

What are all of these meetings about?

Child Protection Plan

This is something that professionals agree on, that is needed to help keep you safe and help things change for the better. This is like a list of things to do by social worker, family and professionals.

Child Protection Conference

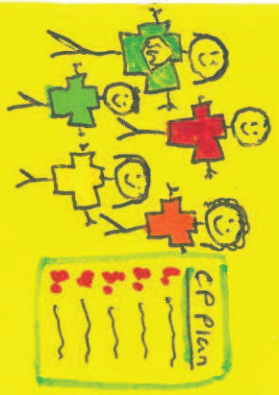

Everyone meets to say what we are worried about, what's working well and what still needs to happen or change. I will ask you what you think and tell people in the conference.

Core Group Meeting

We have these meetings in between the conferences to make sure everyone is doing their part of the child protection plan.

Looked After Child Review

If children are staying in foster care, these meetings check that everything is going ok and there are no problems.

If you are ever not sure - just ask!
