA function will be carried out
- How national strategic aims and objectives translate locally
- Relationship with the national strategy
- Legislative functions, translated into aims, objectives and outcomes
- List the local risk management authorities, ensure that they are aware of their responsibilities, consult and cooperate with them
- Explore the relationship with local priorities of both LCC and partners
- Integration with other plans (e.g. catchment plans)
- What are main objectives and measures to manage flood risk
- Working together to protect people and property
- Identify how the Preliminary Flood Risk Assessment will inform the strategy
- Identify current and future flood risk
- Identify quick wins
- Identify and prioritise schemes
- Determine what is affordable and realistic
- Cross-boundary working
- Schemes proposed by others
- Funding streams
- Take account of climate change
- Civil contingencies
- Links with the planning system
- Data and information management
- Equality impact analysis
- Reporting on and reviewing the strategy
- Governance and member involvement
- Engagement and communications
